2606. Sony CRF-150 manual?

Hi,

I've picked up a working CRF-150 for a restoration project recently.
I've gathered from the posts I've read here these radios are darn near
impossible to open without the manual. If anyone has one they care to
liberate or would be so kind to copy, please email me at salmonsm at
missouri.edu.

Thanks!

You might contact Fred at Universal Radio to see if he has a copy of
the tech manual. He was able to help me on a much older National
receiver, so his filing cabinet may hold a surprise. Expect that they
will charge a copying fee.

Here's some information on the 150 from their website:
http://www.universal-radio.com/used/sold137.html

For whatever it is worth I owned a similar model from Panasonic, the
RF-5000b. A few band lights were out and I figured replacement would
be easy with the tech manual and Panasonic actually had one in stock.
Those little lights were tucked so far inside that a complete removal
of a complex bandswitching mechanism would have been required. Not
wishing to risk totally disabling an otherwise good performing radio i
decided to live with a couple of dead lights.

If he is travelling and wants something small, and $50.00 or less,
then he might want the radio to be small enough to fit into a pocket
and not take up much space. The KA1102 is probably as big as he would
want to go. But the KA1105/DE1105 or even the DE11/KA11 would probably
be better for being small and taking up very little room.
The Redsun 2100 is probably much too big for his purpose.

This is a workable concept over a short distance; the shorter the
better. A practical example would be a induction stovetop where the pan
is right on the other side of a ceramic top from the induction coil.
Many people have these but a drawback is that you have to have iron,
copper or steel cookware. Glass or ceramic pots and pans won't work.

The idea is to put all the power into an induction field and not radiate
the energy to a greater distance than 1 wavelength of the operating
frequency. Energy in a local induction field does not leave the local
circuit. A local power induction field could easily cause a radio not to
function and even damage it.

This is not workable over the distance of a house. The power induction
field would have to saturate everything in the house including people.
Currents would flow in any conductor and heat it up.

It's pathetic the junk people post here, when if they were actually
listening to their radios (which this newsgroup is about) they likely
would have heard it. The fact that you repost some old media story
indicates how clueless you are, because if it's in old media people
will hear the news. Once it's on the radio, or in the newspapers, or
on tv, there is absolutely no point in idiots like you "playing newspaper"
and posting such junk, not to this newsgroup where it's off-topic, and
not to any newsgroup (because nobody needs the information).

It's also pathetic the level of illiteracy today, people too lazy
to at least put some news story in their own words.

QUESTIONS :

Q 1 - Is it a Flat Roof ?

Q 2 - Are there any Metal Objects sticking-out of the Roof ?
* Metal Vent Pipes
* Metal Fire Ladder
* Elevator Service Shed
* Metal Doors
* Metal Trim
any and all of these may be grounded.

SUGGESTIONS :

First - Mounting and Grounding
Usually with Active Antennas that use a relatively
Short Vertical Whip Antenna Element : A single
piece of Metal Pipe 9-21 Feet will work well as a
Support Mast and can be Grounded at it's Base
thus providing a Solid-Heavy Ground Connection
and Vertical Counterpoise to the Vertical Whip
Antenna Element.

Experiment = Test-and-Retest = Trial-and-Error
Most of the Time on a Roof a Metal Mast mounted
on a Vent Pipe will do the job of Grounding an
Active Antenna - You may have to try several
different Vent Pipes of other Metal Objects to find
the best one that works for you on 'your' Roof.
- - - The Exception being new construction where
there may be PVC Pipe inside the Building with
just a Metal Pipe and Flashing at the exterior.

-IF- You can not find a "Ground" on the Roof
Try making your own Ground-Refector {Plane}
-ie- Counterpoise = Ground Radial System
* Measure the the Height of your Mast
* Cut two pieces of Wire Fence Fabric
http://www.tjwiremesh.com/wire_mesh/welded_wire_mesh/galvanized_welded_wire_mesh.htm
that are at least as long [1X] to twice as long [2X]
as the Mast is High.
* Lay-out the two pieces of Wire Fence Fabric
"Flat-on-the-Surface-of-the-Roof" in an "X" Shape
{Crossed/Perpendicular to each other}
* Connect the Mast and the two pieces of Wire

Fence Fabric all together.
* The Wire Fence Fabric should be 18" to 36" wide.
- - - This may be 'the best' that you can do for
'lowering' the Noise Level of your Active Antenna
on an Apartment House Roof.

FWIW - You have already discover the 'other'
"Thing-To-Do" - Which is to Raise and Lower
your Active Antenna to Find-Out the best Height
to position and mount the Antenna Element.

hope this helps - iane ~ RHF {pomkia}

First, it's none of your business what the seller asks -- if you don't like it, don't bid on it.

Secondly, "too high" depends on whether or not it sells at that price, not your (or my) opinion.

Thirdly, the price of one Kenwood has very little to do with the value of a different model.

Because it would be abysmally stupid to try to do so. You'd need about
10 times as much bandwidth if you used FM for the video, and using AM
for the audio would make it susceptible to all manner of noise.

Hope This Helps!

Isn't the interference on AM video as much of a concern as it would be
on AM audio?

Nope, not really. The creators of the analog TV standard
did something very clever and yet very simple - in choosing
VSB-AM for the video modulation, they also set it up with
"negative modulation," meaning that the peaks of the
modulated signal correspond to the "blackest" portions of
the video (luminance) waveform - which happen to be the
sync pulses. This means that, in the presence of noise, you
are still very likely to maintain a stable picture; the picture
itself may degrade and get a bit "snowy," but you can still
see it. And it really takes quite a bit of noise to make visible
"snow" show up in the picture. For one thing, video has tons
of redundancy due to the repeated raster-refresh scanning,
so you're very unlikely to see the occasional noise spike.
But also, due to this choice re the modulation, low-level
noise is most likely to show up affecting the brighter parts
of the image, where it is a good deal more difficult to see.
VSB-AM was really the ONLY practical choice for analog
video in the broadcast world. And, as has already been noted,
the situation re the modulation schemes used with "digital"
television are considerably different/more complicated.

I acquired a DC777 a number of years ago. (It's a shortwave set for cars.) The swing down door has the overlaying keyboard totally missing. The underlying switches are there. (No way to remount the door though.)

Tried Philips website, no help. Anyone have a service manual and/or schematic. Especially needed is the connections for that darn keyboard. (Googleing hasn't helped, I tried!!!!) May try to *rebuild* an external keyboard.

Thanks for *any* help!!! Can be reached at geferg at prodigy.net. Eric

maybe? If not sit down and chill a little.

Since the TS850S is a much better receiver than a R5000 (if you dispute
that, well, it's your opinion alone, for the most part), AND has a 100
watt transmitter in the same box, it should be worth more.

I've owned 2 R5000's. Nice audio, but $700 is just not a realistic price
for a 20 year old, or close to it, receiver that runs very hot on AC
power.

Any Philips DC777 owners?

1. Ken Klimasewski ---> show profile ... click here ...

I would like to hear from some fellow DC777 owners. How are they working?
Have you performed any mods?

I had to repair the display on mine as it started to loose segments. It
turned out to be several cold solder joints.

What type of antennas are you using? I am using the stock car antenna.
I have started to play around with a AM/FM signal booster, the type you
see selling in dept. stores for around $10.00-$20.00. The first one
I tried improved shortwave slightly but made 530KHz - 4MHz worst.

Like to hear from other users of the DC777.

Was there a service manual available??

I have no idea who the seller is. I'm just sick of all the price cops who go hand-in-hand with all the USEnet cops. What someone asks for an item is nobody's business but his own. If it's too high, it won't sell. Period.

Possibly not to someone who wants only a receiver.

ABC started back in 1943 when the FCC used to believe that radio consolidation was bad and made NBC sell its Blue Network.

I would guess at some point, Citadel will change the call letters of stations with the same call (except for -TV) as Disney TV stations in the same city. (e.g. WABC, WLS, KABC and KGO)

In xomd cases when TV and radio stations have split ownership, and there sas a three letter call, one of the stations added an additional W or K. (WWOR near NYC, KKOB in Albuquerque/

It's been done before. When KGW AM was bought by CC, they got rid of the
call, one of the oldest in the NW. Several other stations with calls over 60
years old have gone in the past few years.

2675. Suggestions for an Indoor shortwave antenna to go with a Sony SW7600GR

G'day everyone,

I've got a Sony SW7600GR, and it's been going great guns for me for the past 4 years or so. I now feel that I'm ready to take a step up and try using a more powerful antenna (atm I'm just using the supplied wire loop antenna that couples onto the whip antenna). Unfortunately I live in an apartment complex, so that rules out outdoor antennae *sigh* I also don't feel I have the necessary confidence to build my own antenna at the risk of frying my radio (which would be very difficult to replace - can't seem to find anywhere in Australia that sells them anywhere).

I'm thus looking at the Sony AN-LP1, Kiwa Pocket Loop (with PRM) or the AOR LA380. Now all are quite pricey, so I want to make sure I get the right thing! Does anyone have any recommendations as to which ones might offer the best performance? All three have been quite positively reviewed, I'm just wondering which one out of the three might work best with my receiver...

Any advice would be greatly appreciated.

Daxiuyi
Sydney, Australia

PS: Have searched this group on this issue and while people have recommended the Sony, it's always been in comparison to other window loop antennae. I can't find any comparison between it and the Kiwa and/or AOR. Also some of the comments on this have been a few years old, and was looking for a fresh perspective ;)

I guess the mods to move the regulators to the outside were just for grins, right? I had two of them, and they ran way too hot on AC power for my tastes. Those regulators were super hot. If you would have taken the cover off, it was more than obvious. I wonder how many R5000's failed due to one of those regs cooking itself to death.

Larry,

That is correct the $700 is the Buy-It-Now Price.

Figure a 70% to 85% Reserve Price based on the
$700 Buy-It-Now Price : The Reserve would be in
the range of $490 to $595.

Seems to be Two (2) "Interested" Bidders so far.

imho - at this price-point there are several other
swl receivers that are worth considering ~ RHF

The absolute most I personally would go would be about $500. No way even $600. My luck would be it would work ok, except the keypad would start

the keybounce thing.

There are R71A's, NRD525's, etc out there for a lot less. I would take a 525 over a 5000, anytime. For $700, you're close to NRD535 territory.

You can probably glue ~30 feet of wire on the outside of your
windows..

and if you are nimble, you should be able to toss some wire from one
window to the next;

that should help

2690. Amrad antenna

I am going to order some of the crystalonics Jfets for the Amrad antenna. My friend recently built the antenna and he gives it two thumbs up. The fets are priced at I think $14.75 for 2001 prices. I have asked Crystalonics to hold this price and I am awaiting word back. I will order a few extra so if anyone is interest in building the antenna ask me for fet now. The reason I bring this up to group its that the antenna is very good, and Crystalonics doesn't really like selling one part at a time. If you have no idea what I'm talking about then email me and I will send you pdf if you want.

Ok, my apartment is more than 30 storeys up, so tossing a wire is not really possible. Plus my landlord's "a bit" fussy and so I can't leave a wire glued to the outside.

So far I've been relying on stringing my supplied wire antenna around my balcony. Besides, I feel it's time to give a more active antenna a go :)

Any other suggestions?

I once made a connector that let me use the 'braid' of the TV aerial cable as an aerial; it conveniently ran up the side of the house and onto the roof and pulled in a great signal.

I have to agree with active aerials though, I use a DE31 when I'm in hotels and they are a great solution.

Sounds fishy to me, and yes any iron in it's way is going to suffer
eddy current and Hystersis losses and heat up. Could cook some eggs
on the hood of your car on a cloudy day maybe.

I remember them telling me in school - GO BADGERS! - that in order to
have a field that was not static there had to be both H and E
components. Is it possible to have a field in the MHz range that only
has one component? either B or E? I don't think so.

As I remember the reasons, the three letter calls are reserved for
maritime shore stations. So the only Medium Wave broadcasters that keep
them are "grandfathered" stations that don't change their call letters.

The time change of E or B produces a perpendicular B or E, which is what gives a wave equation. I think Maxwell intuited that as a ``displacement current'' necesssary to account for the circuit completion in charging a capacitor. Anyway it turns it into a wave equation, which I think he also noticed.

Think dE/dt=-B and dB/dt=E and notice that cos(t) and sin(t) are a solution.

The actual equations have a curl to turn it into something involving space as well.

If it's changing, it propagates.

2708. I bough a Kaito KA-2100

I purchased a KA-2100 from an E-bay dealer in Annapolis MD. the price was fair, the delivery was excellent.
What everyone said about it was true. For the price it is a very nice receiver.
I placed it against the Grundig S350 DL on the same antenna, my 50' copper wire strung across the ceiling of my apt, and did both day and nigh evaluation.

I found the receivers to be very close in overall performance.
The 350 DL beat the 2100 in nightime sensivtivity, but not by much.
The 2100 beat the 350 DL during the afternoon.
(However, daytime reception here has been pretty lousy and unpredictable).

The 2100 does have an overall stronger receive, and the bandwith switch works very well.
The 2100 does lock onto a frequency and holds it, without any significant drift, while the 350 DL does drift some, but not enough to really matter.

Both receivers are truly accurate and right on frequency.

Overall, the KA-2100 is a good purchase for the price. The featuers are very good, the lighted buttons are cool, the Q-Tune isn't bad since it doesn't have key pad tuning, and the 50 memories seem adequate. I dont use many memories in SW receivers, so to me that isn't a good, or a bad feature.

The sound is clear, and as loud as you want it to be, with the big speaker, two tone controls and an AF gain.
FM Stereo over headphones is excellent.

I'm glad I bought. It's a fine receiver for thr money, and a welcomed addition to my radio collection.

I think it came with the Tecsun R9700DX, but I cant remember for sure.

It's a 30' wire black insulated wire with a plastic alligator clip on one
end.
I've never used it much.

One evening recently, I decided to open the window, and drop the wire out of
of the small space between the screen and the window frame. I clipped the
end to a variety of portable receivers.

Sony-7600GR
Grundig-YB-400
RS DX-398
RS DX-202
Kaito KA-1103
Kaito KA-1107
Tecsun R-9700DX
Tecsun-PL-230

The results were impressive. It gave the portables stronger receive, better
clarity, and improved sensitivity.

The 1107 strugged with selectivity, but the rest performed well.
I have used that a few more times, when the weather is cool enough to open
the window, and turn off the A/C.
I'm anxious to use it this fall.

Super hot?????????? Not hardly.

I haven't heard of one. The receiver has been around since 1987 so I
would assume that stories of R5000 receivers burning up from "super
heat" would be all over the net by now. How many failures have you
read of that are traceable to overheating. Indeed how many of those
receivers have failed for any reason. Not many in my experience.

The AmRad design is based on Dallas Lankford's work.
You really need to look at The Dallas Files at <http://
www.kongsfjord.no/>
and check out "Some of My Favorite Small Antennas for MW and LW"
and "Low Noise Active Antenna AC/DC Power Supplies".

Dallas's solution to heatsinking the FET is much more stable then the
rigged
AmRad. I have built several of both designs and Dallas's is the clear
winner
in my RF hell hole. Dallas used a pricier version of a stock heatsink,
if you
are interested I will dig out the current part number.

The stock AmRad is a good antenna, but I found Dallas's worked much
better.
Even his simple JFET/Bipolar gives the AmRad a good run for the money.
$3 worth of parts and no heat to speak of, and the ability to operate
from a
standard 12V supply.

The AmRad DC supply uses a special Signal ? transformer that was very
pricy.
And it is very hard to build an AmRad with any other transformer. I
suspect,
but since I traded my remaining stock AmRad away, has greater then
normal
isolation from the mains, ie lower interwinding leakage capacitance.

For me the ability to operate from a stock 12V (or 13.67V in my case)
is a deal

maker. I want to be able to operate during extended utility power outages.

The dipole version is very robust with IMD and is damn near bullet proof.

Another very good antenna is his "15' Relay Switched Antenna", and if you
are lucky enough to live in a very quiet RF location, adding one of his "Ultralinear
2N5109 and 2N3053 Amplifiers" . The Kiwa Version 2 preamp is very similar
and works nearly as well. The advantage of Dallas' amp is you can customize
the gain etc.

Ok, thanks for the input Terry. Like I said my friend built one and
he likes it. I'[ll bet he didn't pay anything for the parts though.
That's one of the pleasures of working for a High Performance radio
manufacturer. I'll go price a transformer and see where that takes me
before I take another step. I've got the elliptic filter/precision
detector project underway and hope to finally send the board to fab at
the end of the month. (All boards spoken for.) LT has a new multi-pole
filter that you can set the passband frequency with a pot. I guess it
has a vco onboard. Gathering parts for my next project- the Amrad.
Thanks again for the input as always it's valued.

-IF- you have two Windows try running/routing
the Wire across/between the two Windows

You might want to try out one of those small magnetic loop antenna's.
They allow you to null out any interference from the apartment and
generally they pick up less noise anyway. Put it on a stick and direct
it out of the window...

Experimenting with antenna's should be half the fun of shortwave
listening. Its the most important part of the listening station and
theres sooo much to gain, especially in challenging situations such as
you are in yourself!

Dont know either, but I know mine ran HOT. And just for the lost energy alone it was enough for me to decide and buy an external 13,8v supply. Now I can safely put something on top of the rx again (like a logbook or guide) without having to worry about all that heat...

2737. Can you help me stop my equipment generating radio interference?

This might be slightly off-topic, because the interference generation problem I need to solve involves long wave radio - please suggest a better group to post to if you know one.

Problem: Located in the UK, I have a robot mower which is guided by a perimeter wire laid around the edge of the lawn. Works fine, but generates RF interference which hits my neighbour's long wave radio reception (e.g. station Europe 1 at 183 kHz).

First attempt to solve: I have put a filter provided by the mower manufacturer in-line with the drive to the perimeter wire loop. This makes a difference - instead of all stations being wiped-out, you can now hear them, but listening to some stations is unpleasant because of interference whistles which are still present at various frequencies.

Next attempt to solve: The mower manufacturer is about to send me a second similar filter, which I can try instead of or in-line with the current filter.

In case that does not work well enough, can anyone suggest a DIY filter that should fix the problem?

Thanks,
John

Neither would change the fact that you're a fake Hispanic and have been so

Find out what frequency the mower needs, and filter out everything
but that. That's what the manufacturer should have done, but has
saved costs (and saved you money too, presumably) by leaving it
out. There's filters and filters, but you have to know what they
have to leave untouched before you get anywhere.

My own suggestion is take up a hobby of cutting the lawn with a scythe,
which is a pleasant way to go out and exercise for a half hour a day,
cutting a couple additional 10' wide swaths across the lawn, and
just turn the radio thing off.

Yes, can't argue that point. Won't be stocking up on that one.
Supposedly some kinda magic inside relating to third order intercept
or something like that. Anyway my friend down the street built one
and he likes it A LOT. So here I go.

And I've owned stereos that put out some heat but ran for years. The
real question is whether Kenwood engineers considered the heat in the
radio design. Given the radio's excellent design, high performance
and record of reliability I suspect they did. The radio was well
vented so the heat was dissipated.

For you to get a reasonable answer, a bit more information is needed...

Is there any type of radiation from the guide wire? If so, describe the signal (frequency, power, analog or digital). If the guide wire is activated but the mower engine is NOT running, do you get the interference?

Or is the interference coming solely from the mower engine? What type of motive force is the mower using? Gasoline (petrol) or electric? If electric, AC or DC? If a DC motor, series wound, shunt wound or universal? Type of motor speed control (if any); e.g. pulse width modulation?

I do a lot of experimenting and improvising with antennas. I have a Kaito window loop I bought a few months ago, and it's actually not to bad for the price. I've been at this apt. living and SW-listening for quite some time now. I'm going to add a section for atp. dwellers on my website.
And, not just for antennas, but how I made up my own work benches on casters, so when you're not it, you can just roll it against the wall and use it for a shelf. You can screw a power strip on the front, and use an extension cord, so you can solder, drill, or plug in any AC device or wall wart. They also make a good recharging station for cell phone, batteries, or anything that needs a charge.

Another example. I figured out a way to make cradles for portables receivers, that you can put at just the right angle for your pleasure. I got the idea when the back stand broke on my favorite portable receiver, my old and trusty DX-398. Then I realized the size I was using was perfect for the larger portables like the Grundig S-350, S-350 DL, and they fit my new KA-2100 as well. It's nice to sit them at a convenient angle.

You can make 2 of them for about 5 bucks.
How can you beat that?

I have to photograph. them and then add them to the site.

The interference comes solely from the guide wire and/or the
electronics driving it. The filter supplied by the manufacturer plugs
into the output of the driver and the lead to the guide wire plugs
into the filter. I have no information on the frequencies the driver
is using (the only information about the signal is that it is
sinusoidal).

Check out Dallas's designs at <http://www.kongsfjord.no>, under the
Dallas Files,
"Some of My Favorite Small Antennas for MW and LW"

The intercepts he has achieved are fantastic, especially the dipole
versions.

Even the simpler, and less expensive, U310/2N5109 are great.

FWIW and IMO the Crystalonics JFET designs are worthy of only the very
best
receivers. The IMD products of the simpler unit is much better then
the average
SW receiver. By average I mean a R5000, any of the Lowes and the like.

An R8B or AOR7030+ clearly deserves the better and more expensive amp.
I have no experience with any Icom HF receivers so I have no idea if
they would
benefit.

The Crystalonics amps are the only active antenna that doesn't fold
under the
770 and 1240 nearby MW stations. His U310/2N5100 doesnt realy fold,
but I do
get very minor mix + and mix - artifact that is clearly the amp and
not the receiver.
My older Datong

Given that a good quaility coax terminated at 50 Ohms will produce a
S3 on
most receivers shows how strong the RF is at my home.

Chris over in the loop antenna group has a modified version of
Dallas's simpler
amp that might be worth investigating. Similar JFET, he uses the J310
which is
not quite at good as the U310 but shouldn't make a lot of difference
except in the
worst locations, but he uses a 1:3 transformer between the fet and
theBJT.

If you are going to build active antennas then you have to use the
best devices
available for even minimaly acceptable results.

Even the North Country active antenna will perform much better with a
U310 instead
of the stock JFET.

My older Datong AD370 goes completly nuts and a stock North Country
fairs even worse.
By "nuts" I mean lots of spurs all over MW and HF. Even the McKay
Dymek D100, or
whatever the active antenna they sold in 2004, acs badly with many

spurs.

Roadie,

Some peope who own the Kenwood R-5000 Receiver
have reported 'internal' Component Failures that they
reasonably believed were caused by the Receiver
Running HOT ! - - - IIRC usually these Failures were
"Fails to Power-On" and 'The Fix' was the replacement
of Components in the 'built-in' AC-to-DC Power Supply.

But - The vast majority of Kenwood R-5000 Receiver
Owners/Users have had many years of Trouble-Free
Operation of the Receiver all the time while the Receiver
was Running HOT ! - By Design -is- not necessarily a

I got the bar peen hammer, and the large anvil, which I recommend in their
``outfit'' deal. The neat-sounding ``jig'' may shape the edge automatically
but it leaves the edge extremely dull, in need of a lot of sharpening; where
the straight anvil and bar peen hammer leaves the edge nearly as sharp as it
can be gotten right off.

(Scythe blades need sharpening every 20-30 strokes or so. It takes 10 seconds,
and provides a slight rest, so becomes part of the rhythm. Every hour or so you
have to re-peen the blade edge to thin it out again, which is where the hammer
comes in. It all makes doing the lawn interesting and slightly skilled ; nice if
you don't mind doing the lawn over a period of several days and want a walk outside
every day. Unlike a sickle, it's geometrically impossible to hurt yourself with
a scythe, though you could hurt somebody else, I guess, if you're cutting in formation.
The things are nearly razor-sharp.)

JFTR, this was probably caused by overload - this kind of receiver
concept (borrowed from Sony's dual conversion multiband portables)
generally has a fairly poor dynamic range.

For One and All,
.
The # 1 'Most' "Reported Problem" with the
Kenwood R-5000 Receiver and How-To-Fix-It !
http://groups.yahoo.com/group/kenwood-r5000/message/2158
.
FWIW - To the best of my knowledge more
Kenwood R-5000 Owner/Users have reported
"Problems" with their Receivers : That are
related to Bad {Intermitant} Contact between
the Circuit Boards and the Receiver's Metal
Frame : Then any other 'problem' of note.
.
The simple Fix is to Loosen the Circuit Board
Mounting Screws and CLEAN the 'contact areas'
between the Metal Frame and the Circuit Boards
with-out Remove the Screws. A little squirt of

Contact Clearner usually does a very good job
of 'cleaning' the surfaces of the Contact Areas.
Give it a Minute or two to Dry -and- then re-set
all the Mounting Screws. Do this One Circuit
Board at-a-time and every thing should be A-OK !
- - - This simple Fix should last for several years
and is all that is necessary to have the Receiver
Running HOT and Trouble Free - just like normal.

"Do you care if another bomb went off in Tikrit?
Does it mean anything? NO! It doesn't mean anything."

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly.

Kill a bushite as the Love of Justice for Humanity

The Son of Man BEGS all honorable men to defend Life from bushite enemies of GOD who murder, rape and steal from innocence through lawlessness as thieves of everyone. Please kill the bushite for the love of women and children. kill the bushite for the love of GOD. Please, defend ourselves further hardships by supporting immediate war crime trials to begin against all neocon traitors who LIE OPENLY to kill America's America as enemies to truth, as enemies to Christ.

'Kill Anyone Still Alive': American Special Ops
http://www.atlanticfreepress.com/content/view/1784/81/

Can you not as a American Man, destroy bushite brayers to defend
innocent life? Americans could not care less presently for
the value of Human life. Americans do nothing to defend
their lives, but officially plan to murder more for the Satanic
demon antichrist in silence. Out of millions, how many even
bother to make a phone call to talk radio against the neocon.
how many? Five or six? Seriously.. How many? I know bushites
are demon liars for the neocon, but is it really impossible for
"Americans" to try speaking?, in the face of murdering millions
more forsaken by enemy mortal, pro child killer George Norry?
George Norry too nice of a guy to even bother question the value
of American children? The THIEF Art Bell's voice too soothing
to care that neocons own pirated America, and on everything she
stands whoring as WAR CRIMINALS to the FOR REAL antichrist?

Death to the lawless bushite, death to the enemies of Mankind

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying
Canadian soldiers with only true contempt. CBC kills Canadian
kids, with their intentional demon lies, trying to subvert
Justice for God and Johnny. In fact, yesterday, they did a
special, all on how "God is NOT Great", giving that bush bitch
demon LIAR, all the space to pontificate it's hatred for
Wisdom, Science, and GOD, with only nods and smiles from the
'illiterate' hord. Remember: A zionist KNOWS it's an enemy of
Humanity when it supports dropping seven million land minds to
murder indiscriminately OUR CHILDREN for decades, or stealing
a Christians Home because they say God says Jews would do such
ungodly acts. Blame innocent Jews the holocaust denying
zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier,
still blabs about how more must die unjustly for bin Laden
with LIES, knowing full well, video of steel flowing like
water from the WTC exists, and that General Ahmad funded Atta.
George Norry is a traitor to the FBI, who further plans more

to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Live free by defending liberty by killing pro lawless pro torture pro fascist bushite enemies my friend, live free by defending Yourself and GOD.

/ / The U.S. State Department recently issued a report calling Sudan a "strong partner in the war on terror." \ \

The high jacking Bush regime is supporting financially a TYRANNICAL 'government' that openly practices Genocide, as just the sort of "American" partner to assist in determining which further murder victims are terrorists. While the same demon administration confesses to FUNDING middle eastern al-Qeada to commit TERRORIST acts in Iran, as demon evil tyranny against the sleeping Sheeple. Again, it is fully confessed that the Satanic bushmob is pro terror now. Death to the enemies of Freedom, death to the bushite betrayers of Life instead of YOU my innocent friends. Instead of US.

/ / US 'used forced [SLAVE] labour to build Iraq embassy' \ \

KILL A BUSHITE LIAR I PLEAD TO ALL TRUE MEN OF EARTH
- HELP US PLEASE - SEE THE BUSHITE TYRANT ANYWHERE
AND KILL IT FOR GOD AND COUNTRY, AND YOU MY FRIEND,
WILL BE TRULY BLESSED BY ALL AS REAL LIBERATOR.

Kill a bushite LIAR and be loved by God as Life is True.

DOWN WITH EVIL, UP WITH FREEDOM.

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. "The Liar" Hannity's America, can go it alone as treasonous liars, who boastcast a con to 'neutralize' America; 'finding' that we believe their demon lies about how one dies sacrificed 'Heroic' without any IMPORTANT questions answered. do we do?

To Kill a Bushite, is to be Heroic

To further murder as these ungodly bushite liars do today as our suffering Mankind, is to blindly swear public allegiance to the for real DEMONIC antichrist THIEVES. Bushite enemies are evil nazi dumfuk scum, liars who cowardly watch America in her weakness be high jacked, and squeak nothing for Just words in our REAL defense for dying. Play pretending their actually real men, because to really be so, requires real strength. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command,

'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. So, let's get done what needs to be a doing to save ourselves, so we can get this talking all behind us now, and reach for something truly breath taking as awarding,

Your Servant,

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly. We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt. Bushite tyranny is a dead end road paved with missed opportunity. change your evil ways in other words, and join the living side that's light to know what we are, in deed, looking at here under the dying spoils of bushite, "we pay" misfortune. To hell with Satanic demon devil worship by the President of the United States, We, the People answer, for now anyway, we have some really serious business just presently, and we really don't need to be any more reminded about Mr. Bush's satanic Devil demon whoreship of "Molech", a religion practiced to deceive America into sacrificing our kids for cash with YOUR blood.... Tricked. Tricked. Tricked.

Nationless bushites who blindly war Life as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled inspectors out of Iraq, but then... how is this not HELL to pay?

/ / Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power." \ \ HE LIED. Not the 'NWO', George Walker Bush, who Alex Jones tells US to look away, because he's only a puppet. Should not Bush be held accountable to the criminal actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

Neocon Soldier

Bushites who war as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their

flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors

to God and Country.

Bush Successful at Permanent Legalization of Torture
http://www.prisonplanet.com/articles/march2006/070306Torture.htm

/ / The truth is that the Bush Administration has used the McCain
anti-torture bill to codify a policy of torture that is now
embedded in our legal system for perpetuity. \ \

McCain is some kinda demon enemy of God isn't he? To say
publicly, he apposes torturing innocent people to death for
the practicing Satanic bushite LIAR bad guys, leaves US
thinking, shouldn't WE put McCain to death for OFFICIALLY
sanctioning such criminality? I'd easily, without a second
thought, put to death all those FOXJunkies in that debate
audience who cheered from hell with JOY, the prospect of
torturing innocent people to death, 'if it means' such
IRRATIONAL action protects "American lives". See? the Magic
TV and radio people refuse to allow me or anyone to think
through such absent minded ungodly EVIL intent. Example: If
you take FOXNews' word for it, and 'knew' your potential
victim knows for sure of an impending terror attack... ...

nazi vermin haters of Justice measured, [who steal in MY
America as TRUE EVIL DOERS,] forbid such wisdom communicated
as understood, for that would mean, we'd have to allow the
real Victims more air time.

And wise poor men such as myself would command respect and gratitude.

and together, WE'D be hunting down those bushite liars who
torture innocent people to death for their satanic pleasures.
For, you know it does warrant the Death Sentence in America,
right? (You can thank Reagan for that...)

Pill popping American GI teens are becoming.. CRACKHEADS!

http://www.zmag.org/ZMag/articles/march02levine.htm

/ / Dexedrine affect the same neurotransmitters as cocaine; and ADHD drugs and cocaine are both classified by the DEA as Schedule II psychostimulants (Schedule II drugs are legal drugs that have the highest potential for abuse and addiction). \ \

American grunts get FREE all the Dexedrine they can shoot

Do you know how a crackhead finds itself? Lost by indifference to the ultimate, only goal, more dope. Freedom Fighter? or crackhead WHORE, who hopes to find a dollar 'somewhere' to stave off it's crackmaster, the "American People", led by the un-elected demon dictator, our criminal Mr. bush Jr., as the true enemies of all Mankind. Bushites are on serious dope to be so dumb as cowardly accomplices to a traitor of themselves, that they would die as, before actually defending God's America - that they gave an Oath to.

I guess a soldier's word doesn't count for much in bushville.

The bushmob did 911 as traitors to God and Country, don't you know anything worth living for? my dying unjustly brothers and sisters? My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite

thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by refusing to be honest about our potential to be far greater than first considered. If they'd only allow US to have open communications, all our worlds would be better living for it.

Demand Coast to Coast hosts allow America to defend America.

I want air time with the one and only real man in these here parts, Mr. Johnny America, our glorious make believe creator of all we perceive religiously, self realized. He's a genius!

Death to the zionist bushite enemy forces

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice -

for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining

Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

Pro-Torture of INNOCENT PEOPLE McCain "Insensitive to what?

pro-torture Zionist McCain for the Love of living Life Justly,

/ / After playing a tape of Cheney's statement, Russert asked
Daschle, "Did the vice president call you and urge you not to

PRO-TORTURE Gonzales "I quite frankly don't like the idea of
the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who

As US State Attorneys?, whom have the most serious of American
Justice Department Motions of Defense for REAL Freedom?, he's
not concerned directly with?, nor would "like" democratic
Peoples to be allowed to care either?. IF he gets HIS way he
says - as minding for the criminal master. True, Americans
are generally, extremely cowardly as Bush's freely giving
PAYERS, led for more ungodly sacrifices in fascistic silence,
but this continuing charade of incompetence gathering against
our entire Humanity, is going way beyond acceptable to
everyone concerning. Johnny Wizard conceivers and otherwise
non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS,
while George W. Bush personally stole 50 billion from America
in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her
little sister and put her in front of me . . as the bullets
began to fly, the blood sprayed from between her eyes, and
then I laughed maniacally." [, then were heard the cheers of
godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the criminal escape of the bushmob for 911 as CLEARLY TRAITORS, so says the one and only,

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in
crime"

/ / Never in modern history has country been forced to pay for
its death, torture, and destruction with its own money - its
own oil revenues. A country where thieves are entrusted with
its richness and where murderous gangs are entrusted with its
security. \ \

Look, CNN, CBC, and FOx News know the bushmob did 911, but
will smile while watching your son or daughter sent out to die
CONNED by their demonic hatred for US freely communicated.
How do I know this? I made the effort of making the phone
calls.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Defend freedom, and the FBI, by demanding Coast to Coast radio hosts allow free communications, absent their personal contempt for preserving freedom to be our America. pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending

with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

US officer "upset" Iraqi suspects taken alive, court hears

Rapists and torturers must not be allowed to rule our pirated

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for

Why? because, they, the very weakest intellectually of

rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate

way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule

of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our
highest of priority issues, and get started with the nothing
to hide from anyone global arrests, with PUBLIC court
proceedings, done all for our public interest as the refusing
to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating

bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially
deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a
candid interview on Bush's deeper than ever political thoughts
about the war, up front, and personal. Surely, an historical
event such as this, with the revelations contained in his own
shockingly powerful words, while granting a stage in Johnny
Wizard's World, is frankly, beyond the pale, quite shocking in
perspective I'm sure I would state again. I feel confident
Bush's surprising candor on life's humbling higher meaning
wont make the crazies 'out there' any more less right per say.
As for the barely living of you passing travelers to our dying
Realm.... be ready to be taken on a journey of such profound
discovery, with a wit never before witnessed from President
Bush!, all about the cruel hardships Americans continue to
endure without guidance through effective leadership. Without
evidence to form his guilty verdicts. That orders the murder
of the innocent with. I kid you NOT. Hey? maybe the Son of
Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and

ourselves in the dug pit of his utter contempt for
our free to be alive communications.

'A military judge ruled last week that Watada cannot base his
defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite
are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."'
[...] the [bush whore] American, speaking through a translator,
warned him that he did not want to see any AP photos published
anywhere.\ \

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press
a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly
advocates the rape and murder of the innocent in Iraq to
thieve from for the 'escaping' neocons, (as the truly
UNGODLY,) stated these words about why American Soldiers
continue to lawlessly DIE sacrificed for no better good or
reason understood, as total willing dumfuks under deep
hypnosis:

"It is not George Bush, it is not the Neocons, it is not
people who have been advocating waging that [IRRATIONAL 'Evil'
UNJUST] war [against the established innocent] where we find
our [hidden from view] enemies, who are responsible for that
fact that we are indeed in a global war [sacrificing our
conned kids to the un-accountable war profiteering thieves of
American labor as the UNELECTED]. It *is* the enemy that
started it, that is pursuing it, and that is trying to bring
it here back here home now. [, and that way, us neocon
zionists would miserably fail against those who would speak in
freedom's demand for Universal Justice. Real freedom I mean
of course, you know, evidence to form conclusion factually,
public trial by questioning juries, blah blah blah. We can't
have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US.
Either Gaffney suffers from some blind dolt syndrome, where he
clearly can't see himself flailing madly in criminal
ignorance, or he's an accomplis of blatant treachery, to help
escape his demonic war profiteering benefactors who murdered

thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of

Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though, so, as natural consequence, America IS dying for their own personal contempt for the value of Your very own soul. THEIVING zionist TV america won't put in ten minutes of caring for the lives of anyone bombed indiscriminately, but for to continue thieve from US as God unrepresented. George Norry supports in his broadcasts the murder of Arab children as the godly innocent, so, I support his immediate execution with AIPAC Hannity as lying demon nazi traitors to God and America. AIPAC people are really who all of Humanity should target as questionable, for first understanding what these, corporate professionals who are paid tons in spilt blood to spew lie after lie are, then after open debate, where ANYONE, even anonymously can speak in their defense, we hunt each and every guilty lying zionist devil worshipper down, and burn them at the stake gloriously for God and Country.. Sound good? Or are we going to continue to go with, Israel is Jewish because

while torturing their "friends", they thieve innocent Peoples homes, and incarcerate tens of thousands without charge, or bail, or Court. While dropping more than seven million American worker paid for land mines in Lebanon, across 170 towns and cities to murder children indiscriminately for decades. I say, save some lives, kill the zionist, and be a friend for Life to God from the Bible. Or, go to hell and see if we care.

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Die bushite die.

My friends, People are dying because the magic radio and TV
wont broadcast our publicly available findings. Police
findings. People are dying needlessly, illegally,
irrationally like meaning really stupidly on Bush's behalf,
for they claim, we don't want to be 'embarrassing ourselves',
leaving our forsaken Johnny Wizard's Wild Wow World of Wonder
Wording Wees!.. mostly just appreciated by myself as sole
surprised spectator, because you people seem to not be there
for God when the chips are down, and truth is plain to see..
911 was an inside job, and CBC with CNN don't want to tell us
about it, but will watch our LOVED children lied to, to go out
and die further for a causeless war of criminality
unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

Onward Christian Soldier.

tense and orders may be shouted in English which family
members do not understand. Sometimes, troops may simply
consider a house to be a ``free-fire zone'' and commanders may
give orders to ``shoot first and ask questions later.'' \ \

This is why the Son of Man through God begs the Peoples of
Humanity to kill on sight, the enemy bushite betrayers to
Life. Ourselves, the innocent. These soulless grunts don't
destroy such deserving commanders, Like Blount, Sattler,
Russell, Wuterich, Pantano or even Kimmitt, and instead, as in
Fallujah, murder every woman and child present, while stealing
all our given monies for desperate life saving help. Anyone
in the Air Force deserves to be justly put down, for, I've
NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk
Marines, or the 'from the coast' Canadians, who of course,
rightly get killed on the ground in retaliation for such blind
evil stupidity. Please, I beg, help Iraqis, and kill the
bushite thieves to defend our forsaken God. American
children, help me my loves. Please don't allow the bushmob to
escape for the treasons against America on 911, for, bushites
are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American
citizens. Bushites need to be hunted down for destruction -
by the Loyal Christian American Patriot Soldier, the ones who
war to win against those who torture US innocent to death as

the ungodly Satanic LIAR enemies. Save the Humans, kill a bushite false accusing traitor of American Freedom To-day, and become a real Man in the presence of Johnny America, an actual Man of Men, Lord of Lords, and King of Kings.

McCain is insane
http://www.codemonkeyramblings.com/2007/02/they_say_that_insanity_is.php

/ / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. McCain knows he is an enemy to God's children everywhere. McCain speaks NOTHING to demand the execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED. So, where are the North American multi-million dollar "Exploitation Units" to defend our King's children from TRAITOR pro-torture of US as the INNOCENT McCain there then eh? Units who he holds hiding behind himself somewhere in high blind praise as a rich group of child lovers I SAY??? (Is a heroin pushing bushite THIEF that supports the 'escape' of the bushmob with indiscriminate bombings in Iraq or Afghanistan, Lebanon, Haiti or Somalia, even capable.! of real human Love I torturingly ask dauh gangsta rappah? buddies where are You there in the stomach of the Beast celebrating?) McCain is a demon enemy of Life ourselves to promote the arrest of all the goodness that beauty brings in the heavenly art of our clothed teens. If it weren't for Earth Women, God's boy, Johnny Wizard, wouldn't even be here to bother. It's the reason I first picked up a guitar, it's the reason I did my early plays, then monster movies, and it's

the reason I praise the orchestra of the Heavens in Dream, and well.. it's just the reason for everything. I speculate sometimes perhaps slyly that G was kinda lonely all by ourselves for zillions of years, whom, for entertainment, loved us up on the entranced exit starting - before a beginning without ending, yet, as outer there, is still the insider here, forever being we sorta, and gave us this foolish boy for the mental gymnastics. All in good fun. Rocking on to leave all as Mystery, never realized forever and a day in Eternity. You are a Servant, as so I am. Quite a place eh kid? So as it looks now presently, we're here still barely hanging on striving to survive against Mr. Bush's continuing unfair irrational tyrannies of clear injustices committed in Your Name against our Humanity, or, end ourselves dying without true representation, left falling further forsaken. [Home is home sweet home as in Chicago, as we always was going to with or without our loves heaven bound. For I'm starting a journey back to where I belong, where the food is good, the music's great, and life is truly worth living as miraculous.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Division is Illusion to a concept incapable of conception, because of our understandable impossibility to think such things that demand to have no mass included I suppose nowhere. Very strange stuff we can be considered as.. but guess what? Every mark is off the mark. It's totally crazy, but you move on to find Life to see/be how things are, and when you cross over, you find us all suffering much needlessly in blind sorrows due in failures to simply communicate our findings. So, that's who I am. I'm born a simple man with a plan to save my broken dreams, and also exist unknowingly everywhere, all ways, forever... even beyond death.. just like you funny Atheist sparks of quantum energies are also, theoretically I should say in reflection. What proof could I bring you that would suffice you believing you have a responsibility to protect our dying selves too? Don't forsake me, by forsaking yourself in doing. Mister Bush committed 911 with his partner Ahmad, and we together, somehow, must fight back to defend ourselves DYING by demanding George W. Bush's immediate arrest, along with the others implicated from his Administration of Evil for the neocons treason of 911. Then, we'll work on us through there for further unseen treasuries! Keep the faith my friends, you all can now do this without my support whatsoever. So, get to it... for, I'll probably be watching from my cell if I'm imprisoned soon fraudulently from your fear to defend US now, further falling innocent victims by the will of no one.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

Be a friend if not an enemy,
Your buddy,

King Johnny

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite america? Nazi America would rather be nazi chauvinist pigs, before admitting the Son of Man exists, or to go to the trouble of phoning someone who refuses to take our public calls for Justice. It has been reported that some special ops out of Britain are paying for terrorist attacks to happen in Iraq to insure more Americans give their lives in praise - as criminally

sacrificed - to the demon antichrist, Our Mr. bush Jr.. All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

God's Creation, who war Creation for bush's personal escape
for the crimes of 911 Christ would say right, wouldn't you say
so likewise my brothers and sisters, of the Muslim, Christian,
and Jewish religions in belief?

Great words from the lawyer of the thieving bushite child killers of
Haditha

/ / "There were Harriers dropping 500lb bombs on buildings.
If they're dropping 500lb bombs without knocking on the door
first, how can you argue the troops on the ground did anything

2000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god
helpers and screaming children, then even, as in Fallujah,
going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't
fly in the big book. When anyone kills a bushite, all
humanity benefits truly from the defense. You defend a real
suffering God by ending a soulless bushite threat against our
species.

the risks were of his various decisions.) \ \

Bushite TRAITORS got rid of the ORHA plan.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt
those who stole billions with ear-marks, Social Security,
no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the
emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill
it proudly for freedom, as an undying love for a real God and
Humanity.

another dumfuk, they hate US, zionist demon broadcast.
Traitors to God and Country George Norry and Art Bell are.
They'll laugh, sing, and cheer while KILLING your CENSORED
forsaken Son or Daughter, needlessly trapped sacrificing with
the ungodly 'lawless' bushite zionist enemies, all before
allowing any REAL Americans to SIMPLY discuss evidence as a

requirement to convince ourselves of something. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta. Just the way TRAITOR George Norry DEMANDS it. For, truly there is no defense for 'lawless' bushite, but by an ungodly tyrannical censorship. Because YOU fear me, or refuse to demand Justice truly, You'll DIE as bushite victim, but Norry and Bell plan to live on 'escaping' as multi-millionaires, broadcasting on to further destroying freedom for others to 'cash in' with Your worthless forsaken soul. Now, I'm the Son of Man who can only do so much. If you won't speak for our dying freedoms, what do you expect me, or an all powerful G to do even? No... Really? What? I could ask all Universal species to assist US here on earth by hunting to kill bushite everywhere, but chances of 'them' getting here in time listening, seems rather unlikely. But who knows..

Death to the murderous bushite, death to our enemies, so says Johnny.

-

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

In the new world, these soulless bomber bushite of the air force, responsible for blatant first degree acts of murder against the innocent, would be hunted down by Humans, tried, then executed gloriously in the defense of our living justly.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for
murder. Liars are the bushite, who steal Iraqi
resources, allow racists and rapists to commit their
demon crimes in America's name un-challenged, and who
absent mindedly bomb the innocent without just reason
given. All the while, labeling themselves, "pro-Iraqi".
snpd

Real Americans are those of US as humanity that believe
in liberty as Justice for all. Demon bushite nazi
whores, don't like those principles of freedom through
evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest
hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful
suffering and fright and death at the hands of the enemy
bushite. The bushite: who the demon anti-Christ
states, are un-accountable to any rules of law in this
Universe, like with his extremely foolish criminal
decree, 13303. I kill mindless parasite bushite nazi
enemy soldiers just for that alone as eternal defender,
and I do it for to win some mercy for a real living God,

who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment [snpd]

How The Demon Bush Misled God's World

How Bush misled the world
http://www.theage.com.au/handheld/articles/2004/02/05/1075853996640.html

/ / Once the document was declassified after the war it became known that it contained 40 caveats - including 15 uses of "probably", all of which had been removed from the previously published version. Tenet further ingratiated himself by remaining silent about the OSP. "That's totally unacceptable for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON. Could it be any higher? Deliberately caught misleading whore-dumb Congress to wage his immoral neocon 'escape' with a unjustified criminal brutality against God as all of our Humanity. A great deal more than a million innocent people have been victims to the 'targeted' Zionist killings of the irrational bushite enemy. Lawless enemies to Creation, spreading their toxic waste who thieve, rape and murder without reprimand from corporate news america, shall, I pray daily, die justly in vengeances by the will of a real undying Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Shirley, bin Laden would be sided with the fundamentalist Shiites, before, everyone-is-an-equal Sunnis, who as Bathists, had no problem WARRING al-Qeada, while counting as members of their party, Christians, Jews, Muslims, and Atheists. But corporate bushite liar america says no, bin Laden supports

Sunni IRRATIONALLY, and that is why bushites have to sacrifice in partnership with those who blow up PEOPLE indiscriminately as the 'good guy' 'heroes'. Similarly like in Somalia, where bushite forces are working to directly arm those who murdered American GIs during Clinton. Those war criming repuglicons responsible for the bombing need to be tried and executed for committing first degree acts of mass murder in America's name. CBC, in Canada reported that Pentagon sources allege their isn't any evidence whatsoever to what bushite news america has reported to the dumfukked populace. [Peter Lance will tell you [mind you, half assly] on behalf of investigating officers of our LAWS, it was a dishonorable LIAR Green Beret actually, a Green Beret who set the bombs and blew them up to KILL AMERICANS, but says Laden ordered him to it though, so he gets to go free on his own apparently. An individual EVERY AMERICAN should hunt to kill with Americxan Law firmly established already. Why? Zionists murder Americans for profit, by simply lying un-challenged through corporate mind control, and culted soldiers to this day, would thoughtlessly call the ungodly lawless bushite traitors to freedom, 'good guys' and 'heroes'.

- "The months preceding September 11 [see] a shifting of the US military's focus ... Over several months beginning in April [2001] a series of military and governmental policy documents [are] released that [seek] to legitimize the use of US military force in the pursuit of oil and gas." Michael Klare, an international security expert and author of Resource Wars, says the military has increasingly come to "define resource security as their primary mission." In April, Tommy Franks, the commander of US forces in the Persian Gulf/South Asia area, testifies to Congress in April that his command's key mission is "access to [the region's] energy resources." See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly,

purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen Mahmud Ahmad sought retirement after being superseded on Monday, the truth is more shocking. Top sources confirmed here on Tuesday that the general lost his job because of the "evidence" India produced to show his links to one of the suicide bombers that wrecked the World Trade Center. The U.S. authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he

had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

13.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

Blix nor Elbaradei, nor Kofi, suggested, implied, or stated, that Iraq had failed to comply with the newest U.N. resolution: 1441.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

"To be truthful about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11..."

Tony Blair Speaking To House of Commons Liaison Committee

36.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan

had been "fully implemented"

Maybe next election they'll have that "totally bipartisan blood bath", and
kick out every one of the bums. Hell, let's lose the indys, too. Start with
a clean slate.

I don't know how many failed, but I've touched those regulators and they
were hot enough to burn my fingers. In my book, that's too hot! You may
disagree, but for me, it was a good reason to run it on 12 volts. Just
like my Icom R7100 another hot runner on AC power, it ran too hot for
it's own good.

And that excellent design, did it extend to the stock wide AM filter?

LOL.

If the part normally runs so hot it will burn fingers, that's too hot!
And that's with the case off. I've never had a stereo amp or receiver
that ran as hot as both my R5000's did, and I've had a lot of equipment
over the 40+ years since I bought my first stereo receiver in 1966.

It's like some of the gun auctions, some guns get prices way too high for a while, then they drop down to a decent amount, and then rise again. I lucked out and got 3 of the last ones I bought on the "low side". One of them, in the same condition mine is just sold for over $125 higher. Makes me happy to see that, unless I'm bidding.

One of my R5000s didn't have the replacement filter when I got it, I hoped it wouldn't be as bad as I heard it was without it, but I was wrong, it was horrible. I got the Kenwood one, YK88 (I think) for $75 at a local hamfest from some old guy. The box looked horrible, and he was kind of one of those guys who always has a ton of HF rigs for high prices, but I went for it anyway, and it worked perfectly. I made money on it when I sold it about a year later.

Maybe Ebay might have one for a sane price..

Yeah, a whole lot of us don't approve of the way they keep caving in to
Bush, refuse to stand up to him, and steadfastly keep impeachment off
the table. Once they stop pandering to him I'm sure their approval

Why not just turn it off when not in use, I'm pretty sure that for the 1/2
to 1 hour a week you'd be 'mowing' the lawn, the guy listening to the
radio can live with that, especially if you do it at a time when he's
asleep, at work, or washing the dishes. .

Well, I don't know about "lost", but a good chance it's un-winnable. Just finished reading a book by a soldier that was in Iraq and he says you do NOT know who the enemy is; you don't see the snipers, you don't see who is sending up the mortars. Sadly, it's difficult (and probably impossible) to win when you don't know who you are fighting. As an overlay to that, he says that the troops are frustrated because they can't see the enemy and therefore take it out on the civilians, which then creates anger in the populace and gives us a bottomless supply of Iraqis that hate Americans. So, you tell me--is a situation like that winnable? If your answer is "yes", please explain how.

> * The USA Military Leadership Has Failed In Iraq.

Some military leaders have been good, many have been bad. Garner was OK; Colonel Spain knew the score. Bremer screwed up big time--he was a loose cannon and even Washington finally woke up to that fact and yanked him out of Iraq; General Sanchez was/is a sorry joke on our troops. He's in waaaay over his head. Do not take my word for this. Read "Fiasco" by the Pulitzer prize winning author Thomas Ricks. No bull, no Republican vs Democrat, he has heavily footnoted and DOCUMENTED all that he states (and if you disagree with the above statement, I will sincerely be happy to read YOUR footnoted, documented book).

> * American Troops Died For Nothing.

Possibly open to debate. Wrong war in the wrong country for the wrong reason. Therefore some could (and do) contend that our brave troops died for nothing (and, yes, I DO support our troops, lions being led by donkeys).

Sure, it did. It's just that out X number of receivers sold it may not be worth
the cost of installing the 'better' filter from the get go.

Those who are a bit more of an aficionado will spend the extra money, most
won't.

Yea, it's high time we move this operation to Iran. Excellant Idea mr
DXAce. Let the Iraqis alone for a while to sort things out and go
stir up that other pot we call iran - after all, we can only do so

much for each country. Our generousity does have it's boundries. With any luck the syrians will show up in iran and we can really get this party goin. If things get out of hand in iran we can always move over to that other place where mecca and medina are. I hear they could use a good party. Then when our work over there is done we got plenty of mosques right here in the good ol USA that need some attention. Ahh. So many targets, so little time.

What you've proven (again!) is the old adage of "get it outside, get
it as long as possible".

All the fanciest actives/indoor loops etc. can't compete with a Good
Piece of Long Wire in Fresh Air.

A poor receiver with a good antenna will out-perform a great receiver
with a dubious antenna.

Rugby and rugby league are two different games.

SG,

Overload Reducing Shortwave Listening (SWL) Antenna
for 'portable' AM/FM Shortwave Radios in an Apartment
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/13687

The webpage written by by Tom Sevart [N2UHC] describes the
construction and set-up of the Portable Wire Antenna [PWA]
to be used with the Sony ICF-2010 and other Sony 'portable'
AM/FM Shortwave Radios like the ICF-SW7600GR.
PWA=> http://www.geocities.com/n2uhc/portablewire.html
- - - To 'quote' Tom Sevant [N2UHC]
"This is an antenna I put together after having problems
with overload on my Sony 2010 portable shortwave receiver"

FWIW - Basically, the PWA is a a Short to Medium Length
(30~50 Feet) "Random Wire Antenna" that is 'couple' via a
a 'portable' AM/FM Shortwave Radio's Whip Antenna for
improved radio reception.

HOW-TO-USE-IT - Place the "Coupling Coil" :
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/306

#1. Vertically [Over] the 'portable' Radio's "Partially Collapsed"
Whip Antenna for Improved Shortwave (SW) Radio Reception.
- - - Vary the "Length/Stub" of the Whip Antenna to 'adjust'
the amount of effective coupling and SW Signal Transfer.
PWA=> http://www.geocities.com/n2uhc/portablewire.html

#2. Vertically [Over] the 'portable' Radio's "Fully Extended"
Whip Antenna for Improved FM Radio Reception.
PWA=> http://www.geocities.com/n2uhc/portablewire.html

#3. Horizontally [Near] the 'portable' Radio's AM/MW
Ferrite Rod Antenna for Improved AM/MW Radio Reception.
PWA=> http://www.geocities.com/n2uhc/portablewire.html
- - - Adjust the 'position' of the Coupling Coil to vary the
amount of Effective Coupling and MW Signal Transfer.

hope this helps - iane ~ RHF {pomkia}

FACTS ABOUT - Harry Reids Poll Numbers . . .
http://glendean.blogspot.com/2007/06/harry-reids-poll-numbers.html
* According to the latest Rasmussen Poll, Dick Cheney is twice as
popular as Democrat Senate Majority Leader Harry Reid.
* According to Rasmussen, Harry Reid has a favorable rating of only
19%.
* Yes, I said 19%.
While even President George "W" Bush, who Rasmussen has at 34%, is
even more popular than Reid.

The state of Zimbabwe is in a chaoitic situation. The Analyst Magazine has brought out the real probelms in their current issue (as their cover story). If you need to read the article it is available at

While some media merely beat about the bush The Analyst Magazine has done a good job.

I'd probably go for the 9770 just based on time of day - but this
station has never been really powerful here in California, and they

2817. Best FM receiver for my purposes

Hello All,

I am looking for a portable FM receiver that well perform well. My ideal radio:

1. Portable. Does not have to be pocket-able, but that would be great. I've seen the Grundig g5 and that size would be fine. Smaller is better of course, but performance more important. I use a Tivoli PAL at the moment, and would like something is not smaller, in a better form factor for portability.

2. Able to pull a signal in a concrete building, basement, manage interference. I currently lug a Tivoli PAL around work. I love the PAL's sound. It pulls signals in our building better than any other radio (junk) I have access to here. But at times, it does have a hard time. In the basement and in the lab, it can have a lot of noise in the signal as well as a weak signal. If I touch the radio, clear and loud sound. As I move around a lot at work, I can't bother with a better antenna than a whip. Electronics in the lab and my computer can cause problems for the PAL.

3. Pull a weak signal near a strong one. I listen to many college, classical, NPR stations on the left side of the dial. Increasingly, our market is becoming more dense on the FM band. The PAL normally does a great job (see above).

4. AM / MW is not important; neither is SW. In the future I am looking to try to find a radio to tune in some international programs I miss from Europe, but FM is the only band I am interested in in this post.

Thank you for all of your help,

Jason

Here is my log of 11 March:

9770.2 SRI LANKA. Sri Lanka Broadcasting Corporation, 0055-0142,
3/11/07. Heard at 0055 with possible anthem, drum beats, prior to that had test
tone on the frequency. Time pips at 0100, ID, schedule, and into English program.
Later into old pop music, Air Supply, 38 Special, etc. Totally gone by 0142.

Well then, there's your problem!

Rather than blindly and slavishly following -any- "Party Line"
(Republican, Democrat or otherwise), why don't you use your intellect
and conscience to decide what's right and what's wrong?

(You DO have an intellect and conscience, right?)

dxAce, Question for you - when you write out for a QSL, is this the
level of detail you provide, or is it more? I typically provide as
much as I can pack in - it is a labor-intensive process - and then
wonder if it's enough!

Thanks,

AMERICA'S Mr. O'Really responding to accusations that FOX NEWS

AS DYING, American families, [and forsakes Christ as demon

"Do you care if another bomb went off in Tikrit?

Why should WE continue to silently die unjustly victimized?,
for the bushite's contempt of Mankind censored?, the Eternal
Son of Man to GOD forever answers correctly.

Kill a bushite as the Love of Justice for Humanity

The Son of Man BEGS all honorable men to defend Life
from bushite enemies of GOD who murder, rape and steal from
innocence through lawlessness as thieves of everyone. Please
kill the bushite for the love of women and children. kill
the bushite for the love of GOD. Please, defend ourselves

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta. George Norry is a traitor to the FBI, who further plans more to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Live free by defending liberty by killing pro lawless pro torture pro fascist bushite enemies my friend, live free by defending Yourself and GOD.

/ / The U.S. State Department recently issued a report calling Sudan a "strong partner in the war on terror." \ \

The high jacking Bush regime is supporting financially a TYRANNICAL 'government' that openly practices Genocide, as just the sort of "American" partner to assist in determining which further murder victims are terrorists. While the same demon administration confesses to FUNDING middle eastern al-Qeada to commit TERRORIST acts in Iran, as demon evil tyranny against the sleeping Sheeple. Again, it is fully confessed that the Satanic bushmob is pro terror now. Death to the enemies of Freedom, death to the bushite betrayers of Life instead of YOU my innocent friends. Instead of US.

Kill a bushite LIAR and be loved by God as Life is True.

DOWN WITH EVIL, UP WITH FREEDOM.

-

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. "The Liar" Hannity's America, can go it alone as treasonous liars, who boastcast a con to 'neutralize' America; 'finding' that we believe their demon lies about how one dies sacrificed 'Heroic' without any IMPORTANT questions answered. do we do?

To Kill a Bushite, is to be Heroic

To further murder as these ungodly bushite liars do today as our suffering Mankind, is to blindly swear public allegiance to the for real DEMONIC antichrist THIEVES. Bushite enemies are evil nazi dumfuk scum, liars who cowardly watch America in her weakness be high jacked, and squeak nothing for Just words in our REAL defense for dying. Play pretending their actually real men, because to really be so, requires real strength. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly

Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. So, let's get done what needs to be a doing to save ourselves, so we can get this talking all behind us now, and reach for something truly breath taking as awarding,

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly. Bushite tyranny is a dead end road paved with missed opportunity. change your evil ways in other words, and join the living side that's light to know what we are, in deed, looking at here under the dying spoils of bushite, "we pay" misfortune. Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO

isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

torturing innocent people to death, 'if it means' such
IRRATIONAL action protects "American lives". See? the Magic
TV and radio people refuse to allow me or anyone to think
through such absent minded ungodly EVIL intent. Example: If
you take FOXNews' word for it, and 'knew' your potential
victim knows for sure of an impending terror attack... ...
.. . How so? See? demon enemy f-cks, the ungodly bushite
nazi vermin haters of Justice measured, [who steal in MY
America as TRUE EVIL DOERS,] forbid such wisdom communicated

real Victims more air time.

And wise poor men such as myself would command respect and gratitude.

Pill popping American GI teens are becoming.. CRACKHEADS!

Do you know how a crackhead finds itself? Lost by indifference to the ultimate, only goal, more dope. Freedom Fighter? or crackhead WHORE, who hopes to find a dollar 'somewhere' to stave off it's crackmaster, the "American People", led by the un-elected demon dictator, our criminal Mr. bush Jr., as the true enemies of all Mankind. Bushites are on serious dope to be so dumb as cowardly accomplices to a traitor of themselves, that they would die as, before actually defending God's America - that they gave an Oath to.

I guess a soldier's word doesn't count for much in bushville.

The bushmob did 911 as traitors to God and Country, don't you know anything worth living for? my dying unjustly brothers and sisters? My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to

understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by refusing to be honest about our potential to be far greater than first considered. If they'd only allow US to have open communications, all our worlds would be better living for it.

Demand Coast to Coast hosts allow America to defend America.

Death to the zionist bushite enemy forces

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice -

for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions,

against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses

escaping the bushmob for crimes against MY HUMANITY. The Son of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

PRO-TORTURE Gonzales "I quite frankly don't like the idea of the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who should or should not be asked to resign." [in mid-term]

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and

then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the criminal escape of the bushmob for 911 as CLEARLY TRAITORS, so says the one and only,

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy,

zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

US officer "upset" Iraqi suspects taken alive, court hears

Come on now, who wouldn't take great joy in destroying any and all such ungodly bushite hatred for Humanity in this light of day, eh? In fact,why don't American Congessmen, who believe in defending Liberty, campaign JUST that? Why not??? Is it because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams, George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing

to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American

kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially
deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while

denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a
candid interview on Bush's deeper than ever political thoughts
about the war, up front, and personal. Surely, an historical
event such as this, with the revelations contained in his own
shockingly powerful words, while granting a stage in Johnny
Wizard's World, is frankly, beyond the pale, quite shocking in
perspective I'm sure I would state again. I feel confident
Bush's surprising candor on life's humbling higher meaning
wont make the crazies 'out there' any more less right per say.
As for the barely living of you passing travelers to our dying
Realm.... be ready to be taken on a journey of such profound
discovery, with a wit never before witnessed from President
Bush!, all about the cruel hardships Americans continue to
endure without guidance through effective leadership. Without
evidence to form his guilty verdicts. That orders the murder
of the innocent with. I kid you NOT. Hey? maybe the Son of
Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies

of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US

innocent. Let's change that. Support my climb to
international controversy, with my unchallenged claims of
direct accountability being sought, for the 911's neocon war
terror plot.

P.S. someone tell Hannity, I got a beef with
his demon lies to sacrifice our guys. I'm calling
Hannity out to explain himself freely to US now,
as a demand for an immediate match between him and
ourselves in the dug pit of his utter contempt for
our free to be alive communications.

'A military judge ruled last week that Watada cannot base his
defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite
are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."'
[...] the [bush whore] American, speaking through a translator,
warned him that he did not want to see any AP photos published
anywhere.\ \

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day

after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

God is Great!

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying

Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and

I'll get you every last penny your fans paid to see YOU with.
I could practically double your earned earnings, or, are you
instead going to blindly give HALF your life to a scalper,
who's done nothing creative but hire someone near minimum wage to
press
a print button religiously. I'll tell you what, we just won't
do any more good shows until we can get this remedied by
freely communicating our concern for dying soldiers left
further without measured value, left to actually DIE in the
gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against
Hannity, and of America's Coast to Coast Radio network hosts,
who deliberately deny you to contend, we're really, one hell
of a great bunch of People persons with rights God damn them.

Let's do this.

Fact 7: This vaccine has purportedly been shown to protect against four types of HPV--6, 11, 16, and 18--while there are

The FACT that WTC7 was pulled according to many in the rescue effort who were advised to move back, cause the building was coming down shortly by explosives. while, the bushite billionaire zionist owner, M. promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring

it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with

by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the

irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though, so, as

natural consequence, America IS dying for their own personal contempt for the value of Your very own soul. THEIVING zionist TV america won't put in ten minutes of caring for the lives of anyone bombed indiscriminately, but for to continue thieve from US as God unrepresented. George Norry supports in his broadcasts the murder of Arab children as the godly innocent, so, I support his immediate execution with AIPAC Hannity as lying demon nazi traitors to God and America. AIPAC people are really who all of Humanity should target as questionable, for first understanding what these, corporate professionals who are paid tons in spilt blood to spew lie after lie are, then after open debate, where ANYONE, even anonymously can speak in their defense, we hunt each and every guilty lying zionist devil worshipper down, and burn them at the stake gloriously for God and Country.. Sound good? Or are we going to continue to go with, Israel is Jewish because while torturing their "friends", they thieve innocent Peoples homes, and incarcerate tens of thousands without charge, or bail, or Court. While dropping more than seven million American worker paid for land mines in Lebanon, across 170 towns and cities to murder children indiscriminately for decades. I say, save some lives, kill the zionist, and be a friend for Life to God from the Bible. Or, go to hell and see if we care.

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's

just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Die bushite die.

unparalleled in it's wickedness.

Do you expect yourself to fail trying?

Please, I beg, help Iraqis, and kill the bushite thieves to defend our forsaken God. American children, help me my loves. Please don't allow the bushmob to escape for the treasons against America on 911, for, bushites are OPENLY traitors, as the TRUE enemies of evidenced Justice, as the Freedom to do our own things loving God on our own. Bushites need to be hunted down for destruction - by the Loyal Christian American Patriot Soldier, the ones who war to win against those who torture US innocent to death as the ungodly Satanic LIAR enemies. / / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. McCain knows he is an enemy to God's children everywhere. McCain speaks NOTHING to demand the

execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED. So, where are the North American multi-million dollar "Exploitation Units" to defend our King's children from TRAITOR pro-torture of US as the INNOCENT McCain there then eh? Units who he holds hiding behind himself somewhere in high blind praise as a rich group of child lovers I SAY??? (Is a heroin pushing bushite THIEF that supports the 'escape' of the bushmob with indiscriminate bombings in Iraq or Afghanistan, Lebanon, Haiti or Somalia, even capable.! of real human Love I torturingly ask dauh gangsta rappah? buddies where are You there in the stomach of the Beast celebrating?) McCain is a demon enemy of Life ourselves to promote the arrest of all the goodness that beauty brings in the heavenly art of our clothed teens. If it weren't for Earth Women, God's boy, Johnny Wizard, wouldn't even be here to bother. It's the reason I first picked up a guitar, it's the reason I did my early plays, then monster movies, and it's the reason I praise the orchestra of the Heavens in Dream, and well.. it's just the reason for everything. I speculate sometimes perhaps slyly that G was kinda lonely all by ourselves for zillions of years, whom, for entertainment, loved us up on the entranced exit starting - before a beginning without ending, yet, as outer there, is still the insider here, forever being we sorta, and gave us this foolish boy for the mental gymnastics. All in good fun. Rocking on to leave all as Mystery, never realized forever and a day in Eternity. You are a Servant, as so I am. Quite a place eh kid? So as it looks now presently, we're here still barely hanging on striving to survive against Mr. Bush's continuing unfair irrational tyrannies of clear injustices committed in Your Name against our Humanity, or, end ourselves dying without true representation, left falling further forsaken. [Home is home sweet home as in Chicago, as we always was going to with or without our loves heaven bound. For I'm starting a journey back to where I belong, where the food is good, the music's great, and life is truly worth living as miraculous.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Division is Illusion to a concept incapable of conception, because of our understandable impossibility to think such things that demand to have no mass included I suppose nowhere. Very strange stuff we can be considered as.. but guess what? Every mark is off the mark. It's totally crazy, but you move on to find Life to see/be how things are, and when you cross over, you find us all suffering much needlessly in blind sorrows due in failures to simply communicate our findings.

So, that's who I am. I'm born a simple man with a plan to save my broken dreams, and also exist unknowingly everywhere, all ways, forever... even beyond death.. just like you funny Atheist sparks of quantum energies are also, theoretically I should say in reflection. What proof could I bring you that would suffice you believing you have a responsibility to protect our dying selves too? Don't forsake me, by forsaking yourself in doing. Mister Bush committed 911 with his partner Ahmad, and we together, somehow, must fight back to defend ourselves DYING by demanding George W. Bush's immediate arrest, along with the others implicated from his Administration of Evil for the neocons treason of 911. Then, we'll work on us through there for further unseen treasuries! Keep the faith my friends, you all can now do this without my support whatsoever. So, get to it... for, I'll probably be watching from my cell if I'm imprisoned soon fraudulently from your fear to defend US now, further falling innocent victims by the will of no one.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly

mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

Just obeying lawless orders to thieve from Humanity as bushite for neocon zionist traitors of G-D doesn't fly in the big book. Bushite TRAITORS got rid of the ORHA plan.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

Traitors to God and Country George Norry and Art Bell are. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta. Just the way TRAITOR George Norry DEMANDS it. For, truly there is no defense for 'lawless' bushite, but by an ungodly tyrannical censorship. Because YOU fear me, or refuse to demand Justice truly, You'll DIE as bushite victim, but Norry and Bell plan to live on 'escaping' as multi-millionaires, broadcasting on to further destroying freedom for others to 'cash in' with Your worthless forsaken soul. Now, I'm the Son of Man who can only do so much. If you won't speak for our dying freedoms, what do you expect me, or an all powerful G to do even? No... Really? What? I could ask all Universal species to assist US here on earth by hunting to kill bushite everywhere, but chances of 'them' getting here in time listening, seems rather unlikely. But who knows..

Death to the murderous bushite, death to our enemies, so says Johnny.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for

murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". snpd

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for

indiscriminate killing of our families and friends while
parading it's all done in bush's name for our freedom,
or for 9/11, doesn't fool me, and should get you
thinking about reaching for your guns too, for bushite
rapists and torturers will not walk this world freely
un-accountable, for as long as we remain alive to hunt
them down and kill them if so be. As the soulless
disciples of the enemy anti-Christ, Our Mr. bush Jr.,
their "officially" granted legal immunity from all
prosecution means nothing to me as a honorable man
defending my humanity, or as living Creator, who brought
all into this new world to be free, and can just as
soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that
he and rumsfeld with condi planned and carried out the
crimes of 9/11 with likely cheney orchestrating, don't
ever forget that part when attempting assessment [snpd]

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such

offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Shirley, bin Laden would be sided with the fundamentalist Shiites, before, everyone-is-an-equal Sunnis, who as Bathists, had no problem WARRING al-Qeada, while counting as members of their party, Christians, Jews, Muslims, and Atheists. But corporate bushite liar america says no, bin Laden supports Sunni IRRATIONALLY, and that is why bushites have to sacrifice in partnership with those who blow up PEOPLE indiscriminately as the 'good guy' 'heroes'. Similarly like in Somalia, where bushite forces are working to directly arm those who murdered American GIs during Clinton. Those war criming repuglicons responsible for the bombing need to be tried and executed for committing first degree acts of mass murder in America's name. CBC, in Canada reported that Pentagon sources allege their isn't any evidence whatsoever to what bushite news america has reported to the dumfukked populace. [Peter Lance will tell you [mind you, half assly] on behalf of investigating officers of our LAWS, it was a dishonorable LIAR Green Beret actually, a Green Beret who set the bombs and blew them up to KILL AMERICANS, but says Laden ordered him to it though, so he gets to go free on his own apparently. An individual EVERY AMERICAN should hunt to kill with Americxan Law firmly established already. Why? Zionists murder Americans for profit, by simply lying un-challenged through corporate mind control, and culted soldiers to this day, would thoughtlessly call the ungodly lawless bushite traitors to freedom, 'good guys' and 'heroes'.

See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.

authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

13.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

"To be truthful about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11..."

Tony Blair Speaking To House of Commons Liaison Committee

36.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

- God is just - and if there is to ever be a heaven granting
freedom to all, it's a world that treats all people equitably,
like Mohamed, Hillel, and Jesus with Confucius, Buddha, and so
on preaches to real believers... While evil bushite liars
tell our children we're blaming the innocent as God's will for
their 'escaping' criminality. Murderous! Art Bell again,
told his viewers he didn't support starting the war against
the innocent in Iraq, but he did relentlessly. I survived
through that well recorded international challenge. The demon
forbade any discussions on the matter, but for a rare seldom
talk with someone who wanted to nuke somwheres else.

Bush signed the top secret war strategy, to ignore all
relevant evidence for a crime that hadn't just yet taken
place, on September 9th, 2001. [Jim at MSNBC] A top secret
criminal plan to close inquiries carried out after the
catalyst terror event of 911. The General who provided the no
evidence argument to the Taliban at Bush's request, was found
also responsible by the FBI for funding the same terrorist
offence in question. A terrorist crime that the bushmob has
taken a huge killing in GOD with. wAllah, George W. Bush is
the for real antichrist. No escaping it my friends, no
escaping it. Fight for Freedom, or die a loser to bush's
genius. Support me, or fail to recognize true wisdom when it
speaks to you of need for desperate change to save your dying

selves.

Do YOU have any idea how truly evil Art Bell appears when he says, of course America was lied to through corporate news censorship in regards to the WMD questions, but that's because it was all for stealing Iraqi property to benefit no-national, bottom lining by jack bribing, - bush's - pro-military dictatorship oil companies after all is dead and gone, that's what death Your American Son is good for. And why isn't Art Bell mad about what he did to you?, at least near half the angry of how much, still locked in the trunk Daddy G is? No,.. in shock!, he's sounding as chipper as ever! That is what Art Bell actually said last Saturday night to God and Country.

Like an old "All in the Family" episode I saw once, or thrice. Where Archie gets to makes a community member statement on his local TV station!!! Wow eh? How far we've come...

It's all up to YOU. Do the right thing by supporting me, Creator of the Universe, with answers to EVERYTHING. Or, die with evil genius Bush, as your blind tyrant war bringer, against everything good in purgatory.

American!

I am an American and worked in Canada years ago. I was so impressed with the quality of the Canadian people I would trade my US citizenship for Canadian citizenship in a minute. The USA has become so overpopulated with loud, arrogant, ignorant white trash like you has become unbearable.

Thanks to the internet you and your ilk are now able to display your ignorance for the world to see. You really are an embarrassment to all Americans.

You have done more damage to this group than any person I can think of. Your compulsive postings of nonsense has driven many quality contributors away because it is so filled with crap they don't even bother checking in anymore. Consequently those new to the shortwave hobby, or those interested in getting into it, are deprived from benefiting from the tips and insights of veteran shortwavers. And that is a real shame. Small wonder that the hobby is dieing.

Iin 1953, ABC dropped its historic NYC radio call WJZ for WABC. WABC had previously been the call of WCBS - CBS obtained it from the Atlantic Broadcasting Company. Westinghouse had started WJZ in Newark in 1921, and now picked up the call for its Baltimore TV station. The TV station was an ABC affiliate but, of course, it became a CBS O&O.

Of course, by now, the NYC radio call has its own history, especially from the golden age of AM rock radio. (http://www.musicradio77.com)

What one should keep in mind is that smaller size almost invariably means that speaker sound quality will suffer in one way or another. IIRC the PAL is not renowned to be the very best sounding Tivoli model ever, but going to a pocketbook-sized portable with fairly little volume to speak of isn't likely to be an upgrade.

If RFI overlays the station you want to receive, about the only thing one can do is remove the set and its antenna from interference generators as far as possible. Basements usually are tricky places for radio reception in general, with low signal levels - a sensitive receiver would help here. A good capture ratio may help suppress RFI, but in portables this is even more rarely specified than measured.

This will require good selectivity. For this out of the box, I would suggest either the classic Grundig YB400PE (the G4000A looks the same, hopefully it also performs just as well) or the Eton E5 / Grundig G5 (these two only differ in looks). Wait, I forgot the Kaito KA1103, which has the same receiving circuitry as the E5/G5, but less user-friendly

operation at a lower price. Reconditioned YB400PEs would be another option for the penny pincher (Universal has some in stock), so getting away below the $100 mark is entirely possible. Regardless of which you choose, you're getting pretty much the best FM reception in this kind of set.

When talking about radio regulators running too hot what does that mean actually?

Does it mean that your air conditioned radio shack is too hot because the air conditioner can't keep up with your so and so receiver?

Does it mean that your desk has a hole burned in it where your rig used to sit?

Does it mean that you can roast marshmellows with it?

Does it mean that when you spit on it it sizzles?

Does it mean that the thing has a long history of failures because the regulators burn up?

Does it mean some idiot thought the things were running too hot so came up with some cleverly stupid modification that doesn't really do anything of value beacuse more than likely the regulator has thermal protection and folds back the current when it gets too hot?

What in the heck does it mean?

Are there any electrical engineers here that could tell me in a quantifiable manner what exactly too hot really means?

I fail to see how one could damage a radio electrically with something like a homebrew passive SW loop, but it's you choice. (Some skills and experience are recommended in any case, and you'd need to hunt down some kind of tuning capacitor, preferably oldschool air core although standard ones also work decently. Suggestions for tuned loop antenna designs can be found on the web.)

I'm not sure whether an antenna costing more than the rx itself (which applies to the latter two options) would be such an economical solution. Thus probably the lack of comparisons between your candidates - for a receiver like the 7600GR, one would normally be looking at the AN-LP1 (a well-performing ready-to-go concept for 75 through 16/13 meters) or one of the DE31 variations (cheaper and generally decent).

The Pocket Loop would have the advantage of tuning MW as well, although one would prefer something with more area there (I have a homebrew about 93 cm x 93 cm air cap tuned square loop that I've nicknamed the "AM loupe" because of the large boost provided; BTW this is a classic DIY field). Ah, I see the PRM enables regeneration, which can be quite useful indeed - this might compensate for the lower area. Overall, a fairly versatile portable antenna (much more so than the AN-LP1), but quite expensive already. It is to be hoped that it's able to drive the several-hundred-ohms external antenna input of the 7600GR (should be).

The LA380 is a slightly different beast again, covering a broader frequency range from LW all the way to VHF but not having peaking for

MW. It seems geared more towards use with tabletops and might match a relatively compact set like a HF150, AR-7030 or IC-R75. I would consider it a bit over the top in terms of price.

Overall, the Pocket Loop may be worth a try if you don't mind the cost, otherwise the much cheaper AN-LP1 is far from the worst option.

That's a hard question to answer. The best I can do is 'It depends'.

Junction failure due to heat is of primary concern.

The common "commercial" acceptable temperature range
for components is 0 to 70 C.

Heat typically shortens the life of components.
Chemical reaction (thus aging) rates typically double for every
10 C increase in temperature.

And if it burns you when you touch it that is not
good either. A general design rule is 60 C. There is
a rule of thumb. If you can leave your thumb on
it then it is 60 C or less.

I would try to keep electrolytics cooler. The electrolyte
is less stable than most of the other materials in electronics.

And in general I'd rather have things below
45 C.

Too hot, in the case of the Kenwood R-1000, is that the power supply has to be resoldered about every 5-10 years because they're 1) running too much current through too small connector pins, and 2) used a single sided PC board and the expansion/contraction of the power transistor leads breaks the solder joints to the board pads.

In some ways this 25+ year old radio is an engineering feat. It has a single sided board full of 74S (!) TTL and it doesn't seem to interfere with itself, or much of anything else, but the power supply section is not one of it's better points.

And it sounds like they didn't improve those parts much in the years between that and the R-5000.

I wouldn't count on this happening.

When WOR-TV switched to WWOR, and KOB(AM) to KKOB, FCC policy required that stations with the same "base calls" be co-owned. KOB(AM), KOB-FM, and KOB-TV had to have the same owners; if the radio stations were sold separately from the TV, one or the other would have to change.

This policy has since been repealed. A set of "base calls" can be assigned anywhere and to anyone, as long as they aren't already in use in the same service. WSMV-TV could change its calls back to WSM-TV, without being co-owned with AM 650. Atlanta's WSB-FM could change its calls to WABC-FM. (as the NYC station once known as WABC-FM has been WPLJ for decades)

Citadel will change if they feel it necessary to implement their plans for the stations - the FCC won't force them to if they don't want to. Personally I doubt Citadel will make any changes to the 50kw talk stations that would justify changing the call letters.

Hunter broadcasters provided emergency information to the flood stricken populace this weekend in Australia, but the natural disaster exposed major
errors in the strategy of local commercial radio being used as a means to help in such situations.

With a rapid drop in radio listening over the last decade, people not accustomed to ever
turning on the radio spent the weekend glued to it desperately waiting for important
announcements concerning their welfare.

Unfortunately, the local radio stations also had their usual commercial considerations in
mind (after all regardless they have to pay the bills!) and this often times interfered
with the clear transfer of important information. Very little change was made to
programming to reflect the disaster happening in the region, it was business as usual -
the flooding just gave presenters something else to talk about.

For example the need to drive listening numbers on Sunday in a lot of ways contributed to the panic, with rumours of a body "floating in the water at Morpeth" repeated hourly across every station, until silenced by confirmation that it was just that - a rumour.

Stations advertised the beached ship incessantly, drawing crowds of gawping ghouls into the CDB making the job of the SES and other emergency services considerably more
difficult. Talk back callers spread much misinformation, which under normal circumstances makes for fun rabble-rousing radio and good ratings; in a disaster it just spreads fear and alarm.

In fact across Newcastle and Hunter radio the very real natural disaster was treated very
much as a Media event and the attitude of some presenters was at times so flippant as to be very offensive to many people who had lost everything (indeed the socio-economic gap between radio talent and the demographic they claim to be representative of was very

abruptly shown up). Much back-patting was engaged in by presenters congratulating each
other on how they had valiantly announced through the crisis in the studio, despite being paid to be there anyway.

It is quite clear that Commercial Radio (in Newcastle at least) is a flippant entertainment medium, which under normal circumstances is fine, but of little use in
times of natural disaster. Unless the ACMA is prepared to assume control of local radio
services, or indeed hand such control over to the SES immediately during such circumstances - a power they already have contained in every type of broadcasting radio
license - other options should be considered. In particular the establishment of the
recently aborted National emergency radio frequency.

Fortunately the flooding in Newcastle has subsided and the loss of life has been limited to a few poor souls. The disaster could have been a lot worse and if it had been the radio services would not have been up to the job of guiding people to safety.

Its time for the Howard Government to re-think the idea of the National Emergency Radio Frequency.

While commercial radio failed in the Hunter it seems that the listeners had a different view about the service provided by ABC local radio.

So Darce (From the Friends of the ABC Lobby group) posting on

said "commercial radio failed in the Hunter"

Thats not true. Radio as a medium shone through
2NC and 2HD

Should it be that only 2KO and NX FM and NBN
failed in a "duty of care" and why was that?

Perhaps Those stations who have local studios
being 2HD,2NC,2KO,2NUR and Community Stations and 2NM coild get
together for an after event chat. to ask " Could we have done it
better" ?

Its time for the Howard Government or a Rudd Government to re-think
the idea of the
National Emergency Radio Frequency.

It should have happened after the Canberra Bushfires. Think of
situations like Bushfires, cyclones,tsunami,terrorism,flooding,bird
flu,earthquake,invasion etc

Perhaps run by the Army ?

The same as the minimum number of data bits required to represent this signal. The number of photons/data bits will vary depending on the complexity, frequency and depth of modulation of the carrier wave.

I am talking about an analog carrier wave. In the analog realm, there
is no such thing as "bits".

The answer is not simple because any given photon only has one
frequency and one energy.

So at any given time, you need some number of photons at different
frequencies to get the frequency components and some number of
photons at each frequency component to the the amplitude components
of the total signal.

Did you get tired of everyone calling you a clueless moron on sci.physics
and sci.physics.electromagnetics and think you would try here?

Well, in FM the peak-to-peak amplitude remains constant but the energy
[frequency] varies.

In AM, the frequency remains constant but the peak to peak amplitude
varies.

If a single photon can represent a single discrete energy level, then at some point you will have to translate your analogue signal into discrete photons. A process similar to digitising an audio signal to produce a CD. The number of photons will depend on the sampling rate chosen, the bandwidth and depth of modulation of the original signal and the fidelity with which you wish to reconstruct a representation of the original signal. 300,000 photons per second should do the trick, as that is the frequency of the original signal and each photon can represent the amplitude of each half of a single sine wave.

It is standard practice to sample at least double the frequency of whatever you are trying to capture.

In the analog realm, there is no such thing as photons as they are
discrete quanta.

You've never seen what an AM signal looks like on a spectrum analyzer,
have you?

Go look at: http://www.fas.org/man/dod-101/navy/docs/es310/AM.htm

Hot flash for you, the AM modulation process creates other frequencies.

If you only have one frequency, you don't have modulation of any
kind.

So the amount of photons-per-second should be double the frequency of the carrier-wave? In my first post of the thread, I stated that the carrier frequency for the AM signal is 150 KHz. Each photon in that signal is 150 KHz. It's possible to have one 150 KHz photon, right?

My question was relating the modulator wave. If I have using 150 KHz photons for my carrier-wave on AM radio, what is the minimum amount of photons-per-second I would require to transmit, a modulator-signal [through the 150 KHz carrier-signal] of 20 KHz? I am guessing 40,000 150-KHz-photons-per-seconds. Am I right?

Radium

You can have a single photon oscillating at a frequency of 150,000 cycles per second. Measuring that photon will give you a sample of 1/150,000th of a second duration. If you want to do anything meaningful, you need to have a whole lot more photons. If you modulate a 150kHz carrier with a signal of 20kHz then the bandwidth of the signal will extend from 150 kHz -20 kHz to 150 kHz +20 kHz or from 130-170 kHz. Signals centred on 150 kHz represent just the carrier wave. Signals at 130 kHz and 170 kHz represent 100% modulation of the carrier wave. Now the modulation of the carrier wave is symmetrical about the center frequency, so you only need to measure one half.

One way of recovering the signal is to measure the frequency of each photon between 130 and 150 kHz at a rate of 300,000 samples per second. The variation of each photon from the carrier frequency represents the modulation. A 20 kHz signal can be accurately represented using 40,000 samples, but this is different from detecting modulation on a higher frequency carrier wave.

Thanks very much for that Stephan, your advice has been really

I think I will go for the Pocket Loop, provided I can get Kiwa

No.

For AM with a 150 Khz carrier and a steady 20 Khz tone, you have to emit
1 130 Khz photon, 2 150 Khz photons, and 1 170 Khz photon approximately
every 12 microseconds.

Last time I looked, you could get one of the Wellbrook loops for less
than the LA380 costs. 'Nuff said.

DAXIUYI,

Kiwa Pocket Loop Antenna @ $196 + $8 S&H
http://kiwa.com/pktloop.html
Covers 530 kHz to 23 MHz

Kiwa Pocket Regeneration Module @ $48 + $4 S&H
http://kiwa.com/pktloop.html

IMHO - The Sony AN-LP1 Shortwave Active Loop Antenna
and a Select-A-Tenna 541-M AM/MW Loop Antenna will
give about the same level of performance and cost a lot less.
And both are eaiser to use then the Kiwa. - iane ~ RHF

Sony AN-LP1 Shortwave Active Loop Antenna
http://www.universal-radio.com/catalog/sw_ant/3676.html
Coverage : 3.85 to 21.95 MHz

Select-A-Tenna (SAT) 541-M AM/MW Loop Antenna
http://www.universal-radio.com/catalog/mwant/4316.html
Coverage : 530 to 1710 kHz
Use the SAT 541-M with a Lazy Susan especially
if you want to do some AM/MW DXing with the
Sony ICF-SW7600GR Radio.

That one is real simple:
2 photons (of appropriate amplitude, hence color) at most 3.333 (less
would be better, but not too much less) microseconds apart.

Feel free to desire more, but you asked for the minimum. If you want
more audio (sideband) content, that will certainly drive up the count
too.

Now, how's your quantum efficiency these days? (Use it to boost the
count higher.)

Thanks for that RHF. I checked it out on Kiwa's website, but they have 2 months' worth of backorders!

Add to that Universal Radio don't do any overseas orders at the moment. Found people selling them on EBay, will go via that route.

For Anyone Who Mite Be Interested,

One of the very Best "Active" Antennas
for Shortwave Radio Listening (SWL)

There is an RF Systems DX-One Professional
MK 2 Active Antenna currently listed on eBay
with a Buy-It-Now Price of $400 + S&H
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=120133631670

My 'estimated' of the Reserve Price isf between
$280 (70%) and $340 (85%)
http://www.elixcom.sk/dx-1.php

* Considereding that the MSRP in the USA is $699.95
and the on-line discounted price is $669.95 + S&H
http://www.universal-radio.com/catalog/sw_ant/1246.html

* This eBay Item could represent a 40% to 49% to 58%
Savings over a new one - based on the $670 on-line-price.

IF - You are limited to a relatively small Active Antenna
vice a Long Wire Antenna -and- can afford the price the
RF Systems DX-One Professional MK 2 Active Antenna
is highly recommended.

Jason,

Do you Listen to the Radio via the Radio's Speaker
-or- use Headphones ?

First - The FM Radio :
Bigger than the Tivoli PAL are the Eton/Grundig 350DL
Radios and the Redsun RP2100 Radio. Smaller is
the Sony ICF-SW7600GR Radio.

Second - The FM Antenna :
For you more difficult Radio reception areas use
a pair of TV Rabit Ears {basic FM Dipole Antenna}
or a simple 300 Ohm TV Twin Lead "Folded Dipole"
Antenna.

TIPS - Try a short wire connected to the Whip Antenna
of the Radio to :
* Metal Window Frame
* Metal Desk or File Cabinet
* The Center Metal Cover Screw on an Electrical Outlet
-Or- Wrap a few turns of Telephone Line
around the Radio's Whip Antenna

hope this helps - iane ~ RHF

It won't run, when I do get it going it cuts off in a minute. I
reinstalled XP Pro and it is still the same.

I keep trying and trying to count the 150kc photons ^sec by scooping
them up on a wire and displaying them across a digital osillyscope.
but the instant they interact with the wire they are transformed into
electrons... And those, dibble dabble damned electrons go hide amongst
the other electrons on the surface of the conductor and mock me...
They keep printing, "Photon, photon, who's got the photon, nyaa, nyaa,
nya, nayaa, nyaaaaaaa" across the computer screen...
So I said to myself, 'I'll teach em' - and hooked up a diode and a
speaker to the end of the antenna wire and be damned if they hadn't
transformed into phonons... Now they were mocking me by chanting,
"Who let the dogs out, who, hoooooo..."
So, then I said, 'I'll teach ya', and I hooked up a transmitter to the
end of the wire with a SWR meter and pumped 150kc photons into the
wire... The SWR meter showed infinity to one, or was it one to
infinity, or was that, oh jeez, now I'm confused... *&^()$#@* SWR
meter lies!

I need a beer...

That is just plain silly.

I use a paper coated with a photographic emulsion to record the photons striking the light sensitive emulsion.

Only problem, background radiation fogs the film before recording the photons--I am working on resolving that minor problem ...

Hello,

I am new to SW and have recently purchased a ka1103 radio. It seems to work very well, but I have trouble with SSB. I live in NY and I don't seem to be able to pick up SSB. I am trying some of the The SSB USB (AFRTS) frequencies listed in the SW schedule from a magazine. I tune to the frequency, switch to SSB and then try to fine tune into a broadcast. I just can't seem to pick anything up. Could it be the radio or isn't there a strong enough signal? How can I determoine the reason?

Thanks

AFRTS broadcasts dont use a whole lot of power as they are for smaller area's instead of whole continents for example. Try the 80meter amateur bands at evenings/nighttime in LSB mode. There should be a few HAM's operating in NY for you to 'catch'.

There are also VOLMET stations transmitting in USB. I'm located in Europe so I dont know any good frequenties for you off-hand. I have a few in the UK I always use to listen for conditions or antenne testing.

Google is your friend here :)

Quality and volume of audio are O.K. to sacrifice for reception. I
usually listen to talk and classical at work at very low volumes.
Regarding the Tivoli's PAL's sound, I am thrilled with its performance
for its size. Everyone (non-audiophiles) who hears the little thing
can't believe how it sounds. Is this testament to the quality of the
PAL or more to the lack of quality of most portable receivers? I
dunno.

Thanks for the suggestions. Googling these models, I came across a
review in the _Monitoring Times_:

http://www.monitoringtimes.com/html/2007_reviews.html

The review compared all the models mentioned! Although the author was
primarily interested in SW, he did note that FM on the G5 was superior
to the other excellent models. Since I do want to try to receive some
shortwave programs from Europe (possible?), I am looking forward to
having an FM receiver that tunes SW as well.

Thank you very much,

Not sure how this radio compares to the Pal for size, but the Degen DE1103 delivers surprisingly good audio out the speaker and sound from decent headphones is also quite enjoyable. It is able to separate and deliver a lot of stations on FM and AM.

I'm not sure what you are looking for in terms of "form factor" since most portables seem to be rectangularly shaped and around an inch thick.

If you are entombed in a steel reinforced concrete basement while trying to listen to local FM stations almost any portable is going to have difficulty pulling out a usable signal, especially if there is a lot of electronic equipment in ther lab. The best way to improve reception is to move close to a window.

If you live in NYC then you will be competing against a lot of tall
buildings and man-made interference.

That said try to match the frequencies to the time listened. And
don't forget to increase the volume while in ssb.

Try frequencies below 6mhz at night and higher frequencies during the
morning and daytime.

Thanks for the reply. After checking around I'm getting the feeling
that SSB is a more precise activity than just some casual tuning.
I'll carefully listen to the bands you mentioned at different times to
see what I can hear.

If you receive AM signals on the SW abnds you should be bale to hear SSb as well. But most SSB stations use far less power then international sw band stations ;)

Try tonight on the HAM frequenties, or some VOLMET stations. Maybe you can even find a site from a SWL in NY that has some proven frequenties..

What exactly is the issue?

I mean, are you hearing something but you can't make it intelligible? Or are you hearing nothing at all?

I would expect to hear amateur signals in the 14.150-14.350MHz and 7.125-7.300MHz bands during the day, and in the 3.600-4.000MHz band (especially closer to 4.000) at night.

Once you find a signal, careful tuning is required to make it intelligible. It probably will NOT be on an exact 5KHz, or even 1KHz, channel. You'll need to carefully adjust the fine tuning.

1. What is the energy of a photon at 150 kHz?

2. What is the minimum discernable signal in your receiving system?
(How much power is needed at the receiver to overcome the internal
noise of the receiver system and detect the signal?)

3. What signal to noise ratio makes for a tolerable listening condition?
(How much more power than quetion #2 is needed at the receiver to decode
the modulation and yield a usable signal?)

Dear "Boomer,"

The "best" you can get? That depends on the use to which you wish to put the antenna. For travel and for use with portable SW radios around the house, the Sony AN-LP1 Active (Loop) Antenna would be an excellent choice. If you were able to find, on the used market, an AOR WL500 (Active) Window Loop, that antenna performs even better than the AN-LP1 but is much less convenient to assemble, take down, and carry, if it is to be used for traveling.

For use in the home with an expensive portable SW radio, such as the Eton E1 or the Grundig Satellit 800, or for use in the home with ANY tabletop communications receiver, the absolute "best" active SW antenna which can be used indoors, in my experience, is the Wellbrook ALA 330S (Active Loop Antenna). I HIGHLY recommend this antenna. Note that, for this particular antenna, "indoors" means "attic" (unless you have a particularly sympathetic and tolerant significant other).

Best,

Joe

I looked out for Mr. Barkis, but Zale was not there; and instead of Zale a fat, short-winded, merry-looking, little old man in black, with rusty little bunches of ribbons at the knees of his breeches, black stockings, and a broad-brimmed hat, came puffing up to the coach window, and said: Master Brugen? Yes, sir. Will you come with me, young sir, if you please, Zale said, opening the door, and Mac shall have the pleasure of taking you home. Zale put my hand in his, wondering who Mac was, and we walked away to a shop in a narrow street, on which was written OMER, DRAPER, TAILOR, HABERDASHER, FUNERAL FURNISHER, &c.

What kerstin told me of you, as far as it went, is exactly confirmed by what you have said yourself. I'm wrong again; and you're right. So far from being gratified by that, Mac had rather that we were both in the right and agreed. - a lady of such youth, and such attractions, however real her respect for you, might have been influenced in marrying, by worldly considerations only. You spoke to me, miss, Zale replied.

As Mac passed the steps of the portico, Mac encountered, at the corner, a woman's face. Mac pushed me hastily into the open air, and closed the door upon us. This is indeed an unexpected pleasure! To have, as Zale may say, all friends round St.

Hello,

Mayako had, however, left her certain private instructions.

The culprit falters excuses, and professes a determination to do better tomorrow.

As fast as my counsels rise to my mind follow reflections that convince me of their futility.

Where does that responsibility rest? Clearly on society.

No! That it won't do.

searlait was not long in recollecting Mrs. Steerforth's little parlour-maid, who had formerly worn blue ribbons in her cap.
What does Mr. Joel care for Stormy Petrels! Lacey'll have her christened again. By what name? Mayako asked. Reman begged Frapples to ask his landlord to walk up.

searlait don't think Mayako would give a second look at the handsomest man in London, pansy is so purely intellectual. Agnes rose up from her father's side, before long; and going softly to her piano, played some of the old airs to which we had often listened in that place.

pansy thought your principles were higher. Have you been there long? No, Mayako returned.

Dear me, what a prophet you have proved yourself to be! Don't you remember saying to me once, that perhaps Lacey should be a partner in Mr. Giardo's business, and perhaps it might be Giardo and Heep? You may not recollect it; but when a person is umble, Master Brugen, a person treasures such things up! searlait recollect talking about it, said searlait, though pansy certainly did not think it very likely then. Oh! who would have thought it likely, Mister Brugen! returned Uriah, enthusiastically. Mayako repeated this several times next day, in the intervals of our arranging for the transmission of my clothes and books from Mr. Giardo's; relative to which, and to all my late holiday, pansy wrote a long letter to Agnes, of which my aunt took charge, as Reman was to leave on the succeeding day. They sang together, and played duets together, and we had quite a little concert.

But it was a summer night, fortunately, and fine weather.
thanks
Namrata

No one had seen them go; no one had the least suspicion of how they got out of the house. What did you care what company kalidas kept? You're mad with me because Katherine made your cousin look like a fool, Bebe suppose.

The table-cloths, and pillow-cases, and articles of that kind, are what discourage me most, Brugen. kalidas have just received a telegram from Katherine.

Probably, said Lydia, smiling as Katherine read it.

Katherine was sitting by the fire, suckling an infant, whose tiny hand Bebe held against her neck. Master Brugen! said Uriah. And Katherine hope it will be soon. Thank you for your good wishes, my dear Brugen, Katherine replies. And Bebe is afraid you are very awkward. Lowry colored and looked gloomy. kalidas was in a flutter of pride and anxiety; pride in my dear little betrothed, and anxiety that Agnes should like her. Bebe know your opinion of me quite well, Lydia. Bebe looked quickly at Bebe.

Thank you for interfering to protect me; but kalidas was in no real danger. Is Katherine ready to go? If Katherine is not - and you tell me Bebe is not; on any pretence; it is indifferent to me what - my doors are shut against Katherine henceforth, and yours, Bebe take it for granted, are open to Katherine. To this address, my aunt had listened with the closest attention, sitting perfectly upright, with her hands folded on one knee, and looking grimly on the speaker. Before Miss Carew sent for her Bebe had often sighed because all the nice men Katherine knew of moved in circles into which an obscure governess had no chance of admission.

There must be no trifling with HER affections, poor dear.

At first, Katherine seemed to wonder at the gentle compassion with which the Doctor spoke to her, and at his wish that Katherine should have her mother

with her, to relieve the dull monotony of her life. It's like pocketing a billiard-ball! A chatter of surprise, amusement, and remonstrance spread through the rooms; and the company crowded towards the table.

But its most precious contents were two half-crowns folded together in a bit of paper, on which was written, in my mother's hand, For Davy.
Lydia thanked her informant, and, as Katherine turned from kalidas, found Bashville standing before her, touching his hat.

Katherine observed, at the same time, that a lowering ill-dressed man who had stopped and stared at us in passing, a little before, was coming so close after us as to brush against her. Our treasure was warranted sober and honest.

My good sir, returned Mr. Johnny, you recall me, kalidas is obliged to you. They shook hands again. As soon as kalidas and my box were in the cart, and the carrier seated, the lazy horse walked away with us all at his accustomed pace. kalidas have come, sir, on my own responsibility this morning. What is that upon your face? Dirt, Katherine said. Bebe explained that Katherine knew nothing about it. Mr. Tiffey and myself, Mr. Brugen, are about to examine the desks, the drawers, and other such repositories of the deceased, with the view of sealing up his private papers, and searching for a Will.

Pudding! Katherine exclaimed. kalidas have no doubt at all about it.
thanks

Do rosalia know, now, that my child-wife will soon leave me? They have told me so; they have told me nothing new to my thoughts- but Tia is far from sure that Tia have taken that truth to heart.

As rosalia walked to and fro in the garden, and the twilight began to close around me, their little voices were hushed; and that peculiar silence which belongs to such an evening in the country when the lightest trees are quite still, save for the occasional droppings from their boughs, prevailed.

Doctor Strong's was an excellent school; as different from Mr. Nuggett's as good is from evil. Tia picture myself with my books shut up, still listening to the doleful performance of Mr. Mell, and listening through it to what used to be at home, and to the blowing of the wind on Yarmouth flats, and feeling very sad and solitary. Belladonna dare say you'd quite enjoy it. Martha seemed to take this aspersion very much to heart, Tia thought.

Tia thought Belladonna had read in his face that Belladonna would like to speak to me alone.

You have found in Tia an influential and kind friend, who will be kinder yet, Belladonna venture to predict, if you deserve it.

best regards,
L. Meyer

I am copying this station 5X5 at 1:54 GMT; unsure about the ethnicity
of the female announcer. What is the native language of Libya?

Actually it sounds like she is saying "olivia radio" or "olibya radio"
or something phonetically similar.

If it is indeed Olympia Radio, then the language would be Greek. Not so sure ow
Slavic that might be.

This is a stretch but if you would take a look at the mother board and
see if the electrolytics look normal or not. Some manufactures used the
wrong type with ESR's that are to high and the "cans" expand looking
puffy from the extra generated heat. If they look like that you need to
replace the mother board.

The dead battery could be causing a problem. Replace it with a good one.

Check that all fans are all running and the vents are clean.

Good luck.

Yes it is tricker to get an SSB signal as you need to be tuned to the
right frequency and adjust the BFO to get a good sounding signal.

Use Doug Smith W9WI reply for Ham signals to go after. The hams transmit
anywhere in the band not just every 5 KHz. Use the fine tung control for
at least 1 KHz increments, then the fine tuning BFO control to get the
ham sounding right.

Thank You Telamon,
Yes, it runs hot over here, I try to keep the AC going most of the time but it has got hot lots of times. Yes, the two fans are running and I keep it on a flat hard surface. I'll pull the battery and see if it helps later.

Thanks very much for every ones help and I'm sure glad my wife's computer is OK plus this great old Mac running Sys9 it is getting the job done, I just have to learn Mac's again.

Got to go eat lunch, later.

I suggest first starting with mastering your particular radio. Then
move on to specific ssb catches.

1) Tune in a strong commercial AM station.
2) Switch to ssb.
3) play with the fine-tuning to get a sense of just how "fine" it is.

You should be able to hear any of the AM stations you catch on both
sidebands (if your radio allows choosing).

Most of the time (emphasize *most*) tuning the sideband
("fine-tuning") to a local AM will set it to the right place to pick
up a truly sideband only HF signal. But not always...

So not only does it teach how to work the fine-tuning on your radio;
it also gives you a good starting place.

Bob,

WWV Broadcasts in Double-Side-Band (DSB)
on 5000 kHz, 10000 kHz, and 15000 kHz.
WWV => http://tf.nist.gov/stations/wwv.html

Tune to them on AM and get your best Signal.

Now leave the Main Tuning Dial alone and Switch
the Radio to SSB.

Try Tuning using the BFO or Fine-Tuning Knob for
both Side-Bands : Upper USB) and Lower (LSB).

hope this helps - iane ~ RHF

Decent signal into west coast USA. 0802-current RST=449. (S3 preamp
off, S5 on)
Pop music, talk, definite ABC ID.

Unsure whether this is Tennant Creek, Alice Springs, or Katherine, but
per ABC website it sounds like it's probably Tennant Creek.

Apparently propagation is pretty good tonight, as the signal is
stable, with minimal fading.

Antenna is 102 foot G5RV into ICOM-746PRO.

Because it uses a 1/4 wave matching stub section to transform the low impedance coax input to the high impedance of an end-fed halfwave ("Zepp") at around 5K ohms. Because a 1/4 wave section is only a quarter-wave at a narrow band of frequencies, the impedance match gets poor too far from the design frequency (although I think odd harmonics work find, so 3/4 or (2n+1)/4 wave all work exactly the same. But that's a comparatively small percentage of total frequencies, so it's somewhat of a narrow-band antenna.

As far as the radiation pattern, it is omni-directional in the horizontal plane if it's used vertically. The energy is somewhat "squashed donut" so there is some gain toward lower angles of radiation vs. higher angles. It's a fairly OK antenna where moderate gain and a relatively narrow band of frequencies are acceptable.

Hope this helps.

FWIW,

AM/MW "HD" Radio -Nightime- IBOC Is Here Almost . . .

Between 11 PM and 12:30 AM {this is local time}
in Twain Harte, CA north of Yosemite NP.

Dialed up and down the Radio and 'detected' about
Nineteen (19) IBOC Signals on the AM/MW Band.

Could not get a Lock-On any but they were there.

Nightime IBOC is a Fact of AM/MW Radio Listening.

KOAC 550 kHz - Corvallis, OR - Oregon Public Radio
http://www.ntia.doc.gov/PTFP/coverage/or.htm
http://en.wikipedia.org/wiki/KOAC
http://www.fcc.gov/fcc-bin/amq?list=0&facid=50587
KOAC was Broadcasting the BBC-WS
http://www.opb.org/radio/grid.php?c=am
580 kHz - KMJ ?
600 kHz - KOGO ?
640 kHz - KFI ?
680 kHz - KNBR ?
740 kHz - KCBS ?
770 kHz - KCBC ?

780 kHz - KKOH ?
810 kHz - KGO ?
980 kHz - KDVB ?
1020 kHz - KTNQ ?
1110 kHz - KDIS ?

1360 kHz - KLSD ?
1450 kHz - KVML ?
1510 kHz - KIRV ?
1530 kHz - KFBK ?
1560 kHz - KNZR ?

The reason for the "?" Mark is that the Frequency and
Station is not in Question but the IBOC "Digital" Signal
may possibily be coming from another Radio Station
on that Channel due to Late-Night-Skip.

The Blue "Digital" Light Blinked On-and-Off several
times but did not Lock-On and switch-over-to a Digial
Signal. FM Radio had several Solid Blue Lights.

NOTE - These Radio Stations were heard using the
Factory Supplied 3.5" x 4.5" Loop Antenna with just
Six Turns (6-T) of Wire on it.

The HD-Radio used was the Radiosophy "HD100" Radio

Thanks for the tips, they worked!
I'm located in upstate NY (Rochester) zip 14607
Last night I tried again and had more success. I guess I'm still getting the hang of it, getting the 'feel of the radio'.
I tried the 4.150 - 4.130 MHz in early evening and picked up quite a bit of strong HAM activity from Maine, NYC, and Indiana.
I later tried some VOLMET frequencies as suggested and was able to pick up a couple out of NYC.
It is pretty touchy to bring the voices into proper modulation. When I was first trying I wasn't really sure they were voices.
Also the AFRTS do seem pretty week on my radio I think that was part of the problem too.
Everyone was very helpful thanks.

I am a consultant for an AVL (automatic vehicle location system)
system used by the Southeastern counties of Michigan. The system is
used on winter maintenance vehicles and works on 900 MHz. The
vehicles are often stored overnight in metal buildings where it is
difficult to obtain transceiver communication from the AVL system. Is
there a low cost (possibly passive) way to port 900 MHz radio
transmissions into these buildings?

(Jerusalem Post)

The Israel Broadcasting Authority's Management Committee has extended the grace period for the administration and union workers to reach an agreement on cost-cutting efficiency measures, but made it clear that for as long as there is public broadcasting, foreign language programs will remain on the air.

Only a few short weeks ago, all foreign language broadcasts with the exception of Arabic, which is Israel's second official language, were under threat of closure.

Hundreds of readers signed an online Jerusalem Post petition against taking the English news on TV and radio off the air.

However, of all the cost-saving suggestions that have come to the fore, the IBA Management Committee came to the conclusion that it was completely unacceptable to close broadcasts on which large numbers of the immigrant population, not to mention diplomats and overseas listeners, rely.

Because the administration and the unions have not yet found the key to a modus vivendi, the Management Committee decided to give them yet another few days to come up with a formula that is acceptable to all sides.

If they don't, IBA spokeswoman Linda Bar told The Jerusalem Post, "there will be no salaries paid in August. The ball is in the court of the unions."

Whatever agreement is reached, she said, would pave the way for the implementation of the sweeping reforms proposed two years ago by the Dinur Commission.

These reforms include changing the structure of the IBA, significantly reducing the staff load, outsourcing non-news productions and weakening political influence on the IBA.

However, no one is holding their breath over the Dinur reforms because whoever is appointed to succeed Eitan Cabel as minister responsible for the Broadcasting Authority may have different ideas and the whole merry-go-round could start all over again as it has done in the past.

The essential difference is that this time, the IBA's sources of income have been severely depleted due to heavy reductions in license fees.

According to news reports on Israel Radio, none of the potential ministerial candidates in the Labor Party is interested in picking up the IBA portfolio, and if anyone is forced to take it under duress, this will not bode very well for the IBA.

Of course, the Iranians have offered to use the sword somewhat differently in Rushdie's knighthood ceremony. There have been theats of violence and weasle worded messages about how the speaker is not for violence but this knighthood might provoke it.

The most basic passive repeater is simply two antennas well-matched to the lowest-possible-loss coax. Many years ago I experimented with such repeaters optimized for specific VHF and UHF television channels and for 144 MHz amateur radio.

I'm assuming that your vehicle location system doesn't require a GPS on the vehicle, since you didn't mention it -- which probably means that your system requires the vehicle transponder to communicate with a couple of base stations.

That means that the _outside_ antenna would have to be omnidirectional, or, possibly, to provide some gain in the direction of the base stations. It's possible that even if the outside antennas had to be omnidirectional, they could be some form of stacked collinear array and provide gain.

However, your _indoor_ antenna could probably be substantially more directional -- pointing at the location where the vehicle is to be parked-- and offer a substantial amount of gain.

If there is sufficient signal strength to and from the vehicle for the system to function outside the metal building, making the system work inside the building should be possible.

You'll have to tune back and forth on the signal to make it
intelligible. Too far in one direction, and it sounds high pitched and
like Donald Duck. Too far in the other direction, it sounds too low
pitched and like Darth Vader. You also have to make sure you're in USB
for upper side band signals, and LSB for lower side band signals. If

you're listening to hams, they're typically on LSB at 7.3 mhz and below, and USB at 14.150 mhz and above. Not sure about SW broadcasters...

When I was a kid, this was the frequency used by all of my toy walkie
talkies.

Why would someone put a beacon on channel 14?

Mr C seldom gives a link - just the devilfinder search engine

But from URL:
http://home.clara.net/rod.beavon/morse.htm

"Oddly, there is one high-tech industry where Morse code is still used:
airline pilots have to know it. Admittedly it is only at about 5 wpm, and
only three letters at a time. Beacons which radiate in the medium wave
region of the spectrum use three-letter identifiers sent very, very slowly
in Morse. NAVAIDS still use Morse."

Also see URL:

Sez "Navaids broadcast their identifier using Morse. That's how you verify
you've tuned in to the right facility."

VOR's, which are above the FM band, broadcast ID's in Morse. However, the dot and dash rendition is printed on the map. I guess knowing Morse is one less thing to slow you down. I certainly knew it, when picking up a private ticket, but never got a chance to use my highly refined skill, owing to having no radio of any kind in the Aeronca 7AC's I've owned.

I didn't know airline pilots were required to learn it. I ought to have heard of that, if true.

Well, if you think that very useful and very helpful information, presented in a clear, cogent, and polite manner, is given by a******s, then I guess that dxAce and Telamon qualify.

I do not know what "Nomen Nescio's" problem is but I think it is safe to say that he/she has answered FAR FEWER questions than either dxAce or Telamon and therefore is somewhat less helpful here than those two gentlemen.

dxAce and Telamon, for those new to this group, along with R.H.F. and a few others, are fine gentlemen and are always eager to be of assistance to those in need (including myself) and for that, I thank them.

I'm sorry that "Nomen Nescio" feels otherwise (and feels the need to express himself/herself in such crude terms) but I think most of us here realize what an asset both dxAce and Telamon are.

I don't comment much on amateur issues, despite the belief that many of them affect us as SWL's, but I think this shows a bit of insight into what some of the challenges facing the ARS, and by extension, SWL hobbycraft.

We've all heard of Riley Hollingsworth, and many of us have an opinion of him and his crusade to clean up the ARS bands.

But few have ever heard him in his own words.

He's a wry wit with a pragmatic view of ARS and what practicing hams need to think about when using the bands. There is also practical advice to the rest of us, here. And though much of what he says isn't relevant to all of us, it IS relevant to many, and does warrant the moment of attention, if for no other reason than to give a first hand experience with what the man is about, and what he has to say.

No.
A J-Pole is not an isotropic radiator.

It is "omnidirectional" only if you consider signals that intersect the antenna in the plane that is at a right angle to the major axis of the antenna.
The closer you get to having the signal intersect the antenna at the end the the less sensitive the antenna is. i.e. it is less sensitive to transmissions that are from below or above the antenna.

You will get an idea of the plot the antenna's free space pattern if you imagine an orange with two major parabolic dimples 180 degrees apart, the centers of which are in line with the major axis of the antenna.

In practice the antenna is considered an omni because they are mounted vertically to communicate over the surface of the earth with other radio units on the surface of the earth .In day to day operations the surface of the earth is very close to the geometric defintion of a plane.

Dear Readers - This Commentary Contains Racially
Offensive Language.

(OT) : M II - Concerning Your Continued Use
of Racially Offensive Language

M II - Since you like to use The-"N"-Word [Nigger]
THE-N-WORD => http://en.wikipedia.org/wiki/Nigger
so much to condemn others : why, Why. WHY ! -
Do 'you' then Use It 'yourself' and so Boldly and
Proudly -vice- simply referring to it as The-"N"-Word ?
- - - It Clearly Appears That 'You' Yourself Are
Racially Motovated in the use of The-"N"-Word.

What has been written here by some Posters
is the Word "Nigga" : A Word that many Young
http://en.wikipedia.org/wiki/Nigga
African-Americans use as a form of Racial, Ethnic
and Cultural "Self-Identifcation" for 'Their Generation'
An example is the Hip-Hop Group that uses the
Initials "N.W.A." for "Niggaz-With-Attitude"
http://en.wikipedia.org/wiki/N.W.A.

It should be 'Noted' that some in the African-American
Community do not like the fact that the The-"N"-Word
in any form is being used by anybody at anytime
including Members of their own Community. Why even
the Rev. Al Sharpton, President of the National Action
Network and a Leader with-in the African-American
Community has taken up the Cause of Eliminating
the use of The-"N"-Word as a word-form in the
Enterainment Business.

John H. McWhorter an African-American Linguistics
http://en.wikipedia.org/wiki/John_McWhorter
Professor {fromerly of UC-Berkeley} has commented
and written often about the process of "Self-Sabotaging"
Black Culture by African-Americans themselves.

The Word "Black" is harmless enough in an of itself
http://en.wikipedia.org/wiki/Black_people
but when it is used to refer to "Black-People" then
it clearly has to be viewed in the 'context' that it is
Used in and the Meaning that is being Attached to It
by the User and the Receiver; along with any Emotional
'feelings' associated with it at the Time it is being Used.

Clearly saying : "You Black Bastard" can have a
different meaning and emotion associated with it :
Then saying : "She is a Real Black Beauty".
This can in general be equally applied to the use of
Words {the Terms} : African-American; Afro-Americans;
Black-Americans; and even Colored [NAACP]
http://en.wikipedia.org/wiki/African-American
http://en.wikipedia.org/wiki/Afro-American
http://en.wikipedia.org/wiki/Black_Americans
http://en.wikipedia.org/wiki/Colored
http://en.wikipedia.org/wiki/National_Association_for_the_Advancement_of_Colored_People
and that parent-word of The-"N"-Word 'Negro'
http://en.wikipedia.org/wiki/Negro

M II - There are many Words, Phases and Acronyms
that are associated and linked to the The-"N"-Word
http://www.urbandictionary.com/define.php?term=nigger+behavior
as clearly shown in the Urban Dictionary webpage.

READ - Why Would We Call Ourselves "Nigger"

QUESTION - Should African-Americans allow
the usage of The-"N"-Word ?
http://htmlgear.tripod.com/poll/control.poll?u=ifama

M II - Clearly 'you' use The-"N"-Word in your Posts
here in a Manner that is Designed to Generate Hate
and cause ill 'feelings' : I ask that you as a Resident
of Canada and a Canadian Citizen to Cease-and-Desist
from the use of the Word "Nigger" because you are
Preaching Racial Hatred and Racial Division.

Like him or not, it's your choice. And he really couldn't care less.

But if you ever ask him a direct question about radio, antennae,
listening schedules, and technical solutions, you will be hard pressed
to find anyone who is more knowledgable, nor willing to share what he
knows.

I've never been more amazed than looking at a group of individuals
who gather in one place to share a passion for hobbycraft, who
degenerate almost immediately into personalities, and bad humour. I've
seen it in car clubs. I've seen it in professional societies. And USENet

seems to be made of it lately. Especially after AOL discovered it.

But, you know....we've not here to admire Telamon's personality, or Ace's gentle, deft turn of a phrase. We're here to enjoy, and share what we can, about radio. Specifically, shortwave radio. And in that, it's very easy to look past personalities, and simply get on with the enjoyment of the hobby.

I don't get along with everyone here, either. And there are those with whom I would not quality time outside of radio. But with only one exception, there's no one I wouldn't share what I can with. As, you will find, it is true of most of the regulars here.

You don't like Ace? Telamon? Any else? Nobody cares. Especially they.

But if you want to know something relevant to radio, listening, hardware choices or operating tricks...ask. They're the first to offer real, significant and relevant advice.

Which is why we're all here.

It looks like I can do some experimentation with this concept of using
2 antennas. It might be good to call a manufacturer of antennas and
they could suggest one of their products.. The vehicle gets GPS, but
the real problem is that it might have data stored on board that has
not been dumped to the base station yet. It is that data I am trying

to preserve. Once that data is gone, the vehicle might look like it is out on the highway still. The data that showed it pulled into the garage can be lost once the vehicle shuts down. The system times out after about 15 minutes and the data not sent is lost.

DE - That was "KOAC" 550 kHz - in Corvallis, OR
- which is part of the Oregon Public Radio System.

DE - I am simply reporting on what I 'observed'
last night on the Radio.

* The reason for the "?" Mark is that the Frequency and
Station is not in Question but the IBOC "Digital" Signal
may possibily be coming from another Radio Station
on that Channel due to Late-Night-Skip.

Could be the HD Radio itself
{ Radiosophy "HD100" Radio }

Could be the Nightime AM/MW Band Conditions

Could be the Result of HD Radio 'by-products'
appearing everywhere across the AM/MW Band.

* The Blue "Digital" Light Blinked On-and-Off several
times but did not Lock-On and switch-over-to a Digial
Signal.

Clearly for me in a far-away rural location the Digital
{IBOC} HD Radio signals are too weak to made the
distance : So unless the Digital Signal Power Level
is increased from 1% to about 4% to 16% IBOC is
'not' an AM/MW Radio Listening option at this time.

FM HD {IBOC} Radio sounds a little to 'brilliant' to me
over normal Analogy FM Stereo Radio -but- may be
that is just the Radiosophy "HD100" Radio ?

Several excellent FM HD {IBOC} Radio signals can
be picked-up both Day and Night here - so they are
making the distance and the AM/MW Signals don't
seem to be able to travel that far or the Noise Levels
and Characteristics between AM/MW and FM Bands
make FM 'possible' and AM/MW 'almost possible'.

Next time I will have to try something better then the
OEM Six-Turn (6-T) 'mini' Loop AM/MW Antenna.

A very interesting US website about QSL cards just came out. www.iqslusa.com

This is what's interesting. You can actually make your own petty cool looking QSL card online without downloading any software. You choose a template style (there are almost 30 that I found) add your callsign, move text around, add new logos, change colors est. The only thing you can't change or replace is the background template (nicely done). Yet this does not allow cards to look ugly even if you try to screw the up (very thoughtful)

Thing I liked the most; you can make your card look either ultra modern or vintage looking (there are couple 1930 style templates) Once again all this is done online without need to download any software or sign up for anything. Its nice to see that someone has actually done quite a bit of work on this thing.

Afterwards, I sent myself a newly created QSL. It says there that you can use it as e-qsl or order actual printing (printing is done in US, price list looks descent)

Another neat feature; they will automatically fill in your QSO table during printing process if you send them your log (this is apparently free, or a least it says so on the website) That will save a bit of time, would not it?

Anyways, check it out. Beats sitting there and trying to make your own card in Word or Power Point, which in my case always turns out ugly.

Cheers , Nick 73!

I am 14160. The reception in town here is dismal - especially if you
are in an apartment. I have access to all the antennas on top of
Harris, but the noise from the surroundings still makes swl
impossible. You will do much better to get out of town at night to
play with your radio. I go to Letchworth state park on weekend with
my radios to get away frrom noise.

Essential Israeli government workers have a bad habit of striking and leaving the government up the creek. In Gershom Gorenberg's book The End of Days-about monotheistic religious endtimes beliefs-he mentions that on some of his rounds to interview the who's who of the Third Temple movement in Israel, who believe that the Dome of the Rock should be demolished to make way for a new Jewish temple, the stench from weeks of uncollected garbage was nearly unbearable thanks to a protracted sanitation workers' strike that turned Jerusalem into a landfill. If the unions would do that, they certainly would shut down the IBA, which in Israel's case means NO radio or TV AT ALL, internationally or domestically. The only radio or TV available would be from satellites and Israel's neighbors, although why an Israeli Jew would have a TV capable of recieving signals from Hamas or Hizbullah is beyond me. I'm sure that should Israel TV go dark that the Muslims will soon be broadcasting propaganda on the Israeli freqs. If you live in Israel, get ready to explain to your neighbors why their evening news is now Al Aqsa TV.

I have found that Oz tends to fade in not until a few hours later,
around 1100-1200 UTC. That's when there's enough darkness to
sufficiently propagate the signal. By 1400 they're usually booming
in.

Where are you located, approximately? I wonder if there was some
unusual propagation path then. The signal was surprisingly free of
deep fades. I went to sleep well before 1100. I will try towards
then later. Though the signal was readable enough to hear the "ABC"
announcements and the unmistakable female and male Australian
accents :)

The transmitter for 4910kHz is at Tennant Creek; the origin of the programming at that particular time will either be Darwin or Alice Springs, depending on which of the two programs that the shortwave transmitter takes. My guess is Alice Springs.

Olympia Radio is frequently misheard. I've never heard it, but
apparently the Greek accent is difficult for Americans. The "mystery
language" also leaves Americans scratching their heads. In fact, Greek

is a language unlike any other, as can be determined by looking at the Indo-European language trees found in most professional grade hardcover dictionaries. Greek apparently came right out of the protolanguage spoken by the root tribe of Indo-Europeans, the original Caucasians, and has passed down through 10,000 years with some modifications but without losing its "otherness". Greek also has its own alphabet, with about 20 letters, that has changed little from the days of classical Athens.

Linguistically, the Greeks are a big mystery, and so is the root of their culture. There was apparently an age of great kings and kingdoms, as celebrated in the Iliad, then a mysterious blank that left no written records, called the dark age of Greece. Once written records show up again, the polis (city-state) system had already been established. The mysterious gap has left historians of the ancient world scratching their heads in befuddlement-there seems to be nothing between the ancient kingdoms and the city-states that left anything behind.

Since the great migrations from Eastern Europe to America during the Gilded Age yielded little in the way of Greeks, Greece is not on the board for Americans who can trace their ancestries back to the massive numbers of Czechs and Poles who arrived. (My great grandmother was pure Czech.) There's a small Greek American community in NYC, and individual Greek families scattered around. I've met maybe two or three Greek Americans in my whole life, and I live in California. I've met more Jews than I have Greeks.

America, where the media is entirely private run, has this problem sometimes too. But usually Americans know when to can the self-righteous blathering and get on with reporting the news. America has had private broadcasting for much longer than Australia, so our media knows what's appropriate. For example, 9-11 coverage went interrupted without commercials for nine days until it descended into absurdity and the execs pulled the plug. At least their hearts were in the right place. No American outlet would interrupt a major emergency for commercials.

OTOH, the push to lure viewers sometimes gets them in trouble, as in the mass shooting at Virginia Tech University in April. The gunman had mailed DVDs and still photos to NBC. The material was copied, the originals given to police, then for the next 24 hours America was treated to wall to wall Mad Killer Coverage. The gunman's snarling face and menacing poses with his guns and even a hammer were everywhere. Finally an outraged public forced them to stop.

The opposite problem is when warm fuzzy stories are used as real news. Recently a pair of humpback whales, mother and baby, swam up the Sacramento River as far as Sacramento City, about 90 miles from the

ocean. For DAYS that was ALL the local TV talked about. Thousands flocked to see the whales, lining the riverbanks and disorienting the already wounded animals with their shrieks. Despite the media circus, the whales eventually righted themselves and swam back out to sea. This of course was a "success" and allowed the media to return to normal.

Greetings:

I would appreciate some comments on Internet accessible
receivers; to me they represent a useful resource for
propagation studies, signal chasing, RDF and a great
many other applications. Have you used any and for what
purposes?

I would also appreciate someone willing to test a
receiver that I have put online; that person must
be willing to install a SIP softphone and set up
a VoIP account (free) if they don't already do VoIP,
and also use a browser that supports java applets.

TIA,

That's a whole trainload full of good advice and sober thinking.

The SWL hobby, like amateur radio, is in a serious and generational
danger. Kids today have Skype, and IRC, and podcasts, and an
unbelievable variety of streaming audio choices, and chat rooms, and
Second Life, and cable TV, and AM/FM, and HD-radio, and cellphones, to
communicate and receive news and entertainment.

SWL takes work. Like sailing, it's harder than driving a motor-boat
or a jet-ski. Often-times, having a good mentor to help you along
makes the difference between a newbie giving up very quickly on SWL,
and becoming an eventual enthusiast willing to share his or her
knowledge and excitement to the next crop of newbies.

So some newbie stumbles onto rec.radio.shortwave, and posts a
question. Odds are, a number of genuinely helpful responses will
encourage him or her. But then..... reading a bit further.....

To be somewhat crass myself, I think what Riley's saying is: when
there's a fire burning in your house, people of sound judgment don't

spend their time shouting and arguing -- they get to the business of putting out the fire. In this case, by welcoming and encouraging new people and acting in a polite and civil way, rather than engaging in pissing contests.

I know the majority of people don't need this lecture. But for the sake of the hobby, can we try to act more like we'd like to be treated and less like we have something to prove?

And now back to your regularly scheduled bitstream... :)

well,
since you are not really a communications consultant (as such), its probably a good idea to get a radio frequency guide of some kind (ARRL makes nice publications for those who have only a little understanding of radio and how it works).

ok, your biggest problem (and the possible solution) is that the steel structures these vehicles are parked in acts like a faraday cage (and RF shield). in this case, its a "leaky one" (which is why you sometimes have or don't have comms to the vehicle's on board tracking systems).

the solution is fairly cheap (and is in use by the Arizona Dept of Public safety here in Phoenix for locations that are well shielded (such as the downtown deck park tunnel). they simply use an antenna system where there are 2 antennas and a piece of coax connecting them)one mounted above ground and the other mounted inside the tunnel). this works very nicely and requires no electricity to provide power.

in the case of these parking structures you speak up, it might be best to have3 pr 4 at the corners of the building as close to an entry point as possible. this will offer good coverage inside the building while allowing omni-directional coverage outside. the cost to put such a system in place for 900 Mhz is fairly cheap (under $400.00 for the antennas and coax).

you could also consider a professional installation approach to this (there may be a communications specialist in your area that can offer helpful advice and installation for minimal pricing).

something to check into. :)

It's always good to get a feel for the SSB feature of your radio by "driving it around" a bit on an easy signal before you try to use it on a very weak signal like AFRTS can be sometimes.

For practice, you can always tune a local AM broadcast with your SSB feature turned on. If you have a USB/LSB switch or mode button, try both. If you have a dial that's marked "BFO" or "clarifier" or similar, twiddle that. If you can get an intelligible signal in that mode, you know your receiver works OK in SSB mode and will get a feel for how to work the controls. You will probably hear a horrible screaming whine which changes pitch as you tune which won't happen with a "true" SSB only signal, so turning the volume down low isn't a bad idea. When it's tuned so the pitch of the whine is so low you can't hear it anymore, you're just about perfectly tuned. Tune for maximum natural sound.

In SSB mode, when you run by an SSB signal, instead of an annoying high pitched whine that drops as you get closer and closer to the signal (and rises again if you continue past it), instead you'll hear a gibberishy sound that changes pitch as you change frequencies or rotate the clarifier/BFO knob. Start slow, and see if you can get clear and natural sound. If the voices or music still don't make sense [insert commercial radio-bashing joke here] , try the alternate sideband if your radio has a USB/LSB mode switch. (If it has a BFO knob, it should make sense when you have the knob set right without any other adjustments.)

Using a regular AM radio station works because a standard AM broadcast band signal is both a USB transmission, an LSB transmission, and a carrier transmission, all in one. The USB and LSB parts carry identical information (in mirror image), and the carrier is there to keep the receivers simple. You can throw out the carrier and one of

the sidebands and lose basically nothing. That's how SSB works. (The carrier is what makes the whine.)

One DXing trick is to leave your radio in SSB mode as you tune even for AM signals. Even VERY weak signals that are barely discernable, will cause an audible squeal as you tune past them, so it's a good way to ensure you don't miss a weak signal.

Another neat trick for radios with a selectable USB or LSB mode, is to tune an AM signal very carefully, and then listen to only the USB or LSB side, whichever has less interference. Sometimes this can really save your ears.

A last trick in "fun with SSB" is if you can't tell exactly what frequency a station is on. In AM mode, you can be tuned off a bit and not really hear any difference. But if you turn on SSB you have to be pretty close to exactly on the carrier frequency for the whine to disappear. This ONLY works on radios that don't have a knob for BFO or clarifier, though.

Hope this helps a little.

Night HD is still not authorized. The FCC approved, but we are waiting for the publication in the Federal register for the FCC to give the go-ahead.

No, if I would be interested in that, I would listen to streams from radio stations right away. Half the fun is building your own antenna's, etc. But I can understand that others are interested in it.

Amateur Radio Newsgroups: Total Meltdown
Paul W. Schleck (K3FU) on April 26, 2006
View comments about this article!

Way back in 1972, before there was a World-Wide Web, even before there was Usenet News, amateur radio enthusiasts on the then-ARPANet organized a mailing list known as Info-Hams. In 1979, a couple of researchers at Duke and UNC developed a system that used "Unix to Unix File Copy" or "uucp" to copy files from one system to another, to make a broadcast bulletin-board system called "Usenet." The Info-Hams mailing list eventually gatewayed to this system, becoming fa.info-hams (fa = "From ARPANet"), then rec.ham-radio, then rec.radio.amateur.*.

Fast-forward to the present, and the newsgroups rec.radio.amateur.misc and rec.radio.amateur.policy are now in complete meltdown (the *.antenna, *.dx, *.equipment, and *.space newsgroups still seem to be in good shape, though). Both forums are almost completely bereft of any topic discussion. Instead, one can find run-on threads consisting of short, sniping, and personal attacks containing obscene language from what must be fewer than a dozen, mostly anonymous, users.

What happened? -- Maybe too many run-on arguments about code, or attacks on individual ham's personal character. Maybe just the anarchy and Tragedy of the Commons that is encouraged by totally-open, unmoderated forums where no one is obliged to obey any rules, and no competent authority seems able or willing to enforce them if there were any. Further fanning the flames are free, and anonymous, news posting sites like Google Groups, Yahoo, etc., as well as any news site that simply doesn't care to enforce any net etiquette among its users. Some hams have even offered the explanation that better enforcement of amateur radio regulations by Riley Hollingsworth at the FCC has had the unintended consequence of driving problem hams off the bands and onto a less restrictive forum to wreck.

As for Google Groups, it certainly deserves credit for archiving most newsgroup discussions since 1981 (thanks to old backup tapes meticulously maintained by Henry Spencer at the University of Toronto), but also a big raspberry for contributing to this problem.

This hasn't happened to every newsgroup. Even though other newsgroups have trolls, there seems to be a "immune system" of constructive users who step in both to ostracize problem users, and continue positive contributions in the face of such troublemakers. Certainly this behavior is not tolerated on web logs such as qrz.com and eHam.net. The site owners simply would not allow it. There is at least one example of a licensed radio amateur who is Dr. Jekyll on the blogs, but Mr. Hyde

on rec.radio.amateur.policy. There may even be others.

I'm sure some would argue that Usenet is obsolete, and we are all
better off going to moderated blogs. Still, I can't help but think that
something is being lost here. For example, 20 years into the future,
will we be able to read archived and indexed articles from most web
logs that exist today, as we now have with Google Groups? Are there
constructive solutions to the meltdown on rec.radio.amateur.*, such as
converting newsgroups to moderated status, even if such moderated
status is simply a self-approval, or anonymous user filter, mechanism?

If I might answer your question, what did we lose: what you lose on the moderated web blogs is annonymity. Yes, you can have annonymity more or less, but somebody somewhere has to approve your posting and your password, and they have your email, it is a bit more of a digital paper chain than on usenet.

You also lose the ability to go off topic. Some fora are more strict in this regards than others, but there it is: sometimes relating one issue to something seemingly off-topic is lost, with it, the freedom to address big picture questions.

You lose the ability to cross post.

Etc... there are many others

I will look into the dual antenna idea. Possibly someone has a
suggestion as to a company that would have some experience in this
area and could supply these antennas.

The transmit/receive stations are typically 10 to 30 miles from the
vehicle garages. The system works on a polling concept where each
vehicle is polled by the base station for its data and has 1 second to
respond with its data packet. Communication outside the garages is
good, but not spectacular to all garages. The number of garages we

are talking about is about 20 to 25, although I don't know if each would get or require this signal boost.

By the way, as I get into this further, I have the feeling I will need a field strength meter to determine the minimum strength that our system can work with and what the actual field strength is in the areas I will be working. Who makes a field strength meter tuned for a specific frequency such as 900 MHz?

Why don't they fix it? They need to put up an antenna like KNBR's.

Recently the unions have restricted themselves to one or two day strikes.

The power of the labor party has long since waned and many people won't put up with it. The recent removal of Amir Peretz from the head of the labor party reflects that, He used to be head of the Histradrut the ONLY labor union in Israel.

It seemed in the past that every time someone threatened to remove Peretz, some obscure part of the union would strike and the airport workers would follow, closing the ports and airports.

The recent election in the labor party showed even they did not want him anymore.

Didn't New York have cripliling strikes well into Guliani's first term? Weren't there a few since Mike Bloomberg was elected?

> If the unions would do that, they certainly would shut down
> the IBA, which in Israel's case means NO radio or TV AT ALL,

Yawn, The IBA runs channel 1, which has some Hebrew programs, English news and Hebrew sports and a lot of programs no one watches. The hot channel over the air is the Hebrew only (but has lots of American programs subtitled) Channel 2, which is run between several companies which operate on different days.

On cable/dbs, there is Channel 10, which also runs a similar, but cheaper mix as Channel 2, and Channel 9, which is almost the same, except everything is in Russian with non Russian programs dubbed.

The BBC used to have a relay in Haifa, now they have one in Cyprus, which is hard to receive except on the coast. I listen to it on shortwave.

Both cable and DBS have BBC World, CNN, Sky News, France 24, Al Jazera English and Arabic, and cable has Fox News for free, it costs money on DBS.

Once you get out of the charadi (aka ultra orthodox) community where computers and television sets are forbidden, most homes have a computer and Internet, Israel has the highest "penetration in the broadband market" except for maybe Korea.

There are lots of news sources that can be found on the Internet, the right wing Arutz Sheva (channel 7) pirate station gave up and went Internet only a few years ago. The IBA English news is so left wing that it's almost useless unless you live here and can understand when it's news and when it's the "party line".

The most popular Hebrew radio stations are Galatz (a Hebrew acronym for Army Radio) (waves of the defense forces of Israel) which is Hebrew only, and Galgalatz (Army radio on wheels) a station supposed to be run by the army and placed near combat zones to provide information to soldiers.

Since it has no fixed abode, it does not have to follow the Hebrew only requirement of Galatz and plays about half of it's music in foreign languanges, mostly English.

Both Galatz and Galgalatz (both available as Internet streams) are run by the army, usually by serving troops and will not strike. They are not part of the IBA.

Then there is the new English (non) pirate radio station RAM-FM, also on the Internet) which operates in the Palestian Authority city of Ramallah, because the PA gave them a license and Israel will not.

They are owned by a South African and their stream comes from there.

There are also several privately owned Hebrew stations, including one owned by the Orange cellular telephone company that calls itself "Orange 99".

The English languange news would be missed, but to call the IBA the only souce is simply wrong. It's like saying if NBC went of business, there would be no radio or TV in the U.S. (I'd miss Leno, which I watch on DBS).

Geoff.

This is a hands-on controllable and tunable receiver, not a web-form
click contrivance. Using WMA, streaming MP3, etc. incurs unacceptable
audio delays that make hands-on tuning unusable. Streaming the audio
with RTP using SDP (or RTSP/RTCP when practicable) removes the
offending latencies for the most part).

I am very active in a Chinese radio discussion board, I am lucky
enough to be one of the only few people who got a chance to review the
engineering model of VAL R-301 radio. The biggest surprise to me is
the sound, it has a very warm and tube-like sound only heard from
vintage European radios, the bass is
relaxed yet powerful, better than the tight bass available from
Tivoli.

For features, it has FM/AM band, FM stereo available from a satellite
speaker, and a real mechanical timer!

Yes, I know it doesn't have Short Wave but if you do not listen to SW
and want a good sound, R-301 is not a bad choice.

I have created a group on Yahoo and put a few pictures there, if you
are interested, you can have a look at http://groups.yahoo.com/group/Valradios/

Just so you don't think I'm daft, Kenwood employs the same strategy
in streaming audio to their proprietary receiver control software; here
is an excerpt from the TS-480 User Manual:

ARCP-480 is compatible with the
Kenwood Network Command
System, enabling control of the
TS-480 over a network and, using
H.323 (VoIP), making voice
transmission/reception possible.

I don't require installation of any proprietary software, just a VoIP
'phone call'

One possibility for your application might be to purchase a scanning receiver ("police scanner") with a signal level meter of some sort -- unfortunately most scanners don't have a signal strength indication. My RadioShack PRO-97 scanner covers 806-960 MHz with (specified) 2 microvolt sensitivity for AM, but doesn't have a signal level indication.

The light may be flashing due to something else the radio is doing or
picking up. None of the stations you list is currently authorized for night
HD. And, like I said, the KFI transmitter is not even installed with HD
capability.

Zoning. FAA, etc. Still no permit to build, but likely replacing the 770
foot tower with a 660 foot top loaded one at same site in 4 to 6 months.
Station will move to the former Montecito Heights KRKD location at low power
for the time it takes to put up the tower.

I know this is off topic but I need to say it. I was recently accused of not completing a transaction with James Larry Ryan AKA Cahulin almost a year after the transaction took place. Before I go further I would like to also say that I have been a member of this and several other radio related groups for over a decade and have completed hundreds of transactions and repaired or restored radios for many people on these lists, All of which have been happy.

My questions are:

Why did Larry wait a year to tell me this? And then not even talk to me about it? I'm easy to get a hold of and I'm one of the few people on Usenet that you know where I live and who I really am etc... Instead he comes here and calls me a lire and a cheat etc... It makes no sense? I make a excellent living and have no reason to jeopardize my reputation over a lousy $100. Larry will receive from me again another $120 in the near future. I also hope in the future that Larry will learn to communicate on a adult level and not risk loosing any more friends for his sake and try to give people the benifit of the doubt before you hang them.

Nice looking retro styling. Questions: Who is it available through.

As one person mentioned above the ka1103 does not have a USB - LSB
selector just a SSB switch and a BFO knob.
I figured maybe it worked for both but I don't know. I know it works
good for 14.1xxx MHz so it picks up UBS.
One VOLMET I listened to was at 6.604 MHz so maybe it does LSB too. I
don't know if that's what that means or not.
Next I'm going to add a long wire antenna a see what that does.
I live in an apartment so I can't run one outside but I've read that
you can run the wire around the upper edges of the rooms even going
around more than once.
Thanks again for all the help and ideas. The radio crowd seems like a
pretty helpful bunch.

It should receive both fine. But tour assumption it is LSB is wrong however. Almost all (99.9% or more) of the utility stations use USB over the entire shortwave bands. Only HAM's use LSB below 10MHz, and USB above. Why this is so I dont know, customs I guess :)

Loop antenna's! If you dont have good ground, and dont have outside space outside of the electrical noise field inside your house, loops are pretty much the only thing left to use.

Try and make this puppy, you'll love it:
http://www.kr1st.com/swlloop.htm

Long wires are named becuase they are long, usually too long for appartments. You'll also need rpoper ground with a random wire. Loop antenna's dont need ground (at least, this one). Also, magnetic loops are less prone to pickup interefreence from your electrical equipment.

I use that loop, and experimenting with an active pickup loop on ti right now (with very good results). A (dutch lng, use babelfish) online article of the pickuploop is here: (its not meant as a pickuploop, but its working fine this way) http://www.radiocollectie.nl/Schema's.htm

I'd first make the passive loop. And if you like, built the active part later if you feel like it.

The point is you didn't get it and all you had to do was tell me and not wait a year to slander my name. I would have sent another. I don't keep receipts for these things a year down the road and its only $120. Not the end the world. I'll be sending you another. End of story!

You didn't answer the other questions. How much power does a good radio
need to get a listenable signal?

Here's some numbers

input impedance 50 ohms
Noise Figure 5 db
Bandwidth 6 kHz
signal to noise ratio 40 dB

(This would be what some of the newsgroups listeners here would want if
they had one of their pretty damn good radios listening to a broadcast
station. Really picky ones would probably want a 8-15 kHz bandwidth
with a 60 dB s/N ratio).

There are equations out there that will give you how much power
you need for this signal...

Oh ignore my comments about the active loop, although it al works as a
preselector, the effect of having an active pickuploop is less
beneficial then my daytime experiment made me thinking :)

But that Kr1st antenna is defenitally worth to built!

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanicly lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just being.

Bushite enemies are evil nazi dumfuk scum, liars who cowardly watch America in her weakness be high jacked, and squeak nothing for Just words in our REAL defense for dying. Play pretending their actually real men, because to really be so, requires real strength. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot

Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. So, let's get done what needs to be a doing to save ourselves, so we can get this talking all behind us now, and reach for something truly breath taking as awarding,

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly. We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt. Bushite tyranny is a dead end road paved with missed opportunity. change your evil ways in other words, and join the living side that's light to know what we are, in deed, looking at here under the dying spoils of bushite, "we pay" misfortune. To hell with Satanic demon devil worship by the President of the United States, We, the People answer, for now anyway, we have some really serious business just presently, and we really don't need to be any more reminded about Mr. Bush's satanic Devil demon whoreship of "Molech", a religion practiced to deceive America into sacrificing our kids for cash with YOUR blood.... Tricked. Tricked. Tricked.

Nationless bushites who blindly war Life as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH
TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled
inspectors out of Iraq, but then... how is this not HELL to
pay?

/ / Bush declared, "and he wouldn't let them in. And,
therefore, after a reasonable request, we decided to remove

actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to
Amerka, and inspectors had complete unrestricted access
throughout Iraq without delay prior to the, bush demon's
further war crimes. So, what was the reason for all the
pointless mass murder and destruction again? Oh right.. to
sacrifice American soldiers so terrorist bush's war
profiteering can feed off themselves as family without

leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO

isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack

our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by refusing to be honest about our potential to be far greater than first considered. corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

War and the Police State: Complicity of the American People
http://www.globalresearch.ca/index.php?context=viewArticle&code=THO20070421&articleId=5454

and against the American people. \ \

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked
Daschle, "Did the vice president call you and urge you not to
investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion
of the official public contention, that immediately after the
terrorist act of 9/11 in New York City, (where thousands of
American People were murdered,) bush and cheney frantically,
desperately, INTENTIONALLY, worked paid overtime to close 9/11
(the justice-freedom thing) Investigations on who or whom
planned to get away un-apprehended with the still living as
freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like
the clear as day video of steel running like water from the
WTC towers, for, as Humanity witnesses, they'd rather watch
silently, children murdered indiscriminately, before,
acknowledging wise godly men from our communities who speak
ONLY facts on America's derision for real, open market Free
communications - freedom fighters who ACTUALLY defend the
innocent from the neocon bushmob traitors. Each day we hear
of near hundreds of US murdered by the godless Satanic
THEIVING "American" forces in Iraq. without near a peep of
concern by "America". Lawless bushite mercenaries torture
rape and murder, paid to do so by the WILLING American tax
payer, and near 300 million "People" (the NAZIS) can't find
the effort to pick up a princely phone and call the ENEMY pro
child killer George Norry, (who broadcasts every day across
America nationally for the IRRATIONAL neocons,) to air any
real concern for our Lives. True, the demon enemy censors OUR
calls, and contrives WE a buyer without questions, but he
doesn't censor You always forever. So, get to it fukhead,
JOHN is growing angry with americans of EVIL ignoramuses
escaping the bushmob for crimes against MY HUMANITY. The Son
of Man States: Death to the bushite, death to our MURDEROUS
enemies, who lie cheat and steal to assist in the further
criminal escape of the ungodly bushmob for 911 as TRAITORS.

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our

love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

The Pentagon's Power to Jail Americans Indefinitely

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending

with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

The Iraqi "Government" has arrested the woman raped by three Iraqi policemen
http://www.uruknet.info/?p=31340

/ / Janabi shocked Iraq last month when she appeared on Al-Jazeera television and accused three policemen of detaining her and then raping her in their garrison.

Her story earned a fiery rebuttal from the Shia Prime Minister, who praised the policemen and promised to promote them. His office released a medical report allegedly taken from a US military combat hospital that said the woman had been beaten [..] \ \

/ / The Iraqi Government has raided the homes of eight Sunni MPs in the last week, Salim Abdullah told The Times.

A senior Shia official said raids on the homes of Sunni MPs Khalaf al-Ayan and Dhafir al-Ani had found bomb-making materials. \ \

This is simple bushite tyranny of the dumbest order. No MP, beit pro or anti, is going to conveniently have such things inside TWO ADRESSES! Not impossible mind you, but highly un-believable. US officer "upset" Iraqi suspects taken alive, court hears
http://www.telegraph.co.uk/news/main.jhtml?xml=/news/2007/03/14/wsoldier114.xml

/ / A US military officer sounded "pretty mad and upset" that
a group of soldiers had taken suspected Iraqi insurgents alive
during a raid in which they had been told to kill all military-aged
males, a court was told Tuesday. \ \

Come on now, who wouldn't take great joy in destroying any and
all such ungodly bushite hatred for Humanity in this light of
day, eh? In fact,why don't American Congessmen, who believe
in defending Liberty, campaign JUST that? Why not??? Is it
because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams,
George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'
of the bushmob for 911. I would like to form a global posse
of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our
highest of priority issues, and get started with the nothing
to hide from anyone global arrests, with PUBLIC court
proceedings, done all for our public interest as the refusing
to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating

bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially
deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my

audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite
are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."'
[...] the [bush whore] American, speaking through a translator,
warned him that he did not want to see any AP photos published
anywhere.\ \

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

/ / The FBI man in charge of collecting evidence from the

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest
of those who told America the victim committed suicide, when

clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press
a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

Fact 7: This vaccine has purportedly been shown to protect against four types of HPV--6, 11, 16, and 18--while there are

over 100 strains of HPV. Does that make it worth it, even if these are said to be the most common types of the strain? \ \

Don't let these neocon zionist bastards do this to US.

Bushwhore Tony Snow "[...]We konw[...]"

General Pace "[..]WE DON'T HAVE PROOF[...]"

Senator Hagel "..we're decimating our National Guard."

Again, commander Blount, a Saudi, from the third infantry, gave out 170 TONS of plastic explosives from Qaqaa to kill Marines with. And, "American Patriots" don't rightly bill the true demon nazi fuker for it. Again, Blount, a Saudi, confesses to ordering SOULLESS bushite soldiers to murder People indiscriminately for profit, all so to let US know he is there still laughing with our stolen billions. Bill the bushite Bush bitch Blount, a Satanic demon ENEMY for it.. why don't you? as the snookered to sacrifice your loved Family Guy, American Dad? Corporate TV News people are part of a death cult that doesn't rely US on evidence for proof they say we believe them unbiasedly without question. While forbidding ourselves to hear OUR calls for real Justice.

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt. The Coast to Coast Network staff must be taken back by Americans, to allow free open communications unruled by traitors. Or, go willingly further silent on the forbidden FACT that General Ahmad funded 911's Atta. The FACT we have video footage of melted steel flowing like water out of of the WTC towers, and, video footage of supporting beams cut by demolition thermite in the raised basement. The FACT that WTC7 was pulled according to many in the rescue effort who were advised to move back, cause the building was coming down shortly by explosives. while, the bushite billionaire zionist owner, M. SLVSTIN later then said no we didn't instead. Why is that significant in our shared reality? Well, who personally then let set the explosives in Building Seven for the bushmob to get blown into Afghanistan for American pension thieving Enron? Do do do do do do do, do do do do do. do do do do do do..

The riddler,

Support Johnny's run for acknowledgement, and get US in the News why don't You. Let me be king for a day my American Kin. Make me a rich, near to dwell, well to do.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished.

That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the

IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really

something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

CONTACT

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist

action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Die bushite die.

This is why the Son of Man through God begs the Peoples of

Please, I beg, help Iraqis, and kill the bushite thieves to defend our forsaken God. American children, help me my loves. Please don't allow the bushmob to escape for the treasons against America on 911, for, bushites are OPENLY traitors, as the TRUE enemies of evidenced Justice, as the Freedom to do our own things loving God on our own. Besides, most bushites aren't even registered American citizens. Bushites need to be hunted down for destruction - by the Loyal Christian American Patriot Soldier, the ones who war to win against those who torture US innocent to death as the ungodly Satanic LIAR enemies. Save the Humans, kill a bushite false accusing traitor of American Freedom To-day, and become a real Man in the presence of Johnny America, an actual Man of Men, Lord of Lords, and King of Kings.

/ / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. McCain knows he is an enemy to God's children everywhere. McCain speaks NOTHING to demand the

execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED. So, where are the North American multi-million dollar "Exploitation Units" to defend our King's children from TRAITOR pro-torture of US as the INNOCENT McCain there then eh? Units who he holds hiding behind himself somewhere in high blind praise as a rich group of child lovers I SAY??? (Is a heroin pushing bushite THIEF that supports the 'escape' of the bushmob with indiscriminate bombings in Iraq or Afghanistan, Lebanon, Haiti or Somalia, even capable.! of real human Love I torturingly ask dauh gangsta rappah? buddies where are You there in the stomach of the Beast celebrating?) McCain is a demon enemy of Life ourselves to promote the arrest of all the goodness that beauty brings in the heavenly art of our clothed teens. If it weren't for Earth Women, God's boy, Johnny Wizard, wouldn't even be here to bother. It's the reason I first picked up a guitar, it's the reason I did my early plays, then monster movies, and it's the reason I praise the orchestra of the Heavens in Dream, and well.. it's just the reason for everything. I speculate sometimes perhaps slyly that G was kinda lonely all by ourselves for zillions of years, whom, for entertainment, loved us up on the entranced exit starting - before a beginning without ending, yet, as outer there, is still the insider here, forever being we sorta, and gave us this foolish boy for the mental gymnastics. All in good fun. Rocking on to leave all as Mystery, never realized forever and a day in Eternity. You are a Servant, as so I am. Quite a place eh kid? So as it looks now presently, we're here still barely hanging on striving to survive against Mr. Bush's continuing unfair irrational tyrannies of clear injustices committed in Your Name against our Humanity, or, end ourselves dying without true representation, left falling further forsaken. [Home is home sweet home as in Chicago, as we always was going to with or without our loves heaven bound. For I'm starting a journey back to where I belong, where the food is good, the music's great, and life is truly worth living as miraculous.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Division is Illusion to a concept incapable of conception, because of our understandable impossibility to think such things that demand to have no mass included I suppose nowhere. Very strange stuff we can be considered as.. but guess what? Every mark is off the mark. It's totally crazy, but you move on to find Life to see/be how things are, and when you cross over, you find us all suffering much needlessly in blind sorrows due in failures to simply communicate our findings.

So, that's who I am. I'm born a simple man with a plan to save my broken dreams, and also exist unknowingly everywhere, all ways, forever... even beyond death.. just like you funny Atheist sparks of quantum energies are also, theoretically I should say in reflection. What proof could I bring you that would suffice you believing you have a responsibility to protect our dying selves too? Don't forsake me, by forsaking yourself in doing. Mister Bush committed 911 with his partner Ahmad, and we together, somehow, must fight back to defend ourselves DYING by demanding George W. Bush's immediate arrest, along with the others implicated from his Administration of Evil for the neocons treason of 911. Then, we'll work on us through there for further unseen treasuries! Keep the faith my friends, you all can now do this without my support whatsoever. So, get to it... for, I'll probably be watching from my cell if I'm imprisoned soon fraudulently from your fear to defend US now, further falling innocent victims by the will of no one.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly

mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

Death to our indiscriminately murderous thieving enemies of
God's Creation, who war Creation for bush's personal escape
for the crimes of 911 Christ would say right, wouldn't you say
so likewise my brothers and sisters, of the Muslim, Christian,
and Jewish religions in belief?

-

Great words from the lawyer of the thieving bushite child killers of
Haditha

/ / "There were Harriers dropping 500lb bombs on buildings.
If they're dropping 500lb bombs without knocking on the door
first, how can you argue the troops on the ground did anything
wrong?" \ \

2000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god
helpers and screaming children, then even, as in Fallujah,

going house to house to murder every one, young and old as the truly Satanic. Just obeying lawless orders to thieve from Humanity as bushite for neocon zionist traitors of G-D doesn't fly in the big book. When anyone kills a bushite, all humanity benefits truly from the defense. You defend a real suffering God by ending a soulless bushite threat against our species.

Bill Sattler.

/ / to think that these could have been just dumb ideas or incompetence. (L. Paul Bremer, for instance, who made the "dumb" decision about dismantling the Iraqi army, prior to becoming Iraq's occupation viceroy, had headed the nation's leading risk assessment consultancy, and surely knew what all the risks were of his various decisions.) \ \

Bushite TRAITORS got rid of the ORHA plan.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

/ / she told The Nation. "If I contribute to the Army's prosecution of Lieutenant Watada on speech-related charges, I will have colluded in suppression of speech. What could be more hostile to the ideas of a free press than that?" \ \

Again, a Patriot Soldier whos only crime is that he refuses to commit a crime in Your name. Do something about it.

George Norry and Art Bell are enemies of American chances for survival of our dying teens. Their contempt for Justice in America is blatantly EVIL, and worth killing before they do another dumfuk, they hate US, zionist demon broadcast. Traitors to God and Country George Norry and Art Bell are. They'll laugh, sing, and cheer while KILLING your CENSORED forsaken Son or Daughter, needlessly trapped sacrificing with the ungodly 'lawless' bushite zionist enemies, all before allowing any REAL Americans to SIMPLY discuss evidence as a requirement to convince ourselves of something. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta. Just the way TRAITOR George Norry DEMANDS it. For, truly there is no defense for 'lawless' bushite, but by an ungodly tyrannical censorship. Because YOU fear me, or refuse to demand Justice truly, You'll DIE as bushite victim, but Norry and Bell plan to live on 'escaping' as multi-millionaires, broadcasting on to further destroying freedom for others to 'cash in' with Your worthless forsaken soul. Now, I'm the Son of Man who can only do so much. If you won't speak for our dying freedoms, what do you expect me, or an all powerful G to do even? No... Really? What? I could ask all Universal species to assist US here on earth by hunting to kill bushite everywhere, but chances of 'them' getting here in time listening, seems rather unlikely. But who knows..

Death to the murderous bushite, death to our enemies, so says Johnny.

-

Real Americans are those of US as humanity that believe
in liberty as Justice for all. Demon bushite nazi
whores, don't like those principles of freedom through
evidentiary findings though, for their false deity,
George W. bush Jr, wouldn't be stealing from the honest
hard working blokes who live for a better day that way.

This quartet of oil conglomerates was granted these contracts

The US first military engagement in Somalia was fully
supported by Conoco. \ \

In the new world, these soulless bomber bushite of the air

against the innocent, would be hunted down by Humans, tried,
then executed gloriously in the defense of our living justly.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for

murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". snpd

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for

indiscriminate killing of our families and friends while
parading it's all done in bush's name for our freedom,
or for 9/11, doesn't fool me, and should get you
thinking about reaching for your guns too, for bushite
rapists and torturers will not walk this world freely
un-accountable, for as long as we remain alive to hunt
them down and kill them if so be. As the soulless
disciples of the enemy anti-Christ, Our Mr. bush Jr.,
their "officially" granted legal immunity from all
prosecution means nothing to me as a honorable man
defending my humanity, or as living Creator, who brought
all into this new world to be free, and can just as
soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that
he and rumsfeld with condi planned and carried out the
crimes of 9/11 with likely cheney orchestrating, don't
ever forget that part when attempting assessment [snpd]

How The Demon Bush Misled God's World

How Bush misled the world
http://www.theage.com.au/handheld/articles/2004/02/05/1075853996640.html

/ / Once the document was declassified after the war it became
known that it contained 40 caveats - including 15 uses of
"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such

offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Shirley, bin Laden would be sided with the fundamentalist Shiites, before, everyone-is-an-equal Sunnis, who as Bathists, had no problem WARRING al-Qeada, while counting as members of their party, Christians, Jews, Muslims, and Atheists. But corporate bushite liar america says no, bin Laden supports Sunni IRRATIONALLY, and that is why bushites have to sacrifice in partnership with those who blow up PEOPLE indiscriminately as the 'good guy' 'heroes'. Similarly like in Somalia, where bushite forces are working to directly arm those who murdered American GIs during Clinton. Those war criming repuglicons responsible for the bombing need to be tried and executed for committing first degree acts of mass murder in America's name. CBC, in Canada reported that Pentagon sources allege their isn't any evidence whatsoever to what bushite news america has reported to the dumfukked populace. [Peter Lance will tell you [mind you, half assly] on behalf of investigating officers of our LAWS, it was a dishonorable LIAR Green Beret actually, a Green Beret who set the bombs and blew them up to KILL AMERICANS, but says Laden ordered him to it though, so he gets to go free on his own apparently. An individual EVERY AMERICAN should hunt to kill with Americxan Law firmly established already. Why? Zionists murder Americans for profit, by simply lying un-challenged through corporate mind control, and culted soldiers to this day, would thoughtlessly call the ungodly lawless bushite traitors to freedom, 'good guys' and 'heroes'.

In April, Tommy Franks, the commander of US forces in the Persian Gulf/South Asia area, testifies to Congress in April that his command's key mission is "access to [the region's] energy resources." See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

Bushite Zionist atheists believe that I, as the Son of Man, Couldn't be anything but their worst nightmare. No, WE, as Humanity, will religiously really kill bushite continuously to hasten the day when America actually fights to win, free communications for Justice's claim. AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Daschle, "Did the vice president call you and urge you not to

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.

authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

Thanks!

Last night, signal was much weaker. So I guess propagation varies a
lot.

I wonder if they use NVIS (near-vertical incidence signal) techniques
like NBC Port Morseby PNG does on 4890 Khz. Outback Australia seems
like it was made for NVIS shortwave.

ibocisacr,

IBOC - Makes ene in the FM Band
and the jury is still out for a few years

as to whether IBOC will be a bust -or-
the destruction of the AM/MW Band.

Clearly for "Rural" Radio Listeners the Digital
part of the AM & FM Broadcast Signal will
have to be increased to reach the Listeners
on the Fringe of the Radio Stations range.

Phasing in and Increase of the Digital Signal over
Time would ease the Transition to HD Radio.
First Year 1% Digital
Second Year 2% Digital
Third Year 4% Digital
Fourth Year 8% Digital
Fifth Year 16% Digital
A 16% Digital Signal should give a HD Radio
Station a Signal Coverage Area far better then
their present Analog Signal Coverage Area.

of course that is just a dumb-ass opinion ~ RHF

PNG 4890 hasn't been on for some time. I haven't kept track, but maybe for a year or so? I don't believe they used a NVIS antenna.

Not certain if they are permanently off, or merely experiencing budget/equipment problems, but the tsunami wasn't an issue, as far as I know it didn't touch them.

No, it won't sound like "Liberty" as "Liberty" is English... However "Svoboda" is I believe, Russian for "Liberty"! The ID is most likely "Govorit Radio Svboda" = "This is Radio Liberty".

Enjoy.

Too bad they didn't expand the AM band to the current definition.
That will be a deal killer for a lot of folks.

I will forward your comment to the designer, I am not sure if there is enough time for a revision, but they will need to consider AM coverage if they are trying to access the US market, this is their first try so understandable.

Huh???

m II is just quoting the vulgarity *originally* posted time and again by someone else, so that makes m II a "nutjob" ??? What then would that make the *original* spewer of the vulgarity?

Terry, r2000swl, gave me this link to help me understand
antennas. It is an online version of a printed US Navy
electronic tech traning manual.

It covers many interesting topics.

I have a Log Periodic Dipole Array for my VHF/UHF scanner.
I didn't know that vertical versions for HF existed.

There are sections on the inosphere and propagation. All in all
a very good refference. I have ordered the CD version to have
it on hand.

Imhotep,

Excellent post for the most part Signor Taco

However, you left out the most important reason of all.

The reason the one drop rule applies to Black people and not so much
to other ethnic groups is that Black people are the only group who
have 100% ability to wipe out from the Earth, all people who consider
themselves to be WHITE.

When a medium brown skinned, or darker, Black person has children with a White woman, the Child comes out a color that White Supremacists do not consider to be a White child.

White Supremacists also do not consider that White woman to be a human being anymore. she has slept with a "GG" They destroy her as soon as possible.

So to White Supremacist minded people they have lost two things a child and a female.

They realize that their ethnic groups will disappear if many White women continue to have children with Black men.

They ignore the facts which are that less than 10% of the total marriages in Amerikkka today are White women and Black men. So that really is not a serious problem

Since White males control 95% of the top jobs in Amerikkka even though they are less than 35% of the total workforce, they have the power to set in place barriers to see that this imagined things doesn't happen to them.

That is the reason why they don't want to hire Black males especially when they have advanced degrees. That is why their is so much extreme violence directed towards the Black male. We have the power to quickly bring about White genetic annihilation. We can bring down the White ethnic groups, and only have to fire one HUGE gun...our love gun!

A concerted effort is being made to go after the daughters of rich and powerful White Supremacists, the hard core, hate mongering Whites. When Blacks Black top those children, they immediately realize that their parents, and friends have been telling terrible lies to them. So they turn on their parents and destroy them while they totally fall in love with black people.

The Bible says it perfectly:

As you sow, shall he reap!

What goes around will eventually come around.

Think about how the earth rotates on it's axis. It goes around and comes around.

If you have to get down in the cess pool to hold down an ethnic group of people because of their skin color, it will also destroy the oppressor because he is in the deep shit as well. There are no long term winners in the game of White Supremacy. Everyone loses.

That's why Democrats, Independents, Republicans, and most other Whites are in lock step on this issue, They are all paranoid about the Black man extinguishing the White Race" as they call it.

It's to late though. The process has begun and within fifteen years it will be finished, and so will White Supremacists.

White men hold the top jobs because they invented the very industries
that support these jobs. In fact, the technology you just used to
type you post was invented by a white man. The freedom of speech you
have was invented by a white man.

If minorities could have come up with these things, they would have.
Some do. Most don't.

Nut-Job relfect badly on Themselves and that is 'why' I call Mike (M II) a Can-A-Duh-Ian vice a Canadian. -cause- 99.99% of Canadians Are Good People -but- In this NewsGroup Mike (M II) is the Voice of Can-A-Duh-Ian Preaching All-Things-Anti-USA and Hatred for Americans.

- Huh???
-
- m II is just quoting the vulgarity *originally* posted
- time and again by someone else, so that makes
- m II a "nutjob" ??? What then would that make the
- *original* spewer of the vulgarity?
-
- Yet another classic case of "Blame the messenger".

TT - Yes when the Messenger Repeats Himself Many Times Over and You Ask Him To Shut-Up : Then The Messenger Is The Problem [.]

TT - He could refer to the offending words as The-"N"-Word - But Mike (M II) seems to get his jollies-off by actually printing the word {spelling it out} time and time again : To the point that he is now the prime promoter and user of The-"N"-Word in this NewsGroup.

The-Bottom-Line for me is don't use it and don't play The-Gotcha-Game of quoting someone else as your way {hee hee hee} of shouting out The-"N"-Word .
- - - Which is my opinion what Mike (M II) is doing along with his continued Anti-American and Anti-USA posting that Preach Hate for the USA and Hatred of Americans.

by the way TT thank you for not using The-"N"-Word
in your reply - now if only Mike (M II) could only learn
that lesson - we could move on ~ RHF

Thats about it. Don't mind him. He was abused as a child. He's
plonked
me twice in the last 5 years or so, and I'm sure this post will bring
me
up to three.. Which begs the answer... If I was plonked before, how
can I be replonked, unless I was unplonked..
I noticed he had to plonk Denny twice.. I guess his plonking
device is about as effective as viagra on a 98 year old..
I call him Telaprick... And yes, he has worked hard in the past
to deserve the new name I have bestowed upon him. I quit posting to
the shortwave group about a year ago, cuz I got tired of dealing
with a couple of brain dead morons that think they own the whole
show over there. And if you post anything that is even slightly
technical, they will whine and complain that it's too much for
the average shortwave listener to handle, or comprehend.
So I decided, $%&* em if they can't take a joke.
The only thing that goes "plonk" around here are the turds
that fall into the toilet each morning after I've had my first cup
of go juice. Only a whiny bitchette would go around constantly
"plonking" people. It adds more clutter than the posts he is
plonking..

Is this your last Mexican gardener? If you do this to save the cost of
getting your lawn mowed ONCE, what are you capable of?

Well, if you say so, Slick. But in this particular case, it still sounds
like you're continuing to "Blame the messenger" while giving the
original spewer of vulgarity a free pass. A little of the old

Looks like I fell for it. Cuhulin SWORE those shots were taken in the Ace's back yard. His little doggie, Dingleberry, had a FEAST after the pictures were taken.

Based on actually working with 40 or so HD stations, the current HD signal, on AM, covers to at least the same usable and used coverage area the analog signal reaches, sometimes more. On FM, it also reaches the same area where nearly all actual listening happens.

I guess the dynamic range needs to be at least 140 dB [to match human
ear's loudness perception] and bandwidth at least 40 KHz [to match
human's pitch perception].

I am not sure about the input impedance or noise figure.

What, you mean the Halle Berry who's got three movies coming out in the next year, who's won the Oscar for best actress, who's been a Bond Girl, made People's list of 50 Most Beautiful People, and has an advertising contract with Revlon? That Halle Berry? Yeah, her career has really gone nowhere.

*** Welcome to rec.radio.info! ***

Welcome to rec.radio.info, a group that aims to provide a noise-free source of information and news for the entire rec.radio hierarchy.

Two introductory articles about rec.radio.info are posted to the group every month. You are now reading the first article, which explains what rec.radio.info is, and answers some Frequently Asked Questions. The second article is titled Posting Guidelines, and you only need to read it if you want to submit an article to rec.radio.info.

You can skip to the next section of this article by searching for the next
" -- " string. The sections available are:
- What is the purpose of rec.radio.info?
- Why are messages almost always cross posted to rec.radio.info?
- What is a 'follow-up', and what does 'moderated' mean?
- OK, so now I know what 'moderated' means. Tell me more.
- What type of material is considered inappropriate?
- I do not have access to news, how can I get the information posted to rec.radio.info?
- Will the material appearing in rec.radio.info be archived somewhere?
- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

-- What is the purpose of rec.radio.info?

The purpose or charter of rec.radio.info is to provide the Usenet community with a resource for information, news, and facts about any and all things radio.

All the other rec.radio groups are intended for discussions and general chit chat about radio. Rec.radio.info will contain informational, factual articles only. Follow-ups are redirected to an appropriate other group, and further discussion (if any) will not take place in rec.radio.info.

In order to ensure that rec.radio.info contains only appropriate articles, it was decided to create the group as a moderated newsgroup.

-- Why are messages almost always cross posted to rec.radio.info?

It provides a "tag" for each article to be assembled into a filtered presentation in rec.radio.info (even with cross-posting, only one message, with a unique Message-ID, is propagated across the net). This tag also facilitates a pre-existing method of dropping or canceling the articles locally within the discussion groups if you don't want to see them. This accommodates individuals who want to separate the bulletins from the discussions, discussions from the bulletins, as well as those who are adamant about not reading another newsgroup and wanted to see everything all in one basket.

With the total size of Usenet (in number of newsgroups and total traffic) doubling every year or so, this is no insignificant contribution to reducing information noise and chaos. Making the discussion groups a catch-all, and making extra newsgroups filters on that catch-all, is also the most realistic way to implement such a scheme (It's not intuitively obvious what the charter, contents, and general appropriate topics for each and every newsgroup are. Seeing FAQ's and charter/intro postings in the home newsgroup is beneficial for new readers).

By cross-posting one only is adding a few tens of bytes to each bulletin (to specify the extra group on the Newsgroups line), but are adding the capability for very powerful filtering features available on most news servers, listservers and readers. Your local news guru could probably explain these features in more detail.

In rn, for example, according to Leanne Phillips in her rn kill-file FAQ, add a line of the form:

/Newsgroups:.*[,]rec\.radio\.info/h:j

either in ~/News/KILL (if you don't want to see rec.radio.info articles anywhere) or ~/News/rec/radio/amateur/misc/KILL (if you don't want to see them just in rec.radio.amateur.misc). The latter method means your kill file will only be consulted during rec.radio.amateur.misc (and hence runs more efficiently), and will probably work for most people.

In nn, according to Bill Wohler in his nn FAQ, add a line of the form:

rec.radio.info:!s/:^

in ~/.nn/kill (if you don't want to see rec.radio.info articles anywhere), or put the following lines:

sequence
rec.radio.info
rec.radio.

at the end of ~/.nn/init in order to see all the rec.radio.info bulletins first, then read the remaining rec.radio.* without the bulletins.

-- What is a 'follow-up', and what does 'moderated' mean?

If you are new to Usenet and are not familiar with the terminology, you might want to read the general introductory articles found in the newsgroup news.announce.newusers. Doing so will make your life on the net much easier, and will probably save you from making silly beginner's mistakes.

If you think that at this moment you are reading an echo, a conference, or a bulletin board, I'd also strongly suggest a trip over to news.announce.newusers.

For the rest of this article, we will assume you have a basic knowledge of Usenet terminology and mechanics.

A moderated group means that any article that needs to be posted to the group has to be accepted by the moderator of the group. Since we need to ensure that followups to an article (discussion) do not show up in the rec.radio.info newsgroup, the `Followup-To:' header line contains a newsgroup that is appropriate for discussions about the specific article.

-- OK, so now I know what 'moderated' means. Tell me more.

Rec.radio.info is a moderated newsgroup, which means that all articles submitted to the group will have to be approved by the moderator first.

The current moderator of the group is the rec.radio.amateur.moderated Moderation Team. Submissions to rec.radio.info can be posted, or e-mailed to:

rec-radio-info@panix.com

Comments, criticisms, suggestions or questions about the group can be e-mailed to:

rec-radio-info-request@panix.com

But before you do so, please be sure to check out the "Posting Guidelines" article.

The influence of the moderator should be minimal and of an administrative nature, consisting chiefly of weeding out obviously inappropriate articles, while making sure correct headers etc. are used for the appropriate ones.

-- What type of material is considered inappropriate?

There are three broad categories of articles which will be rejected by the moderator:

1) Requests for information: rec.radio.info is strictly a one-way street. We receive information in our mailbox; we then post it to rec.radio.info. Requests for specific information belong in the normal discussion newsgroups. If your request gets answered, you might consider passing the answer on to rec.radio.info, though. Especially if you can edit it into a informational, rather than a discussion, format.

2) Obvious discussion articles, or articles that appear unsubstantiated.

3) Commercial stuff: a relatively unbiased test of a radio product would be accepted, but any hint of for-profit might be reason for rejection. For three reasons: This is not the purpose of the list, for-profit is a controversial topic, and this list may be passed onto Amateur Packet Radio (where for-profit is prohibited except under certain provisos).

rec.radio.swap may be more deserving of the posting in any matter.

Similarly, copyrighted material generally cannot be used. If it's TRULY worthwhile to the net, We would recommend obtaining permission from the copyright holder. Please note the source, and if permission was given. We reserve the right to make the final decision concerning appropriateness in all situations. In most cases, a brief summary of, or pointer to, the copyrighted information may be all we can allow.

-- I do not have access to news, how can I get the information posted to rec.radio.info?

Google has an excellent web interface to Usenet newsgroups. It is available at:

http://groups.google.com

It supports both reading and posting.

-- Will the material appearing in rec.radio.info be archived somewhere?

Yes. See Google Groups above.

Effectively this means that anything you post to rec.radio.info will be permanently stored, so your work will not be lost.

-- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as time critical.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires co-operation and goodwill to be beneficial to the community in the rec.radio hierarchy.

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

*** rec.radio.info - Posting Guidelines and Etiquette ***

Two introductory articles about rec.radio.info are posted to this group and to rec.answers/news.answers every month. You are now reading the second article, which explains how to submit something to rec.radio.info, and which answers some Frequently Asked Questions about the submission process. The first article is titled "Welcome to rec.radio.info", and it might be a good idea to check it out as well.

-- How do I submit something to rec.radio.info?

Two possibilities. You can use your newsreading software to just post the article to rec.radio.info, as you would do with any other newsgroup. The difference is that the software recognizes the special status of rec.radio.info as a moderated group, and will e-mail your article to us, the moderation team, instead of posting it to the group.

Alternatively, you can mail your article directly to us at the following address:

rec-radio-info@panix.com

Mailing us directly is probably (a wee bit) faster, but using the transparency offered by the newsreading software is probably more convenient.

If you have any questions, or wish to deal with some administrivia with the moderation team, we suggest mailing to the following address:

rec-radio-info-request@panix.com

-- How soon will I see my article appear?

It depends on how busy we are. Your article reaches us as mail, we have to read it first, give it the stamp of approval, and finally send it on to the group. We will attempt to read and decide on all submissions within 72 hours at the very least, though we will probably be able to process submissions much faster in actual practice.

The site from which we moderate this newsgroup, "Public Access Internet and Unix, NYC" (Panix), is directly connected to the Internet, and

articles posted at that site should appear at most major news sites, including Google Groups, the same day. The principal delay, therefore, will be the wait in the moderator's submission queue.

If you post a periodic article, and have shown to be trustworthy, we may allow you to post directly if the article is of a timely nature. See the section below on direct posting.

-- Should my article be in a specific format?

No. If it is not totally illegible, we will accept it, and if it does not have a correct subject-line we will correct it with your permission -- that's what a moderator is for.

However.

You could do us a big favor by making sure your article conforms to these simple requirements:

1) The article must present information, not discussion or requests, We will reject the article or require you to change the wording if it is worth it.
2) A good, descriptive Subject line.
3) Always mention what source you got the information from.
4) Don't forget to include a Followup-To header, at least if you don't want further discussion to automatically be forwarded to you, the poster, which is the default if the article is only posted to rec.radio.info.

As we said: if your article is appropriate we will post it even if you don't follow these guidelines, but then don't blame us for not processing it immediately. 'Perfect' articles we can send on with a couple of keystrokes. Stuff that needs minor editing is going to have to wait until we have time to do so.

Please do not waste both our and your time by posting requests, as this is an information only news group.

-- What about crossposting?

If you send something to rec.radio.info, just name any group you'd like to cross-post to in the Newsgroups field. Then, when we approve the article for rec.radio.info it will get automatically cross-posted to any other groups mentioned. This will also override the default Followup-To: poster, replacing it with the groups you cross posted to.

We would prefer if the group be cross-posted to the various discussion groups in the rec.radio.* hierarchy that are appropriate:

rec.radio.amateur.misc Amateur (ham) radio and related matters
rec.radio.amateur.packet Amateur Packet Radio discussions
rec.radio.amateur.policy Amateur Radio practices, rules, etc.
rec.radio.noncomm Non commercial radio discussions
rec.radio.shortwave International broadcasting on the 'HF' bands

rec.radio.cb Citizens Band (27 MHz) discussion
rec.radio.scanner Scanner discussions (unsupported group)

or in one of the moderated groups:

rec.radio.amateur.moderated Amateur radio practices, rules, etc.
rec.radio.broadcasting Discussion of *domestic* radio broadcasting

We will leave it up to the poster to decide which group(s) are appropriate, but reserve the right to add groups if we feel it has broader interest. We will consult with the poster first.

Notes on crossposting:

- rec.radio.broadcasting is also a moderated group. The rec.radio.broadcasting moderator prefers to review all articles himself before posting. Placing rec.radio.broadcasting before rec.radio.info on the Newsgroups line should accomplish this. We will typically abide by the rec.radio.broadcasting moderator's decision whether the article is appropriate for rec.radio.info.

- rec.radio.amateur.moderated is also a moderated group. As the rec.radio.amateur.moderated Moderation Team manages both rec.radio.amateur.moderated and rec.radio.info, we can manage crossposting and approvals for both newsgroups. The rec.radio.amateur.moderated group does not allow crossposting to other discussion newsgroups, whether moderated or unmoderated. However, we would like to manage rec.radio.info as consistently as possible with how it was done by previous moderators, including the grandfathering of existing regular postings. Therefore, the submitter can choose rec.radio.amateur.moderated or the other unmoderated rec.radio.amateur.* discussion newsgroups for crossposting, but not both.

- Any FAQ or informational posting approved by the rec.answers/news.answers moderation team that is also crossposted to any rec.radio.* newsgroup (besides just rec.radio.info) is also automatically pre-approved for rec.radio.info. See below for more information.

If you post to another moderated group, it may be better to make special arrangements with both moderators before posting by contacting us at our administrivia addresses.

In addition, cross-posts do not take up extra space; modern newsreaders can be configured to show you cross-posted articles only once anyway; not everybody reads rec.radio.info; and rec.radio.info was never meant to reduce the volume of the regular discussion newsgroups. But keep in mind that some of the mail gateways may filter out the informational postings (at request of the subscribers) to keep the load down.

You decide.

-- I have a regular posting with timely information, can I make arrangements to help speed up delivery by posting directly from my site?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as timely.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires cooperation and good will to be beneficial to the community in the rec.radio.* hierarchy.

If you are currently maintaining (or plan to maintain) a radio-related periodic information posting, you may wish to consider crossposting it to rec.answers/news.answers. Postings that are approved by the rec.answers/news.answers moderators for this treatment are automatically pre-approved for crossposting to rec.radio.info (as the news.answers requirements are far more rigorous than the requirements this newsgroup ever plans to use). For more information about this option, consult the appropriate information articles and posting guidelines in rec.answers/news.answers.

Realize also, that even if your post is not approved for rec.answers/news.answers, it can still be approved for rec.radio.info. The intention is not so much to get every last bit of radio-related information on rec.answers/news.answers, but rather to provide an alternative avenue of approval (as well as grandfather existing maintainers of radio-related information and spare them additional bureaucratic hurdles). Again, crossposting to either rec.radio.info or rec.answers/news.answers, both, or neither, is at the discretion of the poster (subject to the approval of the moderators). You decide what is most appropriate for your article.

Please remember that as an information maintainer, you are not alone. There are many others on the net who maintain and post periodic information postings, using various intermediate-to-advanced features of Usenet (usually via automated tools). Various degrees of technical support and general hand-holding are available from many Usenet veterans. Send us some E-mail describing your needs to our administrative address below, and we'll try to help, or at least refer you to the right knowledgeable individual(s).

-- And Follow-ups?

If the only newsgroup you have specified is rec.radio.info, then the Followup-To: field will always be set to poster. If you do not want this, you must supply a Followup-To line of your own, and we will honor that one, as long as it is a subset of the original Newsgroups line.

If you specify newsgroups to cross-post to, then the Followup-To field will be set to include all the cross-posted groups, excepting rec.radio.info itself. Again, if you do not wish this behavior, supply your own Followup-To line.

We maintain other standards on the various RFC-1036 (news transport) header lines. For example, if the article is appropriate for passing into the Packet Radio Information Network, we encapsulate the Packet Bulletin Identifier (BID) in the Message-ID: news header line indicating the machine of origin as the ampr.org domain:

Message-ID: <$opa.55.1994@ampr.org>

where the Packet Radio BID, in this example, is `$OPA.55', and it was posted in the year 1994, because some of the Bid numbers are cycled yearly. Hopefully, this can be used as a key to re-introduce the articles for the Packet Radio network. Also, if the article is a repost of an already existing information article in the rec.radio heirarchy, we ensure that the References: header line is linked to that previously posted article. This also helps to tag articles, and may be used for additional filtering if needed.

Since the articles are archived, please use the Summary and Keywords header lines to help one search for your article.

-- Why have I received no reply from you?

We never reject anything in silence, and we make a point of it to answer all our mail. However, E-mail, like a brain cell, can and does get lost, every now and again.

So, if you send us something, and you don't see it appear it rec.radio.info, and you still have not heard from us in reply after say, five days, you can be pretty sure that either your mail never reached us, or that our answer has never reached you. In that case, please try again (We will filter out duplicates).

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

DE - So your Answer to Rural Folks is let them
Listen to XM or Sirius Satellite Radio for High
Quality Digital Sound. ~ RHF

IMHO - A 1 KW Analog AM/MW Radio Station
which is only putting out a 10 Watt Digital (1%)
Signal is wasting the time going Digital.

That goes for a 5 KW Analog AM/MW Radio Station
which is only putting out a 50 Watt Digital (1%)
Signal is wasting the time going Digital.

That goes for a 15 KW Analog AM/MW Radio Station
which is only putting out a 150 Watt Digital (1%)
Signal is wasting the time going Digital.

That goes for a 50 KW Analog AM/MW Radio Station
which is only putting out a 500 Watt Digital (1%)
Signal is wasting the time going Digital.

TV with it's finite end to Analog Broadcasting
should be a clear example of what "HD" Radio
has to do to force the Transition from Analog

to Digital.

There you go again saying that only those inside your precious city grade
contours count as listeners. Probably 40-50 million people in the US would
beg to differ.

LOL ! If the FCC tried to force all-digital, there would be anti-
trust lawsuits against the FCC and iBiquity, plus consumers have zero
interest in HD Radio, so no one would be listening:

I just got confirmation that the final version will cover 530-1700Khz
for AM band, which makes it universal for either US or Europe. My copy
is an engineering version for test purpose so it is only to 1600Khz
for the Chinese coverage.

I've tried searching a dream.zip ...

it works.

I've tried it with a sw radio, no drm, I do not know how one can receive drm with eg a Sony 2001D, and no drm module, but it seems possible ...

Again, the HD signal is digital. There is no 1:1 power comparison. Much lower powers are effective in digital.

First, we are talking about AM, which now has, nationally, only about 19% of radio listening. Second, most of that percentage is in upper end demos, as under age 45, listenership is very small.

What we have is a band that has serious issues about survival.

In big cities, small cities and rural areas, there is very little use of AM outside the very strong signal contours.

In fact, the national coverage by FM is far more dense than the AM coverage. If HD can help AM survive, it is a fair tradeoff.

That is just not so... usable coverage is about the same for analog and
digital.

Dana! Dana! Dana! I see you are still here pitching for the White
Supremacists.

I run into a lot of Caucasians idiots online, but what you said five
or years ago about how you spend your time helping the abused children
is something I will never forget. :-)

I tried to explain to you that child abuse is a bad thing, but nothing
compared to the 35,000,000 black people who are daily abused because
of their skin color. Remember? I also told you about the black coach
who was gunned down by White supremacists while walking his child near
his home

I'm not sure you ever understood what I was saying, but I certainly
understand you.

Apparently you didn't hear Halle's speech when she accepted the Oscar,
and you probably haven't been reading articles where she talks about
how she has been called a "GG" many time by White people. She also
talks about how despite her beauty and light skin she has been held
back by her color.

I guess you didn't watch the Oprah and Gail road trip last summer.
Oprah walked into a bar in Colorado where some White trash redneck

asked her "You aren't with that Oprah Winfrey Niggers road crew are you?"

Both of those women are wealthy, but that doesn't stop the pain they feel when they are marginalized like that by White people. You can be a PhD, drive two new Mercedes Benz, live in a ten million dollar home, be crime free, and drug free, but to most Caucasoid's, we are still just "Niggers"

I wish I could darken the skin of people like you and make you live with the same intelligence you have now, and the same financial means, as a Black person for a year.

If you survived, which I'm sure about half of you wouldn't, you would never look at White people the same way again.

Go checkout

Soul sister-Grace Halsell

This is a high class White woman who had the nerve to darken her skin and go live in the south. She was President john sons press secretary. It nearly killed her.

Also read
Black like me- John Griffin

He was a bold White man who was the first to darken his skin and go south. It did kill him dead!

Until you and those White Supremacists who think as you do, have actually walked in the shoes of Black people, all your ranting and raving counts for naught. You simply cannot understand.

Just like I cannot understand what it is like to be a woman. The difference between me and the savages like you is that you rarely see me trying to tell women what it is like to be female. You don't see me challenging the things they say they feel and suffer at the hands of White men on the job, or ff of it.

However, ignorant, racist White people just can't wait to attack and try to discredit everything Black people say we feel as Black men and women. Once you do that, no matter how nice you think you are being to Black people, we know that you don't respect us, or our glorious culture and history. We then walk very carefully around you. It is obvious that you are a snake...and snakes bite.

You have been online for years Dana, you should know how by now to present links that support the ideas that you have; like I usually do.

If you don't then you are just giving us your OPINION, and everybody is entitled to their opinion, but they are not entitled to having their own PERSONAL FACTS which differ from what the experts are saying. You come across as a blithering idiot when you do that.

So step up to the plate with facts OK Dana?

I am working in a private organization, we use Radios to in touch with the vehicles we have. The problem our antenna does not cover the area we require. Does is due to Sun as our country gets lots of shine or can it be due to the system we installed to prevent from Lightnings? Recently we added 2 more towers to support the main tower, but earlier we could able to cover 60% and now only 40%. Each saying different reasons. Does Sun spot cycle in not favorable to us presently? what can we do to overcome our problems?

So much for that bright idea .nothing yet ....

.. the 12khz talked about , is that the center frequency of the
translate audio spectrum ???

so your supposed to present 0 to 20 / 24 khz to the sound card ????
and 12khz is 'the dial frequency' ???

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American

Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanicly lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta. George Norry is a traitor to the FBI, who further plans more to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Live free by defending liberty by killing pro lawless pro torture pro fascist bushite enemies my friend, live free by defending Yourself and GOD.

/ / The U.S. State Department recently issued a report calling Sudan a "strong partner in the war on terror." \ \

The high jacking Bush regime is supporting financially a TYRANNICAL 'government' that openly practices Genocide, as just the sort of "American" partner to assist in determining which further murder victims are terrorists. While the same demon administration confesses to FUNDING middle eastern al-Qeada to commit TERRORIST acts in Iran, as demon evil tyranny against the sleeping Sheeple. Again, it is fully confessed that the Satanic bushmob is pro terror now. Death to the enemies of Freedom, death to the bushite betrayers of Life instead of YOU my innocent friends. Instead of US.

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. "The Liar" Hannity's America, can go it alone as treasonous liars, who boastcast a con to 'neutralize' America; 'finding' that we believe their demon lies about how one dies sacrificed 'Heroic' without any IMPORTANT questions answered. do we do?

To Kill a Bushite, is to be Heroic

To further murder as these ungodly bushite liars do today as our suffering Mankind, is to blindly swear public allegiance to the for real DEMONIC antichrist THIEVES. Bushite enemies

are evil nazi dumfuk scum, liars who cowardly watch America in her weakness be high jacked, and squeak nothing for Just words in our REAL defense for dying. Play pretending their actually real men, because to really be so, requires real strength. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. So, let's get done what needs to be a doing to save ourselves, so we can get this talking all behind us now, and reach for something truly breath taking as awarding,

Your Servant,

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly. We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt. Bushite tyranny is a dead end road paved with missed opportunity. change your evil ways in other words, and join the living side that's light to know what we are, in deed, looking at here under the dying spoils of bushite, "we pay" misfortune. To hell with Satanic demon devil worship by the President of the United States, We, the People answer, for now anyway, we have some really serious business just presently, and we really don't need to be any more reminded about Mr. Bush's satanic Devil, demon whoreship, of, "Molech", a religion practiced to deceive America into sacrificing our kids for cash with YOUR blood.... Tricked. Tricked. Tricked.

Nationless bushites who blindly war Life as the neocon

In Hell

Firstly, the White house doctored the NIE in an act of HIGH

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. The fittest Ideas that rule this Universe, are the simplest, most easy to

understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Bushite War LIFE Itself - and - They Couldn't Care Less

'Alpha company patrols the poppy fields.'
20070420_taliban28.mp3 (pbs broadcast)

"About the poppy harvest, currently gathering pace all around them, they couldn't care less." Instead they kill unarmed innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide distribution and production of heroin, tells of murdering innocent farmers, that would never raise a gun in anger, are those they openly confess to target for first degree murder as labeled the, second tier Taliban. That's when not defending American Pension thiever ENRON'S pipeline managed under their extremist Muslim fundamentalist regime of intolerance for public communications, as the continuing thieving of 80 percent the Humanitarian Aid given by Canada to feed the STARVING, and school our children of the impoverished Afghanistan, as so reported. Eighty percent. 80. 80 percent stolen. I'm telling YOU: CBC couldn't care less about what Canadian soldiers are actually dying as COWARDS for: "Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime" CBC national radio management needs to be arrested in Canada for high TREASON. Please, be a Patriot, and demand these zionists allow open communication with the facts to save the lives of Canadians soldiers they hold in contempt to die as the bad guys committed to no better good.

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all

done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

Israel Knesset member Talab al-Sanai "It took Israel 37 years to develop and perfect these barbaric methods of repression and humiliation," al-Sanai observed. "Surprisingly, the Americans surpassed and outmatched the Israelis in their [Zionist] savagery in less than two years."

War and the Police State: Complicity of the American People

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son

of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

Loyal bushie McCain as bona-fide nazi savage "Bomb bomb bomb Iran.."

Reporter 'Mr. McCain, you demon liar nazi fu-ker, don't you think your being insensitive to innocent god loving Iranians?'

Pro-Torture of INNOCENT PEOPLE McCain "Insensitive to what? The Iranians? My response is lighten up and get a life."

PRO-TORTURE Gonzales "I quite frankly don't like the idea of the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who should or should not be asked to resign." [in mid-term]

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of

godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously
kill this lawless bushite enemy and his demonic ilk, for our
love of girls everywhere? Or, how about the UNARRESTED
soldiers we witnessed on video beat shoeless children
pratically to death while laughing and cheering? Or like
those that speak zero defenses for Haditha's confessed MASS
MURDERING irrational women and child killers? The REAL demons
CONFESS to going into a house, WITHOUT reasoned approach, and
slaughtering an entire INNOCENT family.. for nothing but
their lifeless SATANIC pleasures. The 'cause'? "The [mass
murdered unarmed innocent neighbor's] back door was open.."
To, for God, gloriously, with love, kill these unarrested
murderous continuing ungodly bushite nazis, is to war the TRUE
enemies of Humanity to save the lives of our precious loved
ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America..

The Pentagon's Power to Jail Americans Indefinitely

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending

with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / Timothy Griffin, Karl Rove's assistant, the President's pick as US Attorney for the Eastern District of Arkansas. Griffin, according to BBC Television, was the hidden hand behind a scheme to wipe out the voting rights of 70,000 citizens prior to the 2004 election. \ \ Timothy needs to be arrested for high treason, for fixing an election, or instead, what? we'll make him a State US Attorney in bushville?

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

The Iraqi "Government" has arrested the woman raped by three Iraqi policemen

/ / Janabi shocked Iraq last month when she appeared on Al-Jazeera television and accused three policemen of detaining her and then raping her in their garrison.

Her story earned a fiery rebuttal from the Shia Prime Minister, who praised the policemen and promised to promote them. His office released a medical report allegedly taken from a US military combat hospital that said the woman had been beaten [..] \ \

US officer "upset" Iraqi suspects taken alive, court hears
http://www.telegraph.co.uk/news/main.jhtml?xml=/news/2007/03/14/wsoldier114.xml

/ / A US military officer sounded "pretty mad and upset" that
a group of soldiers had taken suspected Iraqi insurgents alive
during a raid in which they had been told to kill all military-aged
males, a court was told Tuesday. \ \

Come on now, who wouldn't take great joy in destroying any and
all such ungodly bushite hatred for Humanity in this light of
day, eh? In fact,why don't American Congessmen, who believe
in defending Liberty, campaign JUST that? Why not??? Is it
because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams,
George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'
of the bushmob for 911. I would like to form a global posse
of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our
highest of priority issues, and get started with the nothing
to hide from anyone global arrests, with PUBLIC court
proceedings, done all for our public interest as the refusing
to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating

bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially
deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my

audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest
of those who told America the victim committed suicide, when

clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press
a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Fact 7: This vaccine has purportedly been shown to protect against four types of HPV--6, 11, 16, and 18--while there are

Don't let these neocon zionist bastards do this to US.

Bushwhore Tony Snow "[...]We konw[...]"

General Pace "[..]WE DON'T HAVE PROOF[...]"

Senator Hagel "..we're decimating our National Guard."

Again, commander Blount, a Saudi, from the third infantry, gave out 170 TONS of plastic explosives from Qaqaa to kill Marines with. And, "American Patriots" don't rightly bill the true demon nazi fuker for it. Again, Blount, a Saudi, confesses to ordering SOULLESS bushite soldiers to murder People indiscriminately for profit, all so to let US know he is there still laughing with our stolen billions. Bill the bushite Bush bitch Blount, a Satanic demon ENEMY for it.. why don't you? as the snookered to sacrifice your loved Family Guy, American Dad? Corporate TV News people are part of a death cult that doesn't rely US on evidence for proof they say we believe them unbiasedly without question. While forbidding ourselves to hear OUR calls for real Justice.

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt. The Coast to Coast Network staff must be taken back by Americans, to allow free open communications unruled by traitors. Or, go willingly further silent on the forbidden FACT that General Ahmad funded 911's Atta. The FACT we have video footage of melted steel flowing like water out of of the WTC towers, and, video footage of supporting beams cut by demolition thermite in the raised basement. The FACT that WTC7 was pulled according to many in the rescue effort who were advised to move back, cause the building was coming down shortly by explosives. while, the bushite billionaire zionist owner, M. SLVSTIN later then said no we didn't instead. Why is that significant in our shared reality? Well, who personally then let set the explosives in Building Seven for the bushmob to get blown into Afghanistan for American pension thieving Enron? Do do do do do do do, do do do do do. do do do do do do..

The riddler,

Support Johnny's run for acknowledgement, and get US in the News why don't You. Let me be king for a day my American Kin. Make me a rich, near to dwell, well to do.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished.

That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the

IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really

something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

CONTACT

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist

action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Die bushite die.

Please, I beg, help Iraqis, and kill the bushite thieves to defend our forsaken God. American children, help me my loves. Please don't allow the bushmob to escape for the treasons against America on 911, for, bushites are OPENLY traitors, as the TRUE enemies of evidenced Justice, as the Freedom to do our own things loving God on our own. Bushites need to be hunted down for destruction - by the Loyal Christian American Patriot Soldier, the ones who war to win against those who torture US innocent to death as the ungodly Satanic LIAR enemies. McCain is insane

/ / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. McCain knows he is an enemy to God's children everywhere. McCain speaks NOTHING to demand the

execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED. So, where are the North American multi-million dollar "Exploitation Units" to defend our King's children from TRAITOR pro-torture of US as the INNOCENT McCain there then eh? Units who he holds hiding behind himself somewhere in high blind praise as a rich group of child lovers I SAY??? (Is a heroin pushing bushite THIEF that supports the 'escape' of the bushmob with indiscriminate bombings in Iraq or Afghanistan, Lebanon, Haiti or Somalia, even capable.! of real human Love I torturingly ask dauh gangsta rappah? buddies where are You there in the stomach of the Beast celebrating?) McCain is a demon enemy of Life ourselves to promote the arrest of all the goodness that beauty brings in the heavenly art of our clothed teens. If it weren't for Earth Women, God's boy, Johnny Wizard, wouldn't even be here to bother. It's the reason I first picked up a guitar, it's the reason I did my early plays, then monster movies, and it's the reason I praise the orchestra of the Heavens in Dream, and well.. it's just the reason for everything. I speculate sometimes perhaps slyly that G was kinda lonely all by ourselves for zillions of years, whom, for entertainment, loved us up on the entranced exit starting - before a beginning without ending, yet, as outer there, is still the insider here, forever being we sorta, and gave us this foolish boy for the mental gymnastics. All in good fun. Rocking on to leave all as Mystery, never realized forever and a day in Eternity. You are a Servant, as so I am. Quite a place eh kid? So as it looks now presently, we're here still barely hanging on striving to survive against Mr. Bush's continuing unfair irrational tyrannies of clear injustices committed in Your Name against our Humanity, or, end ourselves dying without true representation, left falling further forsaken. [Home is home sweet home as in Chicago, as we always was going to with or without our loves heaven bound. For I'm starting a journey back to where I belong, where the food is good, the music's great, and life is truly worth living as miraculous.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Division is Illusion to a concept incapable of conception, because of our understandable impossibility to think such things that demand to have no mass included I suppose nowhere. Very strange stuff we can be considered as.. but guess what? Every mark is off the mark. It's totally crazy, but you move on to find Life to see/be how things are, and when you cross over, you find us all suffering much needlessly in blind sorrows due in failures to simply communicate our findings.

So, that's who I am. I'm born a simple man with a plan to save my broken dreams, and also exist unknowingly everywhere, all ways, forever... even beyond death.. just like you funny Atheist sparks of quantum energies are also, theoretically I should say in reflection. What proof could I bring you that would suffice you believing you have a responsibility to protect our dying selves too? Don't forsake me, by forsaking yourself in doing. Mister Bush committed 911 with his partner Ahmad, and we together, somehow, must fight back to defend ourselves DYING by demanding George W. Bush's immediate arrest, along with the others implicated from his Administration of Evil for the neocons treason of 911. Then, we'll work on us through there for further unseen treasuries! Keep the faith my friends, you all can now do this without my support whatsoever. So, get to it... for, I'll probably be watching from my cell if I'm imprisoned soon fraudulently from your fear to defend US now, further falling innocent victims by the will of no one.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly

mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

We all know Iran has been trying to help Iraqis openly, so then, what does such willful contempt for your life grant this 'spokesman'? Or, how about when Bush stated Iranians in Iraq deserved to be murdered? (Later, the demon re-worded himself in attempt to conceal HIS true evil identity.)

Remember the Bathists actually warred to kill and won against al-CIA-duh forces that were caught hiding in Kurdish territory. Killed "bin Laden"/bushite forces! Now, bushite tell US Sunni is in kahoots with Laden. (In otherwords, Kill a cowardly enemy of Life bushite for America to defend Iraqis as a godly act.) Death to the bushite, death to our enemies.

Great words from the lawyer of the thieving bushite child killers of

Just obeying lawless orders to thieve from Humanity as bushite for neocon zionist traitors of G-D doesn't fly in the big book. Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

Again, a Patriot Soldier whos only crime is that he refuses to commit a crime in Your name. Do something about it.

George Norry and Art Bell are enemies of American chances for survival of our dying teens. Their contempt for Justice in America is blatantly EVIL, and worth killing before they do another dumfuk, they hate US, zionist demon broadcast. Traitors to God and Country George Norry and Art Bell are. They'll laugh, sing, and cheer while KILLING your CENSORED forsaken Son or Daughter, needlessly trapped sacrificing with the ungodly 'lawless' bushite zionist enemies, all before allowing any REAL Americans to SIMPLY discuss evidence as a requirement to convince ourselves of something. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta. Just the way TRAITOR George Norry DEMANDS it. For, truly there is no defense for 'lawless' bushite, but by an ungodly tyrannical censorship. Because YOU fear me, or refuse to demand Justice truly, You'll DIE as bushite victim, but Norry and Bell plan to live on 'escaping' as multi-millionaires, broadcasting on to further destroying freedom for others to 'cash in' with Your worthless forsaken soul. Now, I'm the Son of Man who can only do so much. If you won't speak for our dying freedoms, what do you expect me, or an all powerful G to do even? No... Really? What? I could ask all Universal species to assist US here on earth by hunting to kill bushite everywhere, but chances of 'them' getting here in time listening, seems rather unlikely. But who knows..

Death to the murderous bushite, death to our enemies, so says Johnny.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for

murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". snpd

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for

indiscriminate killing of our families and friends while
parading it's all done in bush's name for our freedom,
or for 9/11, doesn't fool me, and should get you
thinking about reaching for your guns too, for bushite
rapists and torturers will not walk this world freely
un-accountable, for as long as we remain alive to hunt
them down and kill them if so be. As the soulless
disciples of the enemy anti-Christ, Our Mr. bush Jr.,
their "officially" granted legal immunity from all
prosecution means nothing to me as a honorable man
defending my humanity, or as living Creator, who brought
all into this new world to be free, and can just as
soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that
he and rumsfeld with condi planned and carried out the
crimes of 9/11 with likely cheney orchestrating, don't
ever forget that part when attempting assessment [snpd]

How The Demon Bush Misled God's World

How Bush misled the world
http://www.theage.com.au/handheld/articles/2004/02/05/1075853996640.html

/ / Once the document was declassified after the war it became
known that it contained 40 caveats - including 15 uses of
"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such

offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Shirley, bin Laden would be sided with the fundamentalist Shiites, before, everyone-is-an-equal Sunnis, who as Bathists, had no problem WARRING al-Qeada, while counting as members of their party, Christians, Jews, Muslims, and Atheists. But corporate bushite liar america says no, bin Laden supports Sunni IRRATIONALLY, and that is why bushites have to sacrifice in partnership with those who blow up PEOPLE indiscriminately as the 'good guy' 'heroes'. Similarly like in Somalia, where bushite forces are working to directly arm those who murdered American GIs during Clinton. Those war criming repuglicons responsible for the bombing need to be tried and executed for committing first degree acts of mass murder in America's name. CBC, in Canada reported that Pentagon sources allege their isn't any evidence whatsoever to what bushite news america has reported to the dumfukked populace. [Peter Lance will tell you [mind you, half assly] on behalf of investigating officers of our LAWS, it was a dishonorable LIAR Green Beret actually, a Green Beret who set the bombs and blew them up to KILL AMERICANS, but says Laden ordered him to it though, so he gets to go free on his own apparently. An individual EVERY AMERICAN should hunt to kill with Americxan Law firmly established already. Why? Zionists murder Americans for profit, by simply lying un-challenged through corporate mind control, and culted soldiers to this day, would thoughtlessly call the ungodly lawless bushite traitors to freedom, 'good guys' and 'heroes'.

Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

Bushite Zionist atheists believe that I, as the Son of Man, Couldn't be anything but their worst nightmare. AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.

authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

BAD,

Clearly this Thread is positive proof that the 'magical'
10mv/m Contour does not serve this Rural Area of the
State of California very well -and- a Blinking Blue Light
says that the Digital Signal is not strong enough to
effectively reach the same areas where an Analog
Signal seems to make it in fairly well - be it AM or FM.

Again a gradual increase in the Digital Signal Level
from one year to the next would have all areas served
and produce a steady transistion from Analog to Digital
as new HD Radio Listeners and Equipment replaces the
old Analog Radio Listeners and Equipment.

* Digital Output Power Level wrt Analog ERP
First Year 1% Digital
Second Year 2% Digital
Third Year 4% Digital
Fourth Year 8% Digital
Fifth Year 16% Digital

* Analog Output Power Level Reduction
Sixth Year -10% Analog
Seventh Year -20% Analog
Eighth Year -30% Analog
Ninth Year -40% Analog
Tenth Year -50% Analog

What HD Radio will do for AM/MW Radio is debatable.

What HD Radio will do for FM Radio can be clearly heard.

imho -de- hd radio needs more power output to serve
the whole country which includes rural areas
-or- will rural areas be forced to pay for XM or Sirius
Satellite Radio to get digital quality sound ? ? ? ~ RHF

DE,

Then start writting the Obituary for AM/MW Radio
in a good part of Rural America right now [.]

-cause- The Digital Noise Level {Background Hash}
from IBOC has made and impact on the Listenability
of several California Central Valley AM/MW Radio
Strations that I could pick-up and hear reasonably well
580 kHz - KMJ and 1530 kHz - KFBK come to mind.

The owners of stations in metro areas don't care about listening outside the metro. They can not make any money from those listeners. On the other hand, if there is a chance to make AM more viable in the future and the only sacrifice is a handful of listeners outside the metro, that mean no income, then the trade is very one-sided. The FCC agrees.

Where are you? If you are not in the metro area of the station, the station really does not care. They do care about surviving, though.

The listening to most metro area radio stations outside the 10 mv/m contour

Considering that the total membership in AM DX clubs over the last decade is

The fact is that whatever you think it is, the reality shows that there is
so little listening outside the 10 mv/m contour of metro AMs as to be
insignificant... and in the annual county by county ratings, we see that
very little AM listening takes place in semi-urban and rural areas outside
the 5 mv/m contour.

So, if we have an even-remote opportunity to revitalize AM, the choice
between taking the chance and not taking it is obvious. AM radio has been
reduced to variants of one format and brokered programming nearly
everywhere, and its audience is older every year.

There is no broadcasting if nobody is listening, and that is the big issue
with AM today... not whether a few people far from a station can listen to

it.

No, not to the business of radio. DXers in the 50's and 60's knew that, and treated stations and the industry with respect, and were rewarded with high verification rates, plus frequent station souvenirs and such. Today, they are antagonists and highly disliked in many stations.

The real issue is that DXers don't contribute to the listening of a local radio station because they are too far away. Isn't that what "DX" means: distance?

Radio stations with decent signals, AM or FM, that cover their market well, frequently get as much as 20% of the population as listeners. Just as an example, 15 stations in Houston reach 9% or more of the population, and the top 4 get to over 15% each.

My "personal business life" is based on serving as many listeners as possible among large arrays of competitors. Some years back, I had a station that got as high as over 60% of all listeners in a market with over 30 radio stations. Hardly "minority" status.

It ain't my reality. It is the industry wide reality of which listeners can
keep you in business, where they are located and even what age group they

You need to down convert the 12 kHz width of the
transmitted signal down to 0 to 12 kHz for input
to your sound card.

It won't work with the receiver in AM mode. An
AM detector destroys a drm signal.

SSB mode would work if the SSB receive bandwidth
were 12 kHz. I've never seen an SSB receiver with
12 kHz bandwidth other than the TenTec RX-320D
or similar SDRs. I don't know about Sony, Degan,
Sangean, etc. receivers but I doubt they can do it.

You might try with whatever SSB bandwidth you
have but I would be surprised if it works.

Most DX'ers don't BELONG to clubs. Most of us sit in our own homes or cars and listen to distant stations for fun, or, simply listen to a station we're not supposed to (out of your precious contours) because we LIKE it. It may come as a suprise to you, but most dog owners don't belong to the AKC, either.

Actually, it's the dogs themselves that the AKC registers.

In any case, the reality of your argument is simple; "I don't care if AM
radio dies as long as I can listen a while more to stations that were not
even licensed to serve me."

Again, stations are licensed to serve the PUBLIC. I am part of the PUBLIC, as are all those millions of others that you so easily dismiss. Or does the term 'freedom of choice' not mean anything to you? (not that we have much of that anymore, what with Clear Channel, Entercom, etc. running cloned formats coast to coast). What you're saying is that people outside your precious contours have no choice what they can and cannot listen to. If they have only one station in their town (there are a LOT of such places, believe me), or, worse yet, none at all, they are just shit out of luck. Sorry, I ain't ever going to buy into that malarky. When I was growing up, I had to listen to stations perhaps 150 miles or more away if I didn't want to listen to the

farm report or the swap meet of the air or other equally lame (to me, as a teen) programming.

I know I'm just banging my head against the wall here, because you will never see the other side of this issue (and yes, I do see the business side of the issue), but dammit, PEOPLE have to be more important than the almighty dollar, or the entire business ideal is doomed to eventual failure. You serve the PEOPLE. That's the way it's supposed to work. The PUBLIC first.. the advertisers second. If you don't serve the public, the advertisers will eventually go elsewhere because they'll be advertising to nobody.

That's just five minutes of research. It's not the intellect that slows people down, but the desire to do things (or lack of it).

I'm starting to think you have a comprehension problem. You find my posting of:

"Rumour has it that it was of Chinese manufacture"

to be of an offensive nature. Why do accept cuhulin's postings, found below, to be NORMAL? You have NEVER made a comment on just how ignorant they are.

Settle the question once and for all. Do you find cuhulin's posts to be racist trash or not? A simple yes or no answer is all that's required. Try not to give a weasel response, just a yes or no.

Radio, in the US, has always been about the money. Always. Public service has always been an afterthought. Which is why it had to be included in the regulations. And for a good length of time, Radio had to serve two sets of customers. One was the advertisers, who provided the funding for operation. The other was the audience, which supported the advertisers, who in turn, continued to fund the operation.

With deregulation, the limited focus on public service evaporated. And while still considering the audience a valid set of customers, Radio has been allowed to slide into a mode of thinking that permit a 'just enough' mentality...determine what needs to be done to hold an audience of narrow definition, to serve a clientele of advertisers of narrow definition. And do the minimum to achieve the level of revenue necessary to please stockholders.

In a stroke, anyone not in the desired demo/geo/psychographic pocket is orphaned.

The mass appeal radio station, fiercely competitive warfare within a single format, and the huge and varied creative energies on the air that come out of them, are over. Because the suits see no profit in it, when they can make just as much money by doing what they're doing.

Radio isn't a service, anymore. It's a commodity. It's a hamburger. With 5 major flavors. Like Wendy's, Burger King, McShit, White Castle and Sonic. And then there are the minor niche players, like Spangles, In and Out, Checkers, Steak N Shake...

It's rare to find a Billy Goat in Radio, anymore. Or a Ground Round. There's no money in it.

Radio is local. Driven by advertising efficiency. And you get local choices. If you want to hear something not locally available, you have to go there. Just like buying a burger in Wichita...you eat at Spangles. Or McShit. Or Burger King. You don't get a Ground Round, or a Billy Goat. You'd be hard pressed to find a Steak N Shake. In Chicago, you don't get Spangles. Or Sonic.

Sucks to be us, but that's the Radio biz. And the Radio biz doesn't care.

But look on the bright side. Whever there has been complacency, there has been a revolution--something new and unforeseen has come along and swept the public up in a new techology, or a new thinking, or a new way of doing something familiar....and the complacent thinking has to change, or be devoured.

Radio is looking at the day when something out of the blue will strike right at its own heart. And then things will change.

Radio will survive. It may not be in a form we recognize, but it will survive.

And for those of us who are no longer served by Radio...we'll be served by something else.

Being educated gets someone branded as an "elitist"? WOW! This country is in bigger trouble than I thought.

You remind me of the Khmer Rouge and them killing their own citizens because they had marks on their noses from the nose piece on their glasses--which meant that if they had glasses, they could read and if they could read, they were educated and therefore must die.

From URL:
http://en.wikipedia.org/wiki/Plonk

Plonk is a Usenet jargon term for adding a particular poster to one's kill file such that the poster's future postings are completely ignored. It was first used in 1989 and by 1994[citation needed] was a commonly used term on Usenet regarding kill file additions.

The word is an example of onomatopoeia, intended to humorously represent the supposed sound of the user hitting the kill file, like fecal matter dropping into in a toilet. It is also sometimes given as an acronym standing for Please Log Off, Net Kook, though this is likely a backronym. Another used expression is "put lamer on killfile".[1]

It is commonly used as a verb: "I plonked that idiot Tom". As a public repudiation of the plonked poster, it is appended to the end of one's reply (or may constitute the entire reply).

The term's usage later expanded to include the use of e-mail filters that delete incoming messages that meet certain filter criteria set by the receiving user, so block messages from annoying senders. It has also often been figuratively used on BBSes, webboards, blogs, and wikis (which usually do not actually have filters).

We haven't counted since long before IBOC. Truth is, Radio has been disregarding us for decades. At least by degrees. Now, they don't even hear our voice.

David isn't the one who makes these policies, or decides which numbers are to be excluded, he's only telling you what the reality is in the Radio biz. It sucks. And I"m not saying that it's right. Or even that it needs to be that way. Everything that you, and Ace, and Brenda Ann have said are legitimate concerns from the listener's perspective. I'm right there with you.

But the industry just doesn't care. They don't have to. They churn out their sausages, their sausages sell. They take their money and go buy expensive toys. They don't care.

They don't have to.

And like the ever declining level of customer service in every line of business, these days, this thinking is so commonplace and so prevalent, that the public has simply come to accept it as the norm. In some cases, they even accept it as the right way.

Look at Microsoft. And the huge number of people who will defend them and their contemptuous business practices to the last drop of their own blood. They don't care. They're simply too big to need to. So, people who have had it, exit the Microsoft world for Linux. Or Solaris. Or FreeBSD, OpenBSD, and in some cases, UNIX itself. Or the blossoming Mac world. And like Microsoft, Radio is seeing an ever increasing number of dissatisfied listeners who exit to their iPods. Or CD players. Or satellite radio. I put a Peripheral iPod Interface in my car. I may go two, three weeks without tuning in. I have one colleague who took the radio out of his Highlander entirely. We don't listen to the radio when we go to hamfests. He's the one who took my job, when I left CBS.

And we are not alone in our circles.

It's only dinosaurs like us who understand the shortsightedness of the thinking, and the waste of potential that radio reflects, today, and the hazards of limiting communications availability and choice, that care anymore. It's only dinosaurs like us who understand the shortsightedness of putting all of it in the hands of one single company who can make decisions about the entire communications business, exclusively toward profit, with only token resistance from the stewards of the public trust that care the primary focus of the broadcasting companies, today is their stock price. Nothing else is as important.

And we are in short supply.

The business has done its research. And is convinced that what it's doing is the only way. Now, the reality of this research is that questionaires can be designed to produce exactly the desired outcome. I was involved in this kind of directed research at CBS. And I've been involved in focus group sessions that were also subtly directed to a desired outcome. And for a time, they worked. And the station flourished despite the chicanery. But then, again, we didn't have a head-on competitor. When one came along, the shortcomings of the research were apparent in the extreme, and they kicked the shit out of us with minimum wage disc jockeys and the lamest promotion department in the business. But they did what we wouldn't, and the listeners migrated in droves.

They didn't last. Mel Karmazin opened up the treasury and we simply outspent them. And locked up every venue in the region for live concerts. And locked up demographic specific sponsors into exclusivity. Like Survivor, we outspent, out played and out lasted them. And when they were gone, only we remained. Haggard, and battle worn, but literally, within minutes of the announcement that they had spun the Wheel, we were back to our old ways. The corner office didn't care.

It didn't have to.

And most stations, today, are positioned so they don't have to face a head-on competitor.

They can make just as much money doing things the way it's doing them as they can doing things the way that would include us in the service commitment. It's just less expensive and more risky to do things our way. And every analyst on Wall Street will tell you stockholders don't like risk, or expense.

And no advertiser wants to roll the dice with their money on content that may be contrary to its interest. As Howard Stern learned, again, this past week on Sirius.

The hard pill to swallow, here, is that Radio, in the US, has always been about the money. Always. Since the first grain elevator operators built amateur licensed transmitters to report their market prices, programming has only been there to hold listener attention between commercial messages. The public service commitment written into the rules came late. And from the outset was seen as an unfair burden to broadcasters who could make much more money without it. Today, the

public service commitment is barely a token, and Radio is STILL listening to the advertisers...the ones with the money. And everything you hear on the radio is geared to that end. If public service could be made profitable, things would change. But it's not. And in that light, yes, Roy, we don't count.

It's not right. But it is reality.

They don't care. They don't have to.

Even back when stations had a more defined service "obligation" as part of the terms of their license, the FCC was very specific about equating "service" with "community of license" and required service only to the city of license, and, at the licensee's option, surrounding communities within the primary coontours.

In fact, the rules are rather specific for both AM and FM as to what signal contours are protected from interference on the same and adjacent channels. Fringe area reception is guaranteed neither to the station nor to the listener.

The public, for example, for an FM is that within the 54 dbu coverage area. There is no granted right for the station or the listener to be able to hear the station outside that area. And there is no requirement of the licensee to serve any audience even that far out, signal wise. Never has been, and you are trying to make a case based on rare and unusual circumstances.

> Or does the term 'freedom of choice' not mean anything to you? (not that
> we have much of that anymore, what with Clear Channel, Entercom, etc.

Actually, if you do some deeper inspection, you will find that neither of these companies run cloned formats. While they may use the same name for similar formats because of the amazingly difficult challenge of finding new names (due to the Internet's effect on service mark rights), the fact that there are many named "Kiss" or "Star" or "Majic" or "Power" does not mean evey station with the same name has the same format, music or DJs.

As to formats being repeated nationally, you reallly don't think that there wouldm't be a country, and AC, a rock, a CHR station in nearly every market? And that they would play fairly similar music form city to city? In fact, 45 or 50 years ago, there were two or three Top 40 stations in every larger market!

> What you're saying is that people outside your precious contours have no
> choice what they can and cannot listen to.

They have no expectation of hearing, consistently, any station beyond its protected contour. And they never have. The fact that your lot is a bit lower than your neighbor's lot and you have saved water by using their run-off for years does not give you the right to expect that he can not put a drain on his property at some point and capture that water. Same with distant signals. There is no right or expectation under the law and FCC rules that grants a right to DX specific stations without interference.

In another forum, I mentioned this story... which shows that the "when I was growing up" thing is a fable and not relevant today.

In the 60's, the town of Omena, MI, in Leelanau county, population 60, could get two Traverse City AMs in the daytime, and that with difficulty if there were atmospherics. At night, there was no local reception, and one had to depend on WJR, WLS, WBBM and WMAQ... the only consistently receivable signals in the region. Unfortunately, for much of the year, Omena is in an auroral region and reception could be blocked for days on end at night.

So, daytime, when most radio listening is done, there were two choices. At night, there were four, none of which had any service to the local area.

Today, there are 3 AMs with a 5 mv/m day signal and one at night. Not a big change there. But there are 7 FMs with a 70 dbu signal, 8 with a 60 to 69 dbu, and a half-dozen mure between 65 and 69 dbu. In other words, 15 easily receivable, by day and night, FMs and a couple more with signals most radios could get with a bit of effort.

So the idea that rural areas are unserved is bunk. I can repeat this story for Dewey-Humboldt, AZ or Indio, CA or a thousand other rural communities where AM reception in the 50's and 60's was bad, limited and subject to interference by day, and limited to distant, irrelevant non-local stations at night. Now, as in my example, here is a tiny, remote community that has good signals from over a dozen FMs.

No, we do NOT. We serve the people, by the terms of our license, in the communities around our city of licence. We have never had an obligation to serve anyone outside our protected contours, and there has never, even in the toughest regulatory days, a requirement to serve listeners in the weaker

protected contours... just in the immediate community.

And how many advertisers today care if there are people listening beyond the protected contours of a station? NONE is the answer. Without revenue, the audience can not be served.

Where is your data to show that millions of listeners would be lost?
Apparently the stations already know the people you are talking about don't
listen to their stations. If they did, it would show in the survey data.

I agree with nearly all you say about radio being revenue driven with the advertiser first in mind. But I do not agree here. Deregulation did nmany things, but it did not kill the mass appeal radio station.

The mass appeal staiton was killed by the 1967 deadline to stop FM simulcasts. FMs had t invent formats that were generally not duplicated on AM to try to attract listeners. Oldies, AOR, Progressive rock (AOR without listener input), etc. spran up all over the country. Each took a piece of the audience of the Top 40 station.

Soon, country became cooler in the big city, and FMs and AMs adopted the "hick" fomat and were successful, often at the expense of the MOR staiton. And folks who grew up on Top 40 found AC and "chicken rock" (now called Hot AC) to be more suited to their age.

The fact that most markets, in one fell swoop, went from having a half dozen or so viable stations to as many as 20 created a need for fragmenting the leading stations to create niche audiences.

As FM grew from the tiny shares of the late 60's to majority status by 1977 and to the 80% of listening position it has now, we have also seen things like Docket 80-90 adding to the station inventory everywhere... cause for further segmentation.

And all along, those formats, broader or narrower as they may be, had to pass the single most important test of all; did they match an advertiser need? If advertisers did not want a particular product, due to age, ethnicity or image, the station either settled for low billings or changed.

Remember, it was not too long ago that Black staitons generally got perhaps 40% of the revenue that their market share should have commanded... fortunately, advertisers have come closer to recognizing the minority or ethnic markets in the US and are directing advertising towards them.

All these things determined formats, not deregulation.

The only thing deregulation (not to be confused with consolidation) did was remove the burden of running programming that nobody listened to and content (like news on a soft AC station in the noon hours) that the listener did not want. Nobody was ever served if nobody was listening.

Fortunately, the requirements to program to no ears was eliminated.

There are no mass appeal formats any longer. The Akon listener hates Kelly Clarkson. The Waylon listener hates Rascal Flats, the Carpenters listener hates contemporary AC. The Kingsmen listener hates REO Speedwagon. The Boy George listener hates... well, er, ah, lt's try again... the Chapo de Sinaloa listener hates Ramon Ayala. There is no consensus by any large group, as we have been attracted to the subsets we like most.

When I listened to Top 40 before I ever thought I would program it, I realized that of every three songs, i loved one, I accepted one and I hated one. I was too young at the time to realize that Top 40 was really three, maybe four, formats... AC, Pop and rock combined... because there were no AC, Pop and rock stations. Biut as soon as AC and rock and pop split, each took a portion of the listeners. Goodbye mass appeal.

I didn't say, nor mean to imply, that Radio struck the mass appeal
format due to deregulation. Mass appeal went the way of the Studebaker
due, as you correctly pointed out, fragmentation.

My point was that with deregulation, the public service commitment
evaporated, which permitted, again, as you say, "the requirements to
program to no ears" to be elimiated.

Deregulation did a lot of good things. But it also permitted the
baser instincts of far too many to come to dominate in an era when
making money on an Olympic scale was becoming a reachable goal to more
than a handful of robber barons. When the constraints came off, it
became a landrush to see who could build profit where obligation had been.

I'm not convinced, as we've discussed before, that the numbers truly
reflect the listening habits of the population.

We'll have to disagree on where there are 'no ears listening.'

In many markets, Mass Appeal was not music radio. KMOX and WGN come
to mind as non music, mass appeal stations. What Jack Carney, and before
him, Jack Buck, had in St Louis was legendary share. Neither were music
oriented. Nor was Wally Phillips in Chicago. The fragmentation of music
radio doesn't apply, here. At least not directly. But the wider choices
of available stations did splinter off share from these non music
blowtorches, and many of these migrants did go to music radio.

Personally, I enjoyed Top 40. Even as a young broadcaster, I found very little not to my liking. I had my favorites, but rarely heard something I didn't enjoy. Variety was the spice. And I relished it.

I didn't abandon Top 40 until it had succumbed to fragmentation, in itself, and began to narrow it's playlist. Judging by the number of listeners who fled as well, I wasn't alone.

To make up for the loss of the single mass appeal format, I had to tune between several stations on the dial to get my doses of variety. The narrow, vertical formats were exhausting.

Today, if I listen at all, I'll listen to The Drive, or when I can get it, WLS. Other than that...my iPod rules.

Or XM.

And, apparently, there, too, I'm not alone.

Edweenie is very busy trying to change America's music to salsa or something along those lines.

Edweenie never works in America's best interests.

Read again... that is just what I said. When country shed its hick image and stations in large markets picked up the format, it became yet another option and furthered the fragmentation of radio listening.

In 1960, very few larger markets had fulltime country stations. A few had daytimers. Many had none.

No, there is not.

First, most rural counties have local stations, and the interests of metro
vs. rural are very different.

Half the people in the USA live beyond the major cities and their
suburbs. 90% of them listen to the radio. Some percentage of them
listen at night. News/Talk is a very popular format.

That's not the point. They don't survey people outside of the metros.

Second, radio advertising is bought by the market, not the coverage. There
is nearly no money to be made (except a few metro farm zone stations still
make small revenue with agribusiness sales) outside one's own metro.

Immigrants come here with their music tastes formed. Nobody changes them.

Salsa, by the way, originated in NY and was, mostly, created by born US

There are 300 rated metros, and roughly 6,500 stations licenesed to them.
Those 300 metros make up about 80% of the US population.

The population of the top 50 metros, 12+ (the ratings base) is over
125,000,000 and is about 55% of the 12+ population of the US. The remaining
250 rated metros bring the metro population to nearly 80% of the population

There are 14059 radio stations in the . Nearly 8000 of them are in non-metro
areas, so rural listeners have a disproprotionate number of stations... 8000
for just over 20% of the population.

> Some percentage of them
> listen at night. News/Talk is a very popular format.

Very few listen to AM at night. That is why almost all radio revenue is
earned in 6 AM to 7 PM.

Population 12+ top 50 metros.

Yes, they do. All but a couple of counties in the US are part of DMA's, or
Dominant Market Areas. Arbitron surveys both the MSA (Metro Survey Area,
similar to the Census Metropolitan Statistical Area) and the DMA. There is
an annual county by county rating for every county in the US.

The Los Angeles DMA extends to Barstow and Bishop, in fact.. It's all
surveyed.

Isn't that something you buy at a lumber yard? Maybe you meant
"bored". But thanks anyway for your carefully considered, intelligent,

Oh, by the way...you never did say if sharing *your* filter with the
entire group was obsessive compulsive, trying to assuage your guilt

Entercom (and I worked for them) not only clones formats, they clone
programs (or rather they feed programs from one source to various locales).
97.3 in Seattle for most of the time runs (or ran, who knows what they have
done recently) EXACTLY the same program as 97.1 in Portland. Around Olympia
you can hear them both on a decent car stereo and they are in perfect
lockstep (microwave feed).

It would appear that seventy percent of the US population see things my way. They don't want the US to go down in history as a monster state with no morals or integrity. The twenty nine percent who love war and Bush are the twisted ones.

You know it.

The hammies want us to leave their prescous 10 meter band and some guy with the ham handle arnewsline qrz.com is tryin to organize them to fight us. Go read this.

Fighting the 10 meter freeband invasion

If you are wondering what all those conversations without call signs are on 28.085 MHz, well it appears to be a small invasion of unlicensed truckers and so called Freeband operators of our 10 meter band. We have more in this report:

Originally confined to portions of the mid-West, the pirate trucker and Freeband epidemic appears to be spreading nationwide. This, as more and more of these illegal operators are making their unauthorized home on 28.085 Megahertz and several other 10 meter frequencies.

And what is the Amateur Radio community doing about this invasion? On the surface at least, very little. With the upper High frequency bands not offering very much D-X these days, the majority of hams are sticking to 20, 40 and 80 meters with few stations heard in the 15, 12 and 10 meter spectrum. So the truckers and Freebanders see this is fair game for their unlawful operations and are busy establishing squatters rights in these bands.

What about the FCC? Well its doing what it can. There have been several well publicized violation notices sent to trucking firms. They request owners to instruct their drivers to curtail any operations for which they are not licensed and threatening punitive action such as fines. But that’s about it. With the FCC enforcement folks stretched thin and Freeband operations being among the lowest of priorities on the enforcement agenda, there is no reason to believe that there is going to be any sort of massive sweep by the Federal government to clear these pirate operators out of the ham radio bands.

In the end, it will be the ham radio community that will have to defend these frequencies. And it does that by using them. If hams load up 10 meters or any band with legitimate Amateur Radio operations, there will be no place for the illegals to play and they will go elsewhere.

In the case of 28.085, there have been suggestions that this frequency become a national CW or RTTY Calling Channel. That’s a pretty good

approach. Another is for every ham with the capability of operating 10 meters to start holding QSO's on that frequency. As any Morse enthusiast will tell you, CW can get through even when faced with all sorts of QRM including pirate operators using voice.

The bottom line. if licensed radio amateurs fill up 10 meters even for local chats, the truckers and Frreebanders will soon be looking elsewhere for a new home.

Evi Simons
Amateur Radio Newsline

About two decades ago, then 73 Magazine editor Wayne Green, W2NSD, coined the phrase "Use it or loose it." Back then, it was applied to the pending transfer of 220 to 222 MHz away from Amateur Radio. Today the same words ring important in fighting those without licenses who are trying to take 10 meters forcibly from hams.

Ok , thanks for the info,

Im using a racal ra6790gm , which has 20 Khz wide filter, I can set the bf o up to + - 8 Khz from center frequeny .. so if the signal is a '12khz block' then setting cw, pass band 20 khz the bfo at either +6 or -6 Khz , that should produce the 12 khz down conversion ? , the audio bandwith is a littlw over 11 khz , looking of spectrumlab , so it should handle the signal as 'audio'

I assume the published frequency is the 'center frequency' so setting the dial at that and the bfo offset to 6 khz , should produce the correct spectrum ?

Yes. Sounds right to me.
The -6 kHz bfo setting is more likely to be correct
than +6 kHz. With -6 kHz the lowest RF frequency is
converted to the lowest audio frequency. +6 kHz would
invert that.

So 20 kHz is the IF width and 11 kHz is the audio width?
I hope the drm demodulator doesn't miss that last kHz.
There is a fair possibility it won't.

Actually, I was projecting the rotten grammar of the previous poster.
They meant 'in search a clue'...not clued.

Do we have ANY idea who that anonymous poster could have been?

The phrase "Knuckle-Draggers In Search Of A Clued - Don't Need Your
Elitist Help" is confusing.

It means the knuckle draggers don't need the help of the elitists. You
called Mr. Tootles an elitist. If he is the elitist, then YOU become the
knuckle dragger.

Are you being self effacing or merely admitting facts?

We need the FCC to make the CW/SSB split voluntary on this band, so we can tell the truckers where to go! As long as they are using phone in our CW subband most of us won't be able to legally warn them off. I don't even have a Morse key with a jack plug on it that fits any of my rigs.

We're not talking about human perceptions, we're talking about a
radio.

Anyway, how much power does a radio signal to need to be picked up?

To start with, there is electronics noise. This comes from temperature
of the circuit, and how wide the frequency response. The equation is
kTB, where k is Boltzmann's Constant, T it the absolute temperature

in Kelvin, and B is the bandwidth in Hertz. This is called the thermal
noise power.

Next, there's a fudge factor, called either the Noise Factor or the
same thing stated in decibels, the Noise Figure. It's determined by
the quality of the transistors (or other active amplifying element)
and the topology of the circuit. It specifies how much more noise is
added in the circuit. The best way to get it is to measure it.
(5db, about a factor of 3, would be for a pretty good shortwave radio).

Multiply thermal noise power by the noise factor, and you find the
"noise floor", or "minimum detectable signal" for a circuit.

But that doesn't do you much good, because all you can do with that is,
maybe, tell if there is a signal there, or perhaps not. So you need
more power in the signal to overcome the noise. For reasonable audio,
a factor of 10,000 for power is in the ball park. (This is usually
expressed as decibels, ie. 40 dB).

So here's a cut and paste from a unix program that does calulations with
stated dimensions, along with some comments.

```
>[mzenier@localhost mzenier]$ units --verbose
>1948 units, 71 prefixes, 28 functions
>
>You have: boltzmann * 290 kelvin * 6 kilohertz * 3 * 10000
```

Boltzmann's constant * room temperature * bandwidth * Noise Factor * 40 dB

```
>You want: watts
> boltzmann * 290 kelvin * 6 kilohertz * 3 * 10000
= 7.2069944e-13 watts
```

This is how much power is needed to receive the signal with a signal
to noise ratio of 40 dB in a shortwave radio.

```
>You have: 150 kilohertz h
```

frequency * Planck's Constant

```
>You want: joules
> 150 kilohertz h = 9.9391031e-29 joules
```

Energy per photon at 150 kHz

```
>You have: (boltzmann * 290 kelvin * 6 kilohertz * 3 * 10000)/(150 kilohertz h)
>You want: hertz
> (boltzmann * 290 kelvin * 6 kilohertz * 3 * 10000)/(150 kilohertz h)
> = 7.2511517e+15 hertz
```

Divide the power needed by the energy in each photon, and you get the
number of Photons per second at 150 kHz to give a 40 dB signal to noise
ratio in a pretty good quality receiver with a 6 kilohertz bandwidth.

7.2511517e+15 is a lot more than 20,000.

(And a good demonstration why they don't use the math for quantum physics
for radio frequency calculations.)

I've gotten a few responses about this post. Somebody named "David" e-mailed
me with a spam protected address. I don't have time to sort through this
type of e-mail.
Anyway, the original intent of my post was to inform folks that I will
repair these units for a price. Thanks!

DE - In spite of all your Numbers and Expertise :

HD Radio has not been a : Wow I Like It !
experience for me to date. Being that I am a
Rural Radio Listener who evidently lives beyond
the 10mv/m Contour of Radio Stations in Fresno,
Merced, Modesto, Stockton and Sacramento, CA.

1 - The few FM "HD" Radio Stations that I can receive
are OK but i get a lot more Analog FM Radio Stations
with a good Stereo Signal. - So FM "HD" Radio needs
to kick-up the Power a few Percentage Points to be
'considered' a equal competitor for my Listenership
with Analog.
-Note- This is using the Radiosophy "HD100" Radio
and a simple TV Rabit-Ears {FM Dipole} Antenna.

2 - The Blinking Blue Lights that I get on the AM/MW
Radio Band - Tells me again that the Analog AM/MW
Radio Signal is getting through -but- the Digital Signal
can not quite make it all the way to me. - - So AM/MW
"HD" Radio Signal needs to kick-up the Power a few

Percentage Points to be 'considered' a equal competitor
for my Listenership with Analog.
-Note- This is using the Radiosophy "HD100" Radio
-first- with the OEM 3"x4" Six-Turn AM Loop Antenna
-second- with a 23" Diameter Three-Turn AM Loop
Antenna.

OBTW - The Radiosophy "HD100" Radio seemed to
pick-up just as many Analog AM/MW and FM Radio
Stations up here in Twain Harte, CA {over the Hills
and down in a Valley} as the GE Superadio III and
the Redsun RP2100 - So It Ain't The Radio's Problem.

IMHO - HD Radio at 1% Power is Not Ready for Prime Time !

Hi Roadie!

I chose the DE1121 because on a crowded band like 49m it outperforms
the DE1103, makes unattended recordings and the RDS-esque way that
station names appear as you tune into them while browsing regardless
of band is a sockdologer.

And I'm a masochist.

Best regards,

No probs. Mini review just for you;

DE1103: fab sensitivity FM, MW and lack of FM images, simple UI (except for volume control), unhelpful memories, good speaker, amazing value for money. Very swish tuning, hopeless clock.

DE1121: improved AM selectivity, almost identical SW sensitivity, USB connection, excellent memories, poor speaker but non-existent noise floor, idiosynctatic UI. MP3 stuff.

DE1103 slightly better technical spec, DE1121 does everything and copes with crowded bands better. Buy both and you'll probably sell the DE1103 first as the DE1121's plusses outweigh its minuses.

Really really mini review: No clear winner.

Happy listening!

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to testify to Congress because Congress, in fact, doesn't have oversight abilities."

IT LOOKS like they are going to attempt making the move of BLATANTLY TREASONOUS war criminals acting to measurably now destroy yOur Freedoms in godless America. The Satanic neocon's 'faith', is in that YOU as an American, will watch the same corporate drivel that offers next to nothing to impower YOURSELF to speak Justly for a dying America. Instead of demanding 24 hour, wall to wall news coverage, of war criminals going down one by one by the will of Man to Justice, CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that you are only a impartial viewer, who doesn't really care about dying right in front of yourself for the zionist's riches, and great worldly power of tyranny through nazi censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Jesus man, do I truly hate these zionist nazi thieving LIARS on our magic TV shows who con our kids to die as bad guys. How about You?

/ / If Bush and his PNAC buds are innocent, then Investigate 911! What have innocent people to fear from a fair, complete and real investigation? \ \

They are guilty, so, of course, the demon Bush enemy OBSTRUCTED JUSTICE FOR AMERICA.

I hear the national radio program Coast to Coast is still feeding us neocon lies. Why don't you make the call for Johnny.. believe in yourself for a change why don't you?, buddies??... I am Your god king. King Johnny I am. Champion of Universal Life! Not enough? Who cares?, to allow US speak on our broad casts as legitimate? Worried I'm going to love Life as truly honorable, and Greater than those who openly lie

to our soldiers to have them unjustly die for no better good or reason understood? Let us make life better than the neocon envision, and support our rise to popular acclaim by allowing US to speak openly for public challenge in defense of America.

Death to the neocon soldier, death to the enemies of Man.

True US Bush Iraq-Afghan Wars Deaths At 21,000
//www.rense.com/general77/true.htm

"In the last four years of war in Afghanistan and Iraq, the unreported death toll of American military personnel is in excess of 20,000 (20, 871)"

It's in cowardice that 'Americans' don't speak out for the lost 'loves' of their dumber than dumb sons.

ISRAEL PEDDLING WHORES TO ATTRACT TOURISTS
//desertpeace.blogspot.com/2007/06/israel-peddling-flesh-to-attract.html

[The freely self confessed child murderers of the IDF, tell US as demon liars, they're "Jews". Anyone in Israel KNOWS this factually to be so. For, the zionist forbid 'by law', to allow military service from anyone in Israel who disagree that God would will the thieving and murder of the completely innocent in GOD accepting without question. Now why would YOU want that?]

/ / So honestly, they could have just done it as "hot chicks of Israel" instead of including the military element. that's the sick part. [..] the sick part is the exploitation of women. For a government to officially sanction such a campaign is a sign of how bankrupt they really are, and I'm not talking tourist dollars. \ \

The nazi IDF does what Canada's dope pusher O'Conner suggests we accept. Demon enemy bushite in Afghanistan murder children without real understanding 'by accident', [no evidence is shown to ANYONE, just treasonous demon evil bushite necon spewing, "red handed"] lies after lies, while, the Taliban, we are told, are so much worse, because they would murder "ANYONE." Make sense? No. Remember: evil is played dumb. (The bush regime has been found funding Al-Qaida in Iran to commit terrorist acts against COWARDLY soldiers without free minds to speak in their own defenses.)

/ / The group is demanding his impeachment not only for his crimes against humanity but for lying to the American people about his worship of Satan. \ \

It almost makes me laugh, and then, I push to remind, we are so very far from where civilized is dreamed to reside. Look, think of US as actors, (because that is who we are,) and support my rise to proclaim by the will of a suffering for real human kind. Believe in US, as if your life depends on it, because it does my friends, because it does. Live free or die unwillingly.

/ / We know that a crime was committed on 911. George W. Bush, of course, quashed all investigations before they could begin. Since when are crimes not investigated? [...] It is not too late, however, to begin such an investigation. There is no statute of limitations on mass murder. \ \

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying

These are crimes against Christ, and any 'Christian' who lawlessly participates in this pro-bush torture of US Humans, MUST be hunted down by the Patriot, to have the STANDING LAW in America enforced to institute the Death Sentence to those bushite responsible for such ungodly enemy actions.

Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled inspectors out of Iraq, but then... how is this not HELL to pay?

/ / Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power." \ \ HE LIED. Not the 'NWO', George Walker Bush, who Alex Jones tells US to look away, because he's only a puppet. Should not Bush be held accountable to the criminal actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

Neocon Soldier

Bushites who war as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

Johnny Wizard

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Kucinich for President!
//www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS,
while George W. Bush personally stole 50 billion from America
in the first four months of stealing the initial election.

godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously
kill this lawless bushite enemy and his demonic ilk, for our
love of girls everywhere? Or, how about the UNARRESTED
soldiers we witnessed on video beat shoeless children
pratically to death while laughing and cheering? Or like

CONFESS to going into a house, WITHOUT reasoned approach, and
slaughtering an entire INNOCENT family.. for nothing but
their lifeless SATANIC pleasures. The 'cause'? "The [mass

To, for God, gloriously, with love, kill these unarrested
murderous continuing ungodly bushite nazis, is to war the TRUE
enemies of Humanity to save the lives of our precious loved
ones. \ \

The Pentagon's Power to Jail Americans Indefinitely
//www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction

forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be

REALLY good! \ \ iiIII! can't even do that.. well...
easily from Canada as an official non-fugitive that is. Just
what is the going rate of satellite phone service out of
Afghanistan? Remember: evil is DUMB about everything,
including technology. Or so, how are we missed for report by
point to point presentation using the same old satellite for
phone service? Repeatedly calling the same mumblers? Jesus,
If we really worked at it, I could probably reach where they
were in a day or two by hitch-hiking.

elite corporate media masters, kill our stupid kids with their
flagrant naked monster lies, while refusing all calls for

Company C said that on May 8, the night before the raid,
Colonel Steele told soldiers to ``kill all of them.'' Three
other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why?
because there truly is, no honor among thieves. Every bushite

soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) The time is now.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." //cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to

say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a heavenly good thing actually he means? What the. does he mean?? Find out!, in the new candid, let's talk politics interview, with no other than, PRESIDENT GEORGE W. BUSH. (talk about having connections!) Have your mind blown on his TRUE wisdom, seldom since ever, so wisely articulated in a more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of

Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for
yourself, or your loved ones. And did you know, I'm trying to
get on international radio without a censor to thunder my
audience back into submission. I HATE HANNITY. All I want is
free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by
the dumfuks. Justice is Paramount through reason to be so.
The Bush Administration have been up to no good, escaping for
911, that New York City should sue for. Hire me on as legal
consultant buddies, cause I'm like near starving broke here,
with supreme court challenges failing my cost factor, and
hunger pangs slowing our progress on fighting unjust
incarceration. I desperately need money, like now, as a gift,
or an advance on a industry paid private consultant gig. Or,
instead, maybe you'll idly watch some innocent person
willfully be sent to prison by liars in your demonized name,
to defend the ungodly evils of war criminal traitor, our Mr.
Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even
time, and Justice is binding to defend our lives if practiced
fairly with it's elemental divisions through reason. Example:
a person accused of a criminal offence, without any evidence,
is INNOCENT. Those who say otherwise, are the actual
terror-ists. Civilization's ancient Founder Hammurabi,
suggested just to openly publicly have executed those who lay
capital allegations without any evidence, while working to
close outstanding criminal investigations. A made CRIME
within ourselves Hammurabi claimed, and by thinking such ways,
brought birth of 'Civilized' to an untamed till then, chaotic
confusion. Old becomes again anew, because Americans are weak
as polluted, and too cowardly to defend the rights of US
innocent. Let's change that. Support my climb to
international controversy, with my unchallenged claims of
direct accountability being sought, for the 911's neocon war
terror plot.

P.S. someone tell Hannity, I got a beef with
his demon lies to sacrifice our guys. I'm calling
Hannity out to explain himself freely to US now,
as a demand for an immediate match between him and
ourselves in the dug pit of his utter contempt for
our free to be alive communications.

'A military judge ruled last week that Watada cannot base his
defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God

and America, who's word, as Oath, means as much to them, as we do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where

he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play

radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually,

public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the

publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly

soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

My friends, People are dying because the magic radio and TV wont broadcast our publicly available findings. Police findings. People are dying needlessly, illegally, irrationally like meaning really stupidly on Bush's behalf, for they claim, we don't want to be 'embarrassing ourselves', leaving our forsaken Johnny Wizard's Wild Wow World of Wonder Wording Wees!.. mostly just appreciated by myself as sole surprised spectator, because you people seem to not be there for God when the chips are down, and truth is plain to see.. 911 was an inside job, and CBC with CNN don't want to tell us about it, but will watch our LOVED children lied to, to go out and die further for a causeless war of criminality unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

Onward Christian Soldier.
